(C) Documentation requested by the Department of the provisional licensee that demonstrates the furtherance of environmental review during the previous 12-month licensure term;

(D) Other information requested by the Department from the provisional licensee that demonstrates evidence of substantial progress toward compliance with CEQA during the previous 12-month licensure term; or

(E) Documentation that demonstrates compliance with CEQA is complete.

(2) For cultivation licenses, a provisional licensee must also provide one of the following forms of documentation demonstrating progress with compliance with chapter 6 (commencing with section 1600) of division 2 of the Fish and Game Code:

(A) A final streambed alteration agreement issued by the Department of Fish and Wildlife;

(B) A draft streambed alteration agreement provided by the Department of Fish and Wildlife and signed and returned to the Department of Fish and Wildlife by the provisional licensee;

(C) Written verification by the Department of Fish and Wildlife that the provisional licensee has submitted a complete notification described in section 1602 of the Fish and Game Code; or

(D) Written verification by the Department of Fish and Wildlife that a streambed alteration agreement is not needed.

(c) For provisional license renewals on or after July 1, 2023, in addition to the information required in section 15020, a provisional licensee must also provide to the Department:

(1) Documentation, such as a full or partial copy of the administrative record, demonstrating that one of the following CEQA requirements has been met:

(A) The local jurisdiction has prepared and circulated for public review a negative declaration or a mitigated negative declaration;

(B) The local jurisdiction has determined that an environmental impact report is required pursuant to section 21157 of the Public Resources Code and has either made substantial progress in preparing that environmental impact report or has a contract or contracts with consultants in place for the preparation of that environmental impact report;

(C) The local jurisdiction has certified that it has conducted a reasonably comprehensive site-specific review and has reviewed, prepared, and deemed complete an initial study, addendum, or checklist pursuant to title 14, California Code of Regulations, section

15063, 15164, 15168, or 15183 demonstrating consistency with a previously circulated and adopted negative declaration, mitigated negative declaration, or environmental impact report, in preparation for approval of an annual license; or

(D) The local jurisdiction has reviewed, prepared, and deemed complete a notice of exemption pursuant to section 21108 or 21152 of the Public Resources Code, except for ministerial projects not subject to the California Environmental Quality Act pursuant to section 21080(b)(1) of the Public Resources Code.

(E) Documentation submitted pursuant to subsection (c)(1) may include, but is not limited to:

(i) Any environmental documentation, including, but not limited to, an exemption, initial study, negative declaration, mitigated negative declaration, and/or environmental impact report;

(ii) Any staff reports and related documents prepared by the local jurisdiction;

(iii) Any written transcript or minutes of the proceedings of the local jurisdiction;

(iv) Any notice(s) issued by the local jurisdiction to comply with CEQA and the CEQA Guidelines;

(v) Any proposed decisions or findings considered by the local jurisdiction by its staff or the applicant; and

(vi) Any documentation of the local jurisdiction's final decision.

(2) For cultivation licensees, one of the following forms of documentation demonstrating progress with compliance with chapter 6 (commencing with section 1600) of division 2 of the Fish and Game Code:

(A) A final streambed alteration agreement issued by the Department of Fish and Wildlife;

(B) A draft streambed alteration agreement provided by the Department of Fish and Wildlife and signed and returned to the Department of Fish and Wildlife by the provisional licensee; or

(C) Written verification from the Department of Fish and Wildlife that a streambed alteration agreement is not needed.

(d) The Department will not renew a provisional license authorizing cultivation if:

(1) The State Water Resources Control Board has notified the Department that the provisional licensee is not in compliance with section 26060.1(a) or (b) of the Business and Professions Code or the principles, guidelines, and requirements established pursuant to section 13149 of the Water Code.

(2) The Department of Fish and Wildlife has notified the Department that the provisional licensee is not in compliance with any final streambed alteration agreement, any conditions set forth in a signed draft streambed alteration agreement, or a condition established pursuant to section 26060.1(a) or (b)(1) and (2) of the Business and Professions Code.

(3) After January 1, 2023, if renewing the license would cause a licensee to hold multiple cultivation licenses on contiguous premises to exceed one acre of total canopy for outdoor cultivation or 22,000 square feet for mixed-light or indoor cultivation. For the purposes of this section, premises will be considered contiguous if they are connected, touching, or adjoining.

Authority: Section 26013, Business and Professions Code. Reference: Section 26050.2, Business and Professions Code.

§15001.3. Notice of Provisional License Review.

(a) When the Department is considering the suspension, revocation, or denial of renewal of a provisional license pursuant to Business and Professions Code section 26050.2, the Department shall issue a Notice of Provisional License Review to a provisional licensee for failure to comply with the Act or its implementing regulations.

(b) The Notice of Provisional License Review shall be in writing and state the following:

(1) The nature and facts of each violation, including a reference to the statutory and/or regulatory section(s) violated;

(2) The manner in which the provisional licensee must correct the violation(s) to achieve compliance;

(3) That the Department is considering suspending, revoking, or denying the renewal of the provisional license.

(4) That the provisional licensee may provide the Department with information related to the observed violation(s) and potential license action for the Department's consideration during its provisional license review. The information may include statements, including a statement that the Department should not take the action under consideration, and any relevant documentation, including evidence that the violation(s) did not occur, of correction of the violation(s), or of mitigation. The provisional licensee may also request an informal meeting with the Department to discuss the matter and may be accompanied by an attorney or other representative.

(c) The Department shall serve the Notice of Provisional License Review by mail or electronic mail to the provisional licensee's designated responsible party, or in person to the licensee or an employee or agent of the provisional licensee.

Authority: Section 26013, Business and Professions Code. Reference: Section 26050.2, Business and Professions Code.

§15001.4. Immediate Suspension of Provisional License.

(a) The Department may immediately suspend any provisional license, or immediately impose licensing restrictions or other conditions upon any provisional licensee, if necessary to protect public health, safety, or welfare.

(b) An order issued pursuant to subsection (a) shall be in writing and describe the following:

Department of Cannabis Control

- (1) The nature and facts of each violation, including a reference to the statutory and/or regulatory section(s) violated; and
- (2) Whether the provisional license is suspended or the provisional licensee may continue to operate subject to restrictions or other conditions.
- (c) Following the issuance of an order pursuant to subsection (a), the Department shall serve the provisional licensee with a Notice of Provisional License Review pursuant to section 15001.3.

Authority: Section 26013, Business and Professions Code. Reference: Section 26050.2, Business and Professions Code.

§15002. Annual License Application Requirements.

- (a) Applications may be completed and submitted online at www.cannabis.ca.gov.
- (b) Applicants who submit their applications online shall first register for a user account if required by the licensing system. To register for a user account, the applicant shall do all of the following as requested by the licensing system:
 - (1) Create a username, password, and security question and answer;
 - (2) Provide an email address; and
 - (3) Provide the owner's first and last name, primary phone number, Social Security number or individual taxpayer identification number, date of birth, and mailing address.
- (c) An application must be completed by an owner as defined by section 15003. An application for an annual cannabis license includes the following:
 - (1) The legal first and last name of the applicant and the legal business name of the commercial cannabis business.
 - (2) Every business trade name, fictitious business name, and doing business as ("DBA") under which the commercial cannabis business will operate.
 - (3) The commercial cannabis license for which the applicant is applying, and whether the applicant is requesting that the license be designated as medicinal, adult-use, or both, if applicable.
 - (4) Payment of an application fee pursuant to section 15014.
 - (5) The physical address of the premises or the assessor parcel number. If the Department is unable to confirm that the address provided is valid, then the applicant shall provide a document that confirms the physical address or location of the premises. Such a document may include a utility bill, printed information from the county assessor, deed, or title.
 - (6) The mailing address for the commercial cannabis business, if different from the premises address.
 - (7) The telephone number for the commercial cannabis business.
 - (8) The website address of the commercial cannabis business, if any.

(9) The number under which the commercial cannabis business files federal taxes, such as a federal employer identification number, federal taxpayer identification number, individual taxpayer identification number, Social Security number, or national identification number.

(10) Contact information for the owner of the commercial cannabis business who will serve as the designated primary contact person or designated responsible party for the business, including the name, title, phone number, and email address of the individual.

(11) The full legal name, mailing address, primary contact phone number, email address, and preferred method of written communication (e.g., standard mail or email) of each individual or entity serving as agent for service of process for the commercial cannabis business, if any.

(12) A description of the business organizational structure of the commercial cannabis business, such as partnership, joint venture, limited liability company, sole proprietorship, trust, or corporation.

(13) Upon request, business formation documents that are not available online through the California Secretary of State, which may include, but are not limited to operating agreements, bylaws, and other documents that establish ownership or control over the commercial cannabis business. If the commercial cannabis business is held in trust, the applicant shall provide a copy of the certificate of trust establishing trustee authority.

(14) A commercial cannabis business that is a foreign corporation or foreign limited liability company shall include in its application a certificate of qualification, certificate of registration, or certificate of status issued by the California Secretary of State.

(15) A complete list of every financial interest holder of the commercial cannabis business as defined in section 15004, who is not an owner as defined in section 15003. The list of financial interest holders shall include:

(A) For financial interest holders that are individuals, the first and last name of the individual, a contact phone number and email address, and the type and number of the individual's government-issued identification, such as a driver's license.

(B) For financial interest holders that are entities, the legal business name, the name and phone number and email address of the entity's primary contact, and federal taxpayer identification number of the entity.

(16) A complete list of every owner of the commercial cannabis business, as defined in section 15003. Each individual named on this list shall submit the following information:

(A) The full name of the owner.

(B) The owner's title within the commercial cannabis business.

(C) The owner's date of birth and place of birth.

(D) The owner's Social Security number or individual taxpayer identification number.

(E) The owner's mailing address.

(F) The owner's telephone number. This may include a number for the owner's home, business, or mobile telephone.

Department of Cannabis Control

(G) The owner's email address.

(H) The owner's current employer.

(I) The percentage of the ownership interest held in the commercial cannabis business by the owner.

(J) The number of the owner's government-issued identification. Acceptable forms of identification are a document issued by a federal, state, county, or municipal government that includes the name, date of birth, gender, and photo of the person, such as a driver's license or passport.

(K) A copy of the owner's completed application for electronic fingerprint images submitted to the Department of Justice.

(L) A statement of rehabilitation may be submitted by the owner for any conviction, but is not required. The statement of rehabilitation is to be written by the owner and may contain evidence that the owner would like the Department to consider that demonstrates the owner's fitness for licensure. Supporting evidence may be attached to the statement of rehabilitation and may include, but is not limited to, a certificate of rehabilitation under Penal Code section 4852.01, and dated letters of reference from employers, instructors, or professional counselors that contain valid contact information for the individual providing the reference.

(M) If applicable, a detailed description of any administrative orders or civil judgments for violations of labor standards, any suspension of a commercial cannabis license, revocation of a commercial cannabis license, or sanctions for unlicensed commercial cannabis activity by a licensing authority, local agency, or state agency against the owner in their individual capacity or a business entity in which the owner was an owner or officer within the three years immediately preceding the date of the application. The owner may provide mitigating information including, but not limited to, a statement of rehabilitation, to the Department for consideration if any prior discipline disclosed pursuant to this section may result in denial of the application.

(N) Attestation to the following statement: Under penalty of perjury, I hereby declare that the information contained within and submitted with this application is complete, true, and accurate. I understand that a misrepresentation of fact is cause for rejection of this application, denial of the license, or revocation of a license issued.

(17) Evidence that the commercial cannabis business has the legal right to occupy and use the proposed location that complies with section 15007.

(18) An attestation that the proposed premises is in compliance with Business and Professions Code section 26054(b) and, if requested, evidence of compliance. For purposes of this section, evidence of compliance with Business and Professions Code section 26054(b) may be a copy of a valid license, permit, or other authorization issued by the applicable local jurisdiction or a notification from the applicable local jurisdiction stating that the commercial cannabis business is in compliance with local ordinances and regulations.

(19) For a commercial cannabis business with 20 or more employees, the applicant shall either provide a notarized statement that the commercial cannabis business will enter

Department of Cannabis Control

into and abide by the terms of a labor peace agreement or demonstrate that the commercial cannabis business has entered into a labor peace agreement by providing a copy of the signature page of the agreement. For a commercial cannabis business with fewer than 20 employees that has not yet entered into a labor peace agreement, provide a notarized statement indicating that the applicant will enter into and abide by the terms of a labor peace agreement within 60 days of employing its 20th employee.

(20) The applicant shall provide a valid seller's permit number issued by the California Department of Tax and Fee Administration, if applicable. If the commercial cannabis business has not yet received a seller's permit, the commercial cannabis business shall attest that the commercial cannabis business is currently applying for a seller's permit.

(21) A diagram of the premises as required by section 15006.

(22) Proof of a surety bond of at least \$5,000 payable to the State of California for each licensed premises. All bonds required under this section shall be issued by a corporate surety licensed to transact surety business in the State of California. An aggregated bond may be used when multiple licenses are held by the same commercial cannabis business.

(23) Additional information as required by section 15011.

(24) When an applicant provides a license, permit, or other authorization from the local jurisdiction where the licensed premises will be or is located, the Department will notify the applicable local jurisdiction to confirm the validity of the authorization. If the local jurisdiction does not respond within 10 calendar days, the Department shall consider the authorization valid.

(25) The limited waiver of sovereign immunity required by section 15009, if applicable.

(26) Evidence of exemption from, or compliance with, the California Environmental Quality Act as required by section 15010.

(27) The commercial cannabis business' State Employer Identification Number (SEIN) issued by the California Employment Development Department, if applicable.

(28) For a commercial cannabis business with more than one employee, the applicant shall attest that the commercial cannabis business employs, or will employ within one year of receiving a license, one supervisor and one employee who have successfully completed a Cal-OSHA 30-hour general industry outreach course offered by a training provider that is authorized by an OSHA Training Institute Education Center to provide the course.

(29) An applicant shall disclose whether they have been denied a license or had a license suspended or revoked by the Department or any other state cannabis licensing authority. The applicant shall provide the type of license denied, suspended, or revoked, the name of the licensing authority, and the date of the denial, suspension, or revocation.

(d) An applicant for a cannabis event organizer license shall not be required to comply with subsections (c)(5), (c)(17), (c)(20), (c)(21), (c)(22), (c)(24), (c)(25), and (c)(26).

§15002.1. Temporary Cannabis Event Application.

(a) A temporary cannabis event license shall only be issued to a person who holds a cannabis event organizer license issued by the Department.

(b) An application for a temporary cannabis event license shall include the following:

(1) The name of the applicant. For applicants who are individuals, the applicant shall provide both the first and last name of the individual. For applicants who are business entities, the applicant shall provide the legal business name of the entity.

(2) The license number for each state cannabis license held by the applicant.

(3) The address of the location where the temporary cannabis event will be held, or if no address exists, the assessor parcel number, or street description.

(4) The name of the temporary cannabis event.

(5) A diagram of the physical layout of the temporary cannabis event. The diagram shall clearly indicate where the temporary cannabis event will be taking place on the location grounds, all entrances and exits that will be used by participants during the event, all cannabis goods consumption areas, and all areas where cannabis and cannabis products will be sold or displayed. The hours during which cannabis goods will be sold shall be noted on the diagram. The diagram shall also clearly indicate the area where cannabis waste will be stored, all areas where cannabis goods will be stored, and the specific location of each cannabis licensee and non-cannabis vendor who will be participating in the event. Each cannabis licensee and non-cannabis vendor participating in the event shall be identified with an assigned temporary cannabis event location number. The diagram shall also designate a limited-access area that can only be accessed by the cannabis event organizer and Department representatives.

(6) The dates and hours of operation for which the temporary cannabis event license is being sought. A temporary event license is required for any date in which the applicant engages in onsite cannabis goods sales or allows onsite cannabis goods consumption.

(7) Contact information for the applicant's designated primary contact person regarding the temporary event license, including the name, title, address, phone number, and email address of the individual.

(8) Contact information for a designated contact person(s) who shall be onsite at the event and reachable by telephone at all times during the event.

(9) Written approval from the local jurisdiction authorizing the applicant to engage in onsite cannabis goods sales to, and onsite consumption by, persons 21 years of age or older at the temporary cannabis event at the proposed location.

(10) A list of all licensees who will be participating in the event that provides a designated

Department of Cannabis Control

contact for each licensee who will be responsible for that licensee's activities during the event and will be available to the Department in person or by phone throughout the event, whether the licensee will be selling cannabis goods at the event, whether the licensee will be selling any non-cannabis products at the event, and a description of the type of non-cannabis products that will be sold, if applicable.

(11) A list of all non-cannabis vendors who will be participating in the event, a description of the type of product they will be selling or displaying, and contact information for a designated contact person.

(12) Attestation to the following statement: Under penalty of perjury, I hereby declare that the information contained within and submitted with this application is complete, true, and accurate. I understand that a misrepresentation of fact is cause for rejection of this application, denial of the license, or revocation of a license issued.

(4) Persons who hold a share of stock that is less than 10 percent of the total shares in a publicly traded or privately held company.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012 and 26051.5, Business and Professions Code.

§15004.1. Independence of Testing Laboratories.

(a) A licensed testing laboratory shall maintain independence from persons who hold a license or an interest in a commercial cannabis business licensed for any activity other than testing.

(b) A person who is an owner or financial interest holder of a licensed testing laboratory shall not be an owner or financial interest holder of a commercial cannabis business licensed for any activity other than testing.

(c) A licensed testing laboratory shall not lease real or personal property from or to a commercial cannabis business licensed for any activity other than testing.

(d) A licensed testing laboratory shall not employ any person who is employed by, or is an owner or financial interest holder of, a commercial cannabis business licensed for any activity other than testing.

(e) A licensed testing laboratory shall not offer or agree to provide preferential treatment, including discounted testing services, to any other licensee unless the offer or agreement is available to all licensees.

Authority: Section 26013, Business and Professions Code. Reference: Section 26053, Business and Professions Code.

§15005. Personnel Prohibited from Holding Licenses.

(a) A license authorized by the Act and issued by the Department may not be held by, or issued to, any person holding office in, or employed by, any agency of the State of California or any of its political subdivisions when the duties of such person have to do with the enforcement of the Act or any other penal provisions of law of this State prohibiting or regulating the sale, use, possession, transportation, distribution, testing, manufacturing, or cultivation of cannabis or cannabis products.

(b) This section applies to, but is not limited to, any person employed in the State of California Department of Justice as a peace officer, in any district attorney's office, in any city attorney's office, in any sheriff's office, or in any local police department.

(c) No person listed in subsection (a) or (b) may have any ownership interest, directly or indirectly, in any business to be operated or conducted under a cannabis license.

(d) This section does not apply to any person who holds a license in the capacity of executor, administrator, or guardian.

Authority: Section 26013, Business and Professions Code. Reference: Section 26012, Business and Professions Code.

Department of Cannabis Control

§15006. Premises Diagram.

(a) An applicant shall submit to the Department, with the application, a complete and detailed diagram of the proposed premises. The diagram shall be used by the Department to determine whether the premises meets the requirements under this division and the Act. The Department shall deny an application if the premises does not qualify for licensure pursuant to Business and Professions Code section 26057.

§15007. Landowner Approval.

- (a) If the commercial cannabis business is not the landowner of the real property upon which the premises is located, the commercial cannabis business shall provide to the Department a document from the landowner or the landowner's agent that states that the commercial cannabis business has the right to occupy the property and acknowledges that the commercial cannabis business may use the property for the commercial cannabis activity for which the commercial cannabis business is applying for licensure. An applicant shall also provide a copy of the rental agreement, as applicable.

(b) If the commercial cannabis business is the landowner of the real property upon which the premises is located, the commercial cannabis business shall provide to the Department a copy of the title or deed to the property.

(c) If the landowner is a trust, the landowner approval shall come from the person who holds equitable title in the real property.

Authority: Section 26013, Business and Professions Code. Reference: Section 26051.5, Business and Professions Code.

§15007.1. Electronic Signature.

The Department will accept an electronic signature that complies with Civil Code section 1633.2(h) on any documents required to be submitted to the Department and that are submitted electronically, except documents that are required to be notarized.

Authority: Section 26013, Business and Professions Code. Reference: Section 26013, Business and Professions Code.

§15009. Limited Waiver of Sovereign Immunity.

(a) Any applicant or licensee that may fall within the scope of sovereign immunity that may be asserted by a federally recognized tribe or other sovereign entity must waive any sovereign immunity defense that the applicant or licensee may have, may be asserted on its behalf, or may otherwise be asserted in any state administrative or judicial enforcement actions against the applicant or licensee, regardless of the form of relief sought, whether monetary or otherwise, under the state laws and regulations governing commercial cannabis activity. The applicant or licensee must submit a written waiver of sovereign immunity to the Department with any license application or renewal, which is valid for the period of the license. The written waiver shall include that the applicant or licensee has the lawful authority to enter into the waiver required by this section, the applicant or licensee hereby waives sovereign immunity, and the applicant or licensee agrees to do all of the following:

- (1) Provide documentation to the Department that establishes that the applicant or licensee has the lawful authority to enter into the waiver required by this section;
- (2) Conduct all commercial cannabis activity in full compliance with the state laws and regulations governing commercial cannabis activity, including submission to all enforcement provisions thereof;
- (3) Allow access as required by state statute or regulation by persons or entities charged with duties under the state laws and regulations governing commercial cannabis activity to any licensed premises or property at which the applicant conducts any commercial cannabis activity, including licensed premises or property where records of commercial cannabis activity are maintained by or for the applicant or licensee;
- (4) Provide any and all records, reports, and other documents as may be required under the state laws and regulations governing commercial cannabis activity;

- (5) Conduct commercial cannabis activity with other state commercial cannabis licensees only, unless otherwise specified by state law;
- (6) Meet all of the requirements for licensure under the state laws and regulations governing the conduct of commercial cannabis activity, and provide truthful and accurate documentation and other information of the applicant's qualifications and suitability for licensure as may be requested; and
- (7) Submit to the personal and subject matter jurisdiction of the California courts to address any matter related to the waiver or the commercial cannabis application, license, or activity, and that all such matters and proceedings shall be governed, construed and enforced in accordance with California substantive and procedural law, including but not limited to the Medicinal and Adult- Use Regulation and Safety Act and the Administrative Procedure Act.
- (b) The Department shall not approve an application for a state license if approval of the license would violate the provisions of any local ordinance or regulation adopted in accordance with Business and Professions Code section 26200 that is issued by the county or, if within a city, the city, within which the licensed premises is to be located.
- (c) Any applicant or licensee must immediately notify the Department of any changes that may materially affect the applicant or licensee's compliance with subsection (a) of this section.
- (d) Any failure by an applicant or licensee to comply with the requirements of subsections (b) or (c) of this section shall be a basis for denial of an application or renewal or discipline of a licensee.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012, 26050 and 26051.5, Business and Professions Code.

§15010. Compliance with the California Environmental Quality Act (CEQA).

- (a) "CEQA Guidelines" means the Guidelines for Implementation of the California Environmental Quality Act codified at title 14, California Code of Regulations, section 15000 et seq.
- (b) An applicant shall provide evidence of compliance with, or exemption from, CEQA (division 13 (commencing with section 21000) of the Public Resources Code). The evidence provided may be any one of the following:
- (1) A signed copy of a project-specific Notice of Determination or Notice of Exemption and a copy of the associated CEQA document, or reference to where it may be located electronically, a project description, and any accompanying permitting documentation from the local jurisdiction used for review in determining site-specific environmental compliance. Documentation may include a copy of the administrative record previously certified or adopted by the local jurisdiction that has already reviewed the commercial cannabis business' proposed commercial cannabis activities. For purposes of this section, the administrative record may include, but is not limited to:
- (A) Environmental documentation, including, but not limited to, exemptions, initial studies,

negative declarations, mitigated negative declarations, and environmental impact reports;

(B) Staff reports and related documents prepared by the local jurisdiction;

(C) Transcripts or minutes of the proceedings of the local jurisdiction;

(D) Notice(s) issued by the local jurisdiction to comply with CEQA and the CEQA Guidelines;

(E) Proposed decisions or findings considered by the local jurisdiction by its staff or the commercial cannabis business; and

(F) Documentation of the local jurisdiction's final decision.

(2) If the applicant does not have the evidence specified in subsection (b)(1), or if the Department determines that the evidence submitted is not sufficient to determine compliance or exemption from CEQA, then the applicant shall submit the information on a form to be prescribed by the Department. Such information shall include at least the following:

(A) The project location and surrounding land use, which shall:

(i) Describe the project location, including street address, city, county, Assessor's Parcel Number, major cross streets, general plan designation, zoning designation, and any other physical description that clearly indicates the project site location.

(ii) Describe the surrounding land uses and zoning designations within a one-half mile radius of the project and list all abutting land uses.

(iii) Include a vicinity map and aerial image to show the project location.

(iv) Include photographs, not larger than 8.5 by 11 inches, of existing visual conditions as observed from publicly accessible vantage point(s).

(B) A project description, which shall:

(i) Describe the activities included in the project application and identify any other commercial cannabis activity or activities occurring at the proposed premises.

(ii) Quantify the project size (total floor area of the project), and the lot size on which the project is located, in square feet.

(iii) List and describe any other related public agency permits and approvals, including any entitlements, required for this project, including those required by a planning commission, local air district, or regional water board.

(iv) Identify whether the commercial cannabis business is licensed by, or has applied for licensure from, the Department or one of the prior state cannabis licensing authorities (the Bureau of Cannabis Control, the California Department of Food and Agriculture, and the California Department of Public Health) to engage in commercial cannabis activity at the proposed premises.

(v) Estimate the number of anticipated employees onsite, occupancy during operating hours, and frequency of deliveries or shipments originating from and/or arriving to the project site.

(C) The environmental setting, which shall:

(i) Describe natural characteristics (e.g., topography, vegetation, drainage, soil stability, habitat, etc.) on the project site.

(ii) Identify whether there are any watercourses or riparian habitats (e.g., drainage swales, stream courses, springs, ponds, lakes, creeks, tributary of creeks, wetlands) within 150 feet of the proposed premises.

(iii) Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.

(iv) Identify whether the property contains natural features of scenic value or rare or unique characteristics (e.g., rock outcroppings, mature trees).

(v) Identify whether the property has any historic designations or archeological remains onsite.

(vi) Identify whether the property contains habitat(s) for special status species.

(vii) Identify the location, type, and quantity of hazardous materials, as defined by Health and Safety Code section 25260, that are stored, used, or disposed of at the project site and a copy of the Hazardous Material Business Plan (HMBP) prepared for the proposed premises, if any.

(viii) Discuss whether the project will increase the quantity and type of solid waste, as defined by Public Resources Code section 40191, or hazardous waste, as defined by Health and Safety Code section 25117, that is generated or stored onsite.

(ix) Describe the project's anticipated operational energy needs, identify the source of energy supplied for the project and the anticipated amount of energy per day, and explain whether the project will require an increase in energy demand and the need for additional energy resources.

(c) If the Department determines that a project does not qualify for an exemption and further environmental review is required pursuant to the CEQA Guidelines, the Department may charge the applicant for the costs of preparation of any supplemental environmental document as well as the Department's costs for procedures to comply with CEQA.

(3) For all cultivator license types except processor, evidence of enrollment in an order or waiver of waste discharge requirements with the State Water Resources Control Board or the appropriate Regional Water Quality Control Board. Acceptable documentation for evidence of enrollment may be a Notice of Applicability letter. Acceptable documentation that enrollment is not necessary may be a Notice of Non-Applicability.

(4) Evidence that the commercial cannabis business has conducted a hazardous materials record search of the EnviroStor database for the proposed premises. If hazardous sites were encountered, the applicant shall provide documentation of protocols implemented to protect employee health and safety.

(5) For indoor and mixed-light license types, identification of all power sources for cultivation activities, including, but not limited to, illumination, heating, cooling, and ventilation.

(6) A proposed cultivation plan that complies with the requirements in section 16309.

(7) Identification of all water sources used for cultivation activities as required in section 16311.

(8) A copy of any final lake or streambed alteration agreement issued by the California Department of Fish and Wildlife, pursuant to sections 1602 or 1617 of the Fish and Game Code, or written verification from the California Department of Fish and Wildlife that a lake and streambed alteration agreement is not required.

(9) An attestation that the applicant entity is an "agricultural employer" as defined by the Alatorre-Zenovich-Dunlap-Berman Agricultural Labor Relations Act of 1975; division 2, part 3.5 (commencing with section 1140) of the Labor Code.

(10) An attestation that the local fire department has been notified of the cultivation site if the application is for an indoor license type.

(11) If applicable, the applicant shall provide evidence that the proposed premises is not located in whole or in part in a watershed or other geographic area that the State Water Resources Control Board or the Department of Fish and Wildlife has determined to be significantly adversely impacted by cannabis cultivation pursuant to section 26060(a)(2) of the Business and Professions Code.

(12) For all cultivator license types except processor, a signed attestation that states the commercial cannabis business shall contact the appropriate County Agricultural Commissioner regarding requirements for legal use of pesticides on cannabis prior to using any of the active ingredients or products included in the pest management plan and shall comply with all pesticide laws.

(b) A commercial cannabis business applying for a license to manufacture cannabis products shall provide the following information:

(1) The type(s) of activity that will be conducted at the proposed licensed premises

Department of Cannabis Control

(extraction, infusion, packaging, or labeling).

(2) The types of products that will be manufactured, packaged, or labeled at the premises, including a product list.

(3) The name, title, email address, and phone number of the onsite individual who manages the operation of the premises.

(4) The name, title, email address, and phone number of an alternate contact person for the premises, if applicable.

(5) The number of employees at the premises.

(6) Upon request by the Department, a description of inventory control procedures sufficient to demonstrate how the commercial cannabis business will comply with the requirements of section 17218, or a copy of the standard operating procedure addressing inventory control.

(7) Upon request by the Department, a description of quality control procedures sufficient to demonstrate how the commercial cannabis business will comply with all of the applicable requirements specified in sections 17208 through 17216, or a copy of the standard operating procedure addressing quality control.

(8) Upon request by the Department, a description of the transportation process describing how cannabis or cannabis products will be transported into and out of the premises, or a copy of the standard operating procedure addressing transportation.

(9) Upon request by the Department, a description of security procedures sufficient to demonstrate how the commercial cannabis business will comply with the applicable security requirements of sections 15042 through 15047, or a copy of the standard operating procedure addressing security procedures.

(10) Upon request by the Department, a description of the cannabis waste management procedures sufficient to demonstrate how the commercial cannabis business will comply with the requirements of section 17223, or a copy of the standard operating procedure addressing cannabis waste management.

(11) A copy of the signed closed-loop system certification required pursuant to section 17206.1, if applicable.

(12) Any manufacturer submitting operating procedures and protocols to the Department pursuant to the Act and this division may claim such information as a trade secret or confidential by clearly identifying such information as “confidential” on the document at the time of submission. Any claim of confidentiality by a manufacturer must be based on the manufacturer’s good faith belief that the information marked as confidential constitutes a trade secret as defined in Civil Code section 3426.1(d), or is otherwise exempt from public disclosure under the California Public Records Act, Government Code section 6250 et seq.

(13) Applications for a Type S manufacturing license shall:

(A) Be submitted in accordance with section 15002;

(B) Include the license number and address of the registered shared-use facility at which

Department of Cannabis Control

the commercial cannabis business will conduct manufacturing operations;

(C) Include a copy of the use agreement signed by both the Type S applicant and the primary licensee; and

(D) On the premises diagram submitted pursuant to section 15002(c)(21), indicate the designated area to be used by the Type S commercial cannabis business and detail where the commercial cannabis business will store its cannabis and cannabis products.

(E) A Type S license shall only be available to commercial cannabis businesses with a gross annual revenue of less than \$1,000,000 as calculated pursuant to section 15014.

(F) A Type S licensee may conduct the following operational activities:

(i) Infusions, as defined in section 15000(ee);

(ii) Packaging and labeling of cannabis products; and

(iii) Extractions with water, glycerin, vegetable oil, animal fat, or using mechanical methods, provided that the resulting extract or concentrate shall be used solely in the manufacture of the Type S licensee's infused product and shall not be sold to any other licensee.

(c) A commercial cannabis business applying for a license to distribute cannabis and cannabis products shall provide the following information, upon the request of the Department:

(1) Standard Operating Procedures, Form DCC-LIC-019 (New 2/22), incorporated herein by reference.

(2) Proof of compliance with the insurance requirements in section 15308.

(3) Transport vehicle information required by section 15312.

(d) A commercial cannabis business applying for a license to sell cannabis and cannabis products at retail shall provide the following information, upon request by the Department:

(1) Standard Operating Procedures, Form DCC-LIC-019 (New 2/22).

(2) Delivery employee information required by section 15415.

(3) Delivery vehicle information required by section 15417.

(e) A commercial cannabis business applying for a license to operate as a microbusiness shall provide the information required in subsections (a) through (d) as applicable for the activities they will be conducting under the license.

(f) Applicants for a cannabis event organizer license shall indicate whether the cannabis event organizer plans to hold 0-5 events, 6-10 events, 11-20 events, or more than 20 events during the license period.

(g) Applicants for a testing laboratory license shall provide the following information:

(1) The certificate(s) of accreditation required by sections 15701 and 15702, or the information required for an interim license required by section 15703.

(2) Upon the request by the Department, Standard Operating Procedures, Form DCC-LIC-019 (New 2/22).

(3) The operating procedures required by chapter 6.

(h) The Department may request additional information and documents from the applicant. The Department will provide the applicant with a deadline for submittal of additional information. The Department will consider the complexity of the information requested and the ease with which the information can be obtained and transmitted to the Department by the applicant in determining the deadline.

(i) Items required by this section may also be requested by the Department at any time following the issuance of a license. Licensees shall maintain the information required by this section and provide it to the Department upon request.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26031, 26050, 26051.5 and 26130, Business and Professions Code.

§15012. Incomplete and Abandoned Applications.

(a) Incomplete applications will not be processed. Applications will only be considered complete if all of the information required under sections 15002 and 15011 is included. The Department shall issue a written notice to the applicant, by mail, email, or through the Department's licensing system, informing them that the application is incomplete and identifying the information missing from the application.

(b) If the applicant fails to submit all required information within 180 days from the date of the initial written notice, the application shall be deemed abandoned.

(c) If the applicant fails to submit payment of the license fee within 60 calendar days from the date of the request for payment of the license fee, the application shall be deemed abandoned.

(d) The Department will not refund application fees for an incomplete or abandoned application.

(e) An applicant may reapply at any time following an abandoned application and will be required to submit a new application and application fee.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26012, 26050 and 26051.5, Business and Professions Code.

§15013. Withdrawal of Application.

(a) An applicant may withdraw an application at any time prior to the Department issuance of a license or denial of a license.

(b) Requests to withdraw an application must be submitted to the Department by mail in writing, dated, and signed by the applicant, or in writing by electronic mail to licensing@cannabis.ca.gov.

(c) In accordance with Business and Professions Code section 26057, withdrawal of an application shall not, unless the Department has consented in writing to such withdrawal,

Department of Cannabis Control

deprive the Department of its authority to institute or continue a proceeding against the commercial cannabis business for the denial of the license upon any ground provided by law or to enter an order denying the license upon any such ground.

(d) The Department will not refund application fees for a withdrawn application.

(e) An applicant may reapply at any time following the withdrawal of an application and will be required to submit a new application and application fee.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26050 and 26057, Business and Professions Code.

Article 3. Licensing

§15014. Fees.

(a) The application fee for an annual license under section 15002, a cannabis event organizer license under section 15600, a temporary cannabis event license under section 15601 for each event, and physical modification of the premises under section 15027 shall be paid by an applicant or licensee as provided by this division. Applicants and licensees shall pay the appropriate fee as outlined in this section.

Application Fee Schedule

License Type	Fee Per Application
Testing Laboratory, Distributor, Retailer, Microbusiness Annual Licenses	\$1,000
Cannabis Event Organizer License	\$1,000
Temporary Cannabis Event License	\$1,000
Physical Modification of Premises for Testing Laboratory, Distributor, Retailer, Microbusiness, and Manufacturing Licenses	\$500
Type 6, 7, N, or P Annual Manufacturing Licenses	\$1,000
Type S Annual Manufacturing License	\$500
Cultivation Annual Licenses	See (f)

(b) The annual licensing fee for each license shall be paid by an applicant after the Department has approved the application. The renewal license fee shall be paid by the licensee as required by section 15020. The Department shall not issue the license until the annual licensing fee has been paid.

(c) To determine the appropriate annual license fee due for testing laboratory, distributor, retailer, and microbusiness license types, the applicant or licensee shall first estimate the gross revenue for the 12-month license period. Based on the license type sought, the applicant or licensee shall identify the appropriate tier category in which their expected gross revenue belongs, as identified in the Annual License Fee Schedule charts found in

this section. The license fee associated with the licensing tier category the applicant or licensee has identified using their expected gross revenue shall be the license fee due for the original license or renewal. The following are the annual license fees due for these license types to be paid prior to issuance of a license or renewed license:

6-10 events annually	\$5,000
11-20 events annually	\$9,000
Greater than 20 events annually	\$20,000

(e) The annual license fee for a manufacturer license shall be based on gross revenue as indicated in the chart below.

(1) The applicant shall calculate the gross annual revenue for the licensed premises based on the annual gross sales of cannabis products and, if applicable, the annual revenue received from manufacturing, packaging, labeling or otherwise handling cannabis or cannabis products for other licensees, in the 12 months preceding the date of application.

(2) For a new license applicant, the gross annual revenue shall be based on the gross sales and revenue expected during the first 12 months following licensure.

(3) For a manufacturer licensee that is also licensed as a distributor or retailer, and that sells or transfers cannabis products manufactured on the licensed premises in a non-arm's length transaction, the annual gross sales or revenue for such transactions shall be based on the product's fair market value if it were to be sold in an arm's length transaction at wholesale.

(4) For purposes of this section, an "arm's length transaction" means a sale entered into in good faith and for valuable consideration that reflects the fair market value in the open market between two informed and willing parties, neither under any compulsion to participate in the transaction.

§15014.1. Fee Waivers.

(a) For the purposes of this section, the following definitions apply:

(1) “Qualified equity applicant or licensee” means a person who is an owner in a commercial cannabis business pursuant to section 15003(a) and is either:

(A) A locally verified equity applicant or licensee in a jurisdiction with a local equity program as defined in subsection (a)(2); or

(B) An applicant or licensee who qualifies for the fee waiver program under the provisions of subsection (d).

(2) “Locally verified equity applicant or licensee” means an applicant or licensee that satisfies the following conditions:

- (A) The applicant or licensee has submitted an application to a local jurisdiction to engage in commercial cannabis activity;
- (B) The applicant or licensee's commercial cannabis operation is located within the boundaries of that jurisdiction;
- (C) The applicant or licensee meets the requirements of that jurisdiction's local equity program; and
- (D) The applicant or licensee has attested that they meet one of the criteria set in subsection (d).

(b) Commercial cannabis businesses with at least one qualified equity applicant or licensee shall be eligible for one license fee waiver from the Department per 12-month licensure period if they satisfy all of the following:

- (1) They have submitted a complete application for licensure, in accordance with section 15002, or have satisfied the licensure renewal requirements of section 15020.
- (2) They are an applicant that expects a gross revenue less than or equal to \$5,000,000, or a licensee with a gross revenue less than or equal to \$5,000,000. Documentation demonstrating gross revenue may include, but is not limited to, a copy of the licensee's state tax return filed with the California Department of Tax and Fee Administration.
- (3) The qualified equity applicant or licensee, either individually or in combination with other qualified equity applicants or licensees, own no less than 50 percent of the commercial cannabis business that is applying for licensure or is licensed.
- (4) They have timely submitted a fee waiver request with the information enumerated in subsections (c) and (d).

(A) To be eligible for a license fee waiver in the initial 12-month licensure period, the qualified equity applicant must indicate on the application for commercial cannabis license that they are also applying for a license fee waiver from the Department.

(B) To be eligible for a license fee waiver at the time of renewal, the qualified equity licensee must submit a fee waiver request at least 60 calendar days before the expiration of the license. The Department will accept fee waiver requests from qualified equity licensees who on the effective date of this section are less than 60 days from the date of license expiration. The Department will provide a refund if the Department determines the qualified equity licensee is eligible for a fee waiver after the licensee has paid all annual licensing fees, subject to available funding.

(c) To submit a fee waiver request, the qualified equity applicant or licensee shall submit all of the following to the Department:

- (1) A complete list of every qualified equity applicant or licensee which includes the percentage of the aggregate ownership interest held by the qualified equity applicant or licensee in the commercial cannabis business.
- (2) Contact information for each qualified equity applicant or licensee of the commercial cannabis business, including the name, title, phone number, and email address.
- (3) Only for fee waiver applicants that are locally verified equity applicants or licensees in

Department of Cannabis Control

a jurisdiction with a local equity program, an attestation to the following statement: Under penalty of perjury, I hereby declare that I am a locally verified equity applicant or licensee. I further declare that I satisfy at least one of the criteria set forth in California Code of Regulations, title 4, section 15014.1(d). I understand that the Department may investigate the accuracy of these declarations, and that a misrepresentation of fact is cause for rejection of this fee waiver request.

(4) An attestation that the qualified equity applicant or licensee, either individually or in combination with other qualified equity applicants or licensees, own no less than 50 percent of the commercial cannabis business that is applying for licensure or is licensed.

(d) All applicants or licensees must satisfy at least one of the following criteria to be granted a fee waiver. Qualified equity applicants or licensees that are locally verified equity applicants may establish that they satisfy at least one of these criteria by attestation, as set forth in subsection (c)(3). Qualified equity applicants or licensees that are not locally verified in a jurisdiction with a local equity program must submit evidence of at least one of the following for each equity applicant or licensee:

(1) The qualified equity applicant or licensee was convicted of an offense related to the sale, possession, use, manufacture, or cultivation of cannabis, prior to November 8, 2016. Proof of conviction shall be demonstrated by copies of federal or state court records indicating the disposition of the criminal matter; records reflecting the post-conviction dismissal or expungement of a conviction, including records reflecting the destruction of records under Health and Safety Code section 11361.5; or any other court or law enforcement record that shows proof of conviction.

(2) The qualified equity applicant or licensee was arrested for an offense related to the sale, possession, use, manufacture, or cultivation of cannabis, prior to November 8, 2016. Proof of arrest shall be demonstrated by copies of federal or state court records indicating the disposition of the criminal matter, records of expungement documentation, or any other law enforcement record that shows proof of arrest.

(3) The qualified equity applicant or licensee resides in a household with a household income less than or equal to 60 percent of the area median income for the local jurisdiction they reside, as reported in the most recent United States decennial or special census. Proof of income shall be demonstrated using copies of at least one of the following records with an address in the local jurisdiction, dated within the last two years from the date of the fee waiver request:

(A) Individual federal tax returns, state tax returns, and W-2s;

(B) At least two consecutive paystubs;

(C) Proof of eligibility for a general assistance program that provides financial aid to adults without sufficient income or resources, including but not limited to CalFresh, MediCal/CalWORKS, supplemental security income, or social security disability.

(4) Proof that the qualified equity applicant or licensee has resided for at least five years between 1980 and 2016 in an area with a population that was disproportionately impacted by past criminal justice policies implementing cannabis prohibition during their period of residency and that they satisfy one of the following:

Department of Cannabis Control

(A) The qualified equity applicant or licensee resides in a census tract that is among the top 25 percent for civilian unemployment and poverty in the state based on the United States Census Bureau's 2013-2017 American Community Survey; or

(B) The qualified equity applicant or licensee has an immediate family member who was convicted or arrested of an offense related to the sale, possession, use, manufacture, or cultivation of cannabis, prior to November 8, 2016.

(C) For the purposes of this subsection, the following definitions apply:

(i) "An area with a population that was disproportionately impacted by past criminal justice policies implementing cannabis prohibition for at least five years" means a county within California with a per capita drug related arrest rate higher than the state's per capita drug related arrest rate between 1980 and 2016; these counties are: Alameda, Alpine, Contra Costa, Del Norte, Fresno, Glenn, Humboldt, Imperial, Inyo, Kern, Lake, Los Angeles, Mendocino, Merced, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, Santa Cruz, Sierra, Solano, Stanislaus, Tehama, Trinity, Tulare, Yolo, and Yuba;

(ii) "Immediate family member" means child, stepchild, parent, stepparent, brother, sister, half-brother, half-sister, stepsibling, legal guardian, grandparent, or great grandparent.

(D) Proof of residence shall be demonstrated by providing copies of at least two of the following records with an address in the local jurisdiction:

(i) California Driver's License or State Identification Card;

(ii) Property tax billing or payment, or evidence that the qualified equity applicant or licensee is otherwise exempt from property tax payment by law;

(iii) Signed residential lease agreement, or deed or title to residential real property;

(iv) Copies of state or federal tax returns;

(v) School records;

(vi) Banking or credit card records;

(vii) Voter registration;

(viii) Credit reports; or

(ix) Utility, cable, or internet billing or payment.

(E) Proof of an immediate family member's conviction or arrest shall be demonstrated by copies of federal or state court records indicating the disposition of the criminal matter; records reflecting the post-conviction dismissal or expungement of a conviction, including records reflecting the destruction of records under Health and Safety Code section 11361.5; or any other court or law enforcement record that shows proof of conviction or arrest.

(F) Proof of immediate family member shall be demonstrated by copies of documentation showing a familial relationship, including but not limited to, birth certificates or court records.

(e) Incomplete fee waiver requests will be denied. The Department will notify the applicant or licensee that the fee waiver request is denied and identify the deficiencies which caused the denial. An applicant or licensee may resubmit subsequent fee waiver requests after denial.

(f) The Department will process complete fee waiver requests in the order in which the application or renewal for commercial cannabis licensure has been approved by the Department.

(g) Issuance of fee waivers by the Department shall be subject to available funding; thus, all eligible applicants and licensees may not be granted a fee waiver.

§15015. Payment of Fees.

(a) Any fee specified in this division shall be paid to the Department of Cannabis Control by cash, check, money order, debit card, or credit card. Check and money order payments may be made out to the Department of Cannabis Control.

(b) If the fee is paid by debit or credit card:

(1) The payment shall be made through the Department's online licensing system; and

(2) The applicant or licensee may be required to pay any associated processing or convenience fees to the third-party vendor processing the payment on behalf of the Department.

(c) Failure to pay the appropriate licensing fee is grounds for discipline. If the Department determines that the licensee paid an amount less than the appropriate licensing fee under section 15014, the licensee will be required to pay the balance of the appropriate fee and a penalty fee of 50 percent of the appropriate licensing fee. The Department in its discretion may waive the penalty fee.

§15017. Substantially Related Offenses and Criteria for Rehabilitation.

(a) When evaluating whether an applicant or licensee has been convicted of a criminal offense, act, or professional misconduct that is substantially related to the qualifications, functions, or duties of the business for which the application is made, the Department shall consider all of the following criteria:

(1) The nature and gravity of the offense;

(2) The number of years that have elapsed since the date of the offense; and

(3) The nature and duties of the particular license in which the applicant seeks licensure or in which the licensee is licensed.

(b) For the purpose of denial, suspension, or revocation of a license, convictions that are

Department of Cannabis Control

substantially related to the qualifications, functions, or duties of the business for which the application is made include, but are not limited to:

- (1) A violent felony conviction, as specified in Penal Code section 667.5(c).
- (2) A serious felony conviction, as specified in Penal Code section 1192.7(c).
- (3) A felony conviction involving fraud, deceit, or embezzlement.
- (4) A felony conviction for hiring, employing, or using a minor in transporting, carrying, selling, giving away, preparing for sale, or peddling, any controlled substance to a minor; or selling, offering to sell, furnishing, offering to furnish, administering, or giving any controlled substance to a minor.
- (5) A felony conviction for drug trafficking with enhancements pursuant to Health and Safety Code section 11370.4 or 11379.8.

(c) For the purpose of denial of a license to engage in commercial cannabis manufacturing, a conviction or violation from any jurisdiction that is substantially related to the qualifications, functions, or duties of the business for which the application is made include:

- (1) A violation of section 110620, 110625, 110630, 110760, 110765, 110770, 110775, 111295, 111300, 111305, 111440, 111445, 111450, or 111455 of the Health and Safety Code that resulted in suspension or revocation of a license, administrative penalty, civil proceeding, or criminal conviction;
- (2) A violation of Chapter 4 (sections 111950 through 112130) of Part 6 of Division 104 of the Health and Safety Code that resulted in suspension or revocation of a license, administrative penalty, civil proceeding, or criminal conviction;
- (3) A conviction under section 382 or 383 of the Penal Code; and
- (4) A violation identified in subsections (c)(1) or (c)(2) committed by a business entity in which an owner was an officer or had an ownership interest.

(d) Except as provided in subsections (b)(4) and (b)(5) and notwithstanding Chapter 2 (commencing with Section 480) of Division 1.5 of the Business and Professions Code, a prior conviction, where the sentence, including any term of probation, incarceration, or supervised release, is completed, for possession of, possession for sale, sale, manufacture, transportation, or cultivation of a controlled substance is not considered substantially related, and shall not be the sole ground for denial of a license. Conviction for any controlled substance felony, subsequent to licensure, shall be grounds for revocation of a license or denial of the renewal of a license.

(e) When evaluating whether an applicant who has been convicted of a criminal offense, act, or professional misconduct that is substantially related to the qualifications, functions, or duties of the business for which the application is made should be issued a license, the Department shall consider the following criteria of rehabilitation:

- (1) The nature and gravity of the act, professional misconduct, or offense;
- (2) Whether the person has a felony conviction based on possession or use of cannabis or cannabis products that would not be a felony if the person was convicted of the

Department of Cannabis Control

offense on the date of the person's application;

(3) The applicant's criminal record as a whole;

(4) Evidence of any act, professional misconduct, or offense committed subsequent to the act, professional misconduct, or offense under consideration that could be considered grounds for denial, suspension, or revocation of a commercial cannabis activity license;

(5) The time that has elapsed since commission of the act, professional misconduct, or offense;

(6) The extent to which the applicant has complied with any terms of parole, probation, restitution, or any other sanctions lawfully imposed against the applicant;

(7) If applicable, evidence of dismissal under Penal Code sections 1203.4, 1203.4a, 1203.41, 1203.42, or pursuant to another state's similar law;

(8) If applicable, evidence the applicant has been granted clemency or a pardon by a state or federal executive;

(9) If applicable, a certificate of rehabilitation obtained under Penal Code section 4852.01 or another state's similar law; and

(10) Other evidence of rehabilitation submitted by the applicant.

(f) If an applicant has been denied a license based on a conviction, the applicant may request a hearing pursuant to Business and Professions Code section 26058 to determine if the applicant should be issued a license.

(g) For the purpose of this section, "conviction" means a plea or verdict of guilty or a conviction following a plea of nolo contendere.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 480, 481, 482, 26012 and 26057, Business and Professions Code.

§15018. Additional Grounds for Denial of a License.

In addition to the reasons for denial in Business and Professions Code section 26057, a license may be denied for the following reasons:

(a) The applicant's proposed premises does not fully comply with standards set in regulation.

(b) The applicant's proposed or licensed premises is substantially different from the diagram of the proposed premises submitted by the applicant, in that the size, layout, location of common entryways, doorways, or passage ways means of public entry or exit, or identification of limited- access areas within the licensed premises is not the same.

(c) The applicant denied the Department access to the licensed premises or the property identified in the application as the premises.

(d) The applicant made a material misrepresentation on the application.

(e) The applicant did not correct the deficiencies within the application in accordance with

sections 15002 and 15012.

(f) The applicant has been denied a license, permit, or other authorization to engage in commercial cannabis activity by a state or local licensing authority.

(g) The applicant's proposed premises is not in compliance with Division 13 (commencing with Section 21000) of the Public Resources Code.

(h) The applicant has failed to remit taxes as required under the Revenue and Taxation Code.

(i) The applicant may be denied a license for any violations of law related to the operations of the commercial cannabis business or for any violations of law related to licensure.

(j) The applicant has engaged in conduct that is grounds for disciplinary action specified in section 26030 of the Act.

Authority: Section 26013, Business and Professions Code. Reference: Sections 480, 490, 26012, 26030 and 26050, Business and Professions Code.

§15019. Excessive Concentration.

(a) In determining whether to grant, deny, or renew a license for a retail premises or microbusiness premises authorized to engage in retail sales, the Department shall consider if an excessive concentration exists in the area where the licensee will operate. For the purposes of this section "excessive concentration" applies when either of the following conditions exist:

(1) The ratio of licensees to population within the census tract or census division in which the applicant premises is located exceeds the ratio of licensees to population in the county in which the applicant premises is located, unless denial of the application would unduly limit the development of the legal market so as to perpetuate the illegal market for cannabis goods.

(2) The ratio of retail licenses or microbusiness licenses to the population within the census tract, census division, or jurisdiction exceeds that allowable by local ordinance adopted under Business and Professions Code section 26200.

(b) "Population Within the Census Tract or Census Division" as used in this section means the population as determined by the most recent United States decennial or special census. Such population determination shall not operate to prevent an applicant from establishing that an increase of resident population has occurred within the census tract or census division.

(c) "Population in the County" as used in this section shall be determined by the most recent annual population estimate for California counties published by the Demographic Research Unit, State Department of Finance.

(d) Beginning July 1, 2018, the Department shall calculate the ratios described in subsection (a) of this section once every six months using the most current available data. The Department's consideration of whether to grant, deny, or renew a license shall

Department of Cannabis Control

be based upon the most recent ratio calculated by the Department on the date of the Department's decision.

(e) The existence of an excessive concentration shall not be considered in determining whether to grant, deny, or extend a temporary license under Business and Professions Code section 26050.1.

(f) The applicant may provide reliable evidence establishing, to the satisfaction of the Department, that a denial of a license would unduly limit the development of the legal market so as to perpetuate the illegal market for cannabis goods.

§15020. Renewal of License.

(a) To timely renew a license, a completed license renewal form and annual license fee pursuant to section 15014 shall be received by the Department from the licensee no earlier than 60 calendar days before the expiration of the license and no later than 5:00 p.m. Pacific Time on the last business day before the expiration of the license if the renewal form is submitted to the Department at its office(s), or no later than 11:59 p.m. on the last business day before the expiration of the license if the renewal form is submitted to the Department through its electronic licensing system. Failure to receive a notice for license renewal does not relieve a licensee of the obligation to renew all licenses as required.

(b) In the event the license is not submitted for renewal prior to the expiration date, the licensee must not sell, transfer, transport, manufacture, test, or distribute any commercial cannabis or cannabis products until the license is renewed.

(c) A licensee may submit a license renewal form up to 30 calendar days after the license expires. Any late renewal form will be subject to a late fee equal to 50 percent of the applicable licensing fee required by subsection (a). A licensee who does not submit a complete license renewal application, including the late fee, to the Department within 30 calendar days after the expiration of the license shall forfeit their eligibility for a license renewal and be required to submit a new license application.

(d) The license renewal form shall contain the following:

(1) The name of the licensee. For licensees who are individuals, the applicant shall provide both the first and last name of the individual. For licensees who are business entities, the licensee shall provide the legal business name of the commercial cannabis business.

(2) The license number and expiration date.

(3) The licensee's mailing address and licensed premises address.

(4) Documentation demonstrating the licensee's gross revenue for the current licensed period, such as a copy of the licensee's state tax return filed with the California Department of Tax and Fee Administration. This subsection does not apply to the renewal of cultivation licenses.

Department of Cannabis Control

(5) Documentation of any change to any item listed in the original application under section 15002 that has not been reported to the Department through another process pursuant to the Act or this division.

(6) An attestation that all information provided to the Department in the license renewal form and the original application under section 15002 or subsequent notification under sections 15023 and 15024 is accurate and current.

(7) If applicable, a limited waiver of sovereign immunity pursuant to section 15009.

(8) For a licensee with more than one employee, the licensee shall attest that it employs, or will employ within one year of renewing the license, one supervisor and one employee who has successfully completed a Cal-OSHA 30-hour general industry outreach course offered by a training provider that is authorized by an OSHA Training Institute Education Center to provide the course.

(e) Beginning January 1, 2022, an application for renewal of a license to engage in commercial cannabis cultivation shall include the following records, for each power source indicated on the application for licensure for the previous annual licensed period:

(1) Total electricity supplied by local utility provider, name of local utility provider, and greenhouse gas emission intensity per kilowatt hour reported by the utility provider under section 398.4(c) of the Public Utilities Code for the most recent calendar year available at time of submission;

(2) Total electricity supplied by a zero net energy renewable source, as set forth in section 398.4(h)(5) of the Public Utilities Code, that is not part of a net metering or other utility benefit;

(3) Total electricity supplied from other unspecified sources, as defined in section 398.2(e) of the Public Utilities Code, and other onsite sources of generation not reported to the local utility provider (e.g., generators, fuel cells) and the greenhouse gas emission intensity from these sources; and

(4) Average weighted greenhouse gas emission intensity considering all electricity use in subsections (e)(1)-(e)(3).

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012 and 26050, Business and Professions Code.

§15021. Denial of License.

(a) The Department may deny an application for a new license or a renewal of a license for any reason specified in Business and Professions Code section 26057, and on any additional grounds including grounds for denial under section 15018, and grounds for discipline under the Act or this division.

(b) Upon denial of an application for a license or renewal of a license, the Department shall notify the applicant in writing of the reasons for denial, and the right to a hearing to contest the denial.

(c) The applicant may request a hearing to contest the denial by submitting a written

Department of Cannabis Control

request to the Department at appeals@cannabis.ca.gov.

- (1) The written request for a hearing must be received by the Department or postmarked within 30 calendar days of service of the notification of denial.
- (2) If the written request for a hearing is not received within the required timeframe, the applicant's right to a hearing is waived.
- (3) Upon timely receipt of the written request for hearing, the Department shall set a date for hearing to be conducted in accordance with chapter 5 (commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code.
- (d) If a license application is denied due to an owner's conviction history, the Department shall notify the applicant of the process for the owner to request a copy of their complete conviction history and question the accuracy or completeness of the record pursuant to Penal Code sections 11122 through 11127.

Authority: Section 26013, Business and Professions Code; Reference: Sections 26012, 26057 and 26058, Business and Professions Code.

§15023. Business Modifications.

Business modifications shall be made in accordance with the following:

- (a) Changes to standard operating procedures may be made without providing notification to the Department, except as required by the Act or this division. Licensees shall maintain a copy of all current and prior operating procedures as required by section 15037.
- (b) If at the time of licensure, a licensee employed fewer than 20 employees and later employs 20 or more employees, within 60 days of employing 20 or more employees, the licensee shall provide to the Department a notarized statement that the licensee will enter into a labor peace agreement and will abide by the terms of the agreement or demonstrate that the commercial cannabis business has entered into a labor peace agreement by providing a copy of the signature page of the agreement.
- (c) Licenses are not transferrable or assignable to another person or owner. In the event of the sale or other transfer of the business or operations covered by the licensee, changes in ownership shall be made in accordance with the following:
 - (1) If one or more of the owners change, the new owners shall submit the information required under section 15002(c)(16) for each new owner to the Department within 14 calendar days of the effective date of the ownership change. The business may continue to operate under the active license while the Department reviews the qualifications of the new owner(s) in accordance with the Act and these regulations to determine whether the change would constitute grounds for denial of the license, if at least one existing owner is not transferring their ownership interest and will remain as an owner under the new ownership structure. If all owners will be transferring their ownership interest, the business shall not operate under the new ownership structure until a new license application has been submitted to and approved by the Department, and all application and license fees for the new application have been paid. The former owner's inventory

Department of Cannabis Control

shall be transferred to the new owner's track and trace account upon issuance of the license.

(A) A change in ownership occurs when a new person meets the definition of owner in section 15003.

(B) A change in ownership does not occur when one or more owners leave the business by transferring their ownership interest to the other existing owner(s).

(2) In cases where one or more owners leave the business by transferring their ownership interest to the other existing owner(s), the owner or owners that are transferring their interest shall provide a signed statement to the Department confirming that they have transferred their interest within 14 calendar days of the change.

(d) When there is a change in financial interest holder(s) in the commercial cannabis business who do not meet the requirements for a new license application under this section, the licensee shall submit the information required by section 15002(c)(15) to the Department within 14 calendar days of the change.

(e) When any of the following changes occur, the licensee shall notify the Department within 14 calendar days of the change:

(1) Any change to contact information from the information provided to the Department in the original application.

(2) Any change in name if the licensee is an individual, or any change in legal business name if the licensee is a business entity.

(3) Any change in business trade names, fictitious business names, or doing business as ("DBA").

(4) Any change in the bond required under section 15002(c)(22).

(f) Licensees may request to add an A-designation or M-designation to their license by sending a notification to the Department signed by at least one owner as defined in section 15003. A licensee shall not operate under the requested designation until they have received approval from the Department.

(g) Microbusiness licensees may add a commercial cannabis activity to their license or remove a commercial cannabis activity from their license if doing so is consistent with the requirement set forth in section 15500(a) that licensees engage in at least three (3) commercial cannabis activities. Licensees shall request the modification by completing a request to modify the licensed premises pursuant to section 15027. A licensee shall not engage in a new commercial cannabis activity until they have paid for the modification and received approval from the Department.

(h) Except as permitted under Business and Professions Code section 26050.2(h), licensees may not be transferred from one premises to another. Licensees shall not operate out of a new premises until they have been issued a new license.

(i) For any business modification or notification under this section, licensees shall use and submit to the Department the Licensee Notification and Request Form, Notifications and Requests to Modify a License, DCC-LIC-027 (Amended 2/22), which is incorporated

herein by reference, unless the change relates to contact information and can be made through the Department's online system.

Authority: Section 26013, Business and Professions Code. Reference: Section 26012, Business and Professions Code.

§15024. Death, Incapacity, or Insolvency of a Licensee.

(a) In the event of the death, incapacity, receivership, assignment for the benefit of creditors or other event rendering one or more owners incapable of performing the duties associated with the license, the owner or owners' successor in interest (e.g., appointed guardian, executor, administrator, receiver, trustee, or assignee) shall notify the Department in writing, within 14 calendar days, by submitting the Licensee Notification and Request Form, Notifications and Requests to Modify a License, DCC-LIC-027 (Amended 2/22), which is incorporated herein by reference.

(b) To continue operations or surrender the existing license, the successor in interest shall submit to the Department the following:

(1) The name of the successor in interest;

(2) The name of the owner(s) for which the successor in interest is succeeding and the license number;

(3) The phone number, mailing address, and email address of the successor in interest; and

(4) Documentation demonstrating that the owner(s) is incapable of performing the duties associated with the license such as a death certificate or a court order, and documentation demonstrating that the person making the request is the owner or owners' successor in interest such as a court order appointing guardianship, receivership, or a will or trust agreement.

(c) The Department may give the successor in interest written approval to continue operations on the licensed business premises for a period of time specified by the Department:

(1) If the successor in interest or another person has applied for a license from the Department for the licensed premises and that application is under review;

(2) If the successor in interest needs additional time to destroy or sell cannabis or cannabis products; or

(3) At the discretion of the Department.

(d) The successor in interest is held subject to all terms and conditions under which a state cannabis license is held pursuant to the Act.

(e) The approval creates no vested right to the issuance of a state cannabis license.

Authority: Section 26013, Business and Professions Code. Reference: Section 26012, Business and Professions Code.

§15024.1. Cannabis and Cannabis Products After Termination of License.

In the event a license is terminated for any reason while cannabis or cannabis products remain on the premises, the following actions may be taken:

- (a) The cannabis or cannabis products may be destroyed by the former licensee; or
- (b) A licensed distributor or licensed microbusiness authorized to engage in distribution may be authorized by the Department to procure and distribute the former licensee's entire inventory stock in accordance with the following;
 - (1) A licensed distributor or licensed microbusiness authorized to engage in distribution shall, within 14 calendar days of the termination of the former licensee's license, submit a written request to the Department, on the Licensee Notification and Request Form, Notifications and Requests Regarding Regulatory Compliance, DCC-LIC-028 (New 2/22), which is incorporated by reference, for authorization to procure the cannabis or cannabis products from the former licensee; and
 - (2) Upon approval from the Department, the licensed distributor or licensed microbusiness authorized to engage in distribution shall transport the cannabis or cannabis products as follows:

- (2) The date of entry into the licensed distributor's storage area;
- (3) The unique identifiers and batch number, if any, associated with the batch;
- (4) A description of the cannabis or cannabis products with enough detail to easily identify the batch;
- (5) The weight of or quantity of units in the batch; and
- (6) The best-by, sell-by, or expiration date of the batch, if any.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26110 and 26120, Business and Professions Code.

§15303. Packaging, Labeling, and Rolling.

- (a) A licensed distributor may package, repackage, label, and relabel cannabis in the form of dried flower, including pre-rolls, for retail sale. All packages of cannabis in the form of dried flower, including pre-rolls, shall comply with the requirements in chapter 11.
- (b) A licensed distributor shall not process cannabis, but may roll pre-rolls that consist exclusively of any combination of flower, shake, leaf, or kief. Pre-rolls shall be rolled, packaged, and labeled prior to regulatory compliance testing.
- (c) Licensed distributors may label and relabel a package containing manufactured cannabis or cannabis products with the amount of cannabinoids and terpenoids based on regulatory compliance testing results.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26013 and 26120, Business and Professions Code.

§15303.1. Net Weight of Dried Flower.

For purposes of this division, the net weight on any packaged cannabis good containing dried flower only shall not be considered inaccurate if the actual weight is within plus or minus 3% of the labeled weight.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26013, 26120 and 26152, Business and Professions Code.

§15304. Testing Arrangements.

After taking physical possession of a batch of cannabis or cannabis products, the licensed distributor shall contact a licensed testing laboratory and arrange for a laboratory employee to come to the licensed distributor's licensed premises to select a representative sample for laboratory testing.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26104 and 26110, Business and Professions Code.

§15305. Testing Sample.

- (a) The licensed distributor shall ensure that the batch size from which the sample is taken meets the requirements of this division.
- (b) A licensed distributor or an employee of the licensed distributor shall be physically present to observe the laboratory employee obtain the sample of cannabis or cannabis products for testing and shall ensure that the increments are taken from throughout the batch.
- (c) The sampling shall be video-recorded with the batch number stated verbally or in writing on the video at the beginning of the video and a visible time and date indication on the video recording footage. The video recordings shall be maintained for 90 calendar days by the licensed distributor.
- (d) After the sample has been selected, both the licensed distributor and the laboratory employee shall sign and date the chain of custody form pursuant to section 15706 attesting to the sample selection having occurred.
- (e) A licensed distributor shall not assist the laboratory employee nor touch the cannabis or cannabis products or the sampling equipment while the laboratory employee is obtaining the sample.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26104 and 26110, Business and Professions Code.

§15306. Regulatory Compliance Testing Results.

- (a) A licensed distributor shall store a batch on its licensed premises until it either:
- (1) Passes regulatory compliance testing as described in subsection (b); or
 - (2) If it fails regulatory compliance testing as described in subsection (d), a corrective action plan for remediation has been approved by the Department pursuant to section 17305.
- (b) A batch passes regulatory compliance testing when the sample meets specifications in chapter 6. Once a batch has passed regulatory compliance testing, the batch shall not be repackaged into a new production batch in the track and trace system nor shall it be assigned a new batch number.
- (c) When a batch passes regulatory compliance testing, the cannabis or cannabis products may be transported to one or more licensed retailers, licensed distributors, or licensed microbusinesses authorized to conduct distribution or retail. A copy of the certificate of analysis for regulatory compliance testing shall be provided to all licensed distributors receiving the batch for purposes of quality assurance review under section 15307. A copy of the certificate of analysis shall also be provided to the licensee who produced the batch. The copies of the certificate of analysis required by this subsection may be provided electronically.
- (d) A batch fails regulatory compliance testing when the sample does not meet specifications in chapter 6.

(e) If a failed batch has been approved for remediation by the Department pursuant to section 17305, a licensed distributor may transport or arrange for the transportation of the batch to the licensed manufacturer or microbusiness authorized to engage in manufacturing that has received approval from the Department to conduct the remediation. Once a batch has been approved for remediation by the Department, the licensed distributor shall transport the batch to the approved manufacturer or microbusiness within 30 calendar days of the approval.

(f) A licensed distributor shall destroy a batch that failed regulatory compliance testing and cannot be remediated pursuant to section 17305 within 60 days of failure of the batch or 30 days of receiving notification from the Department that the batch may not be remediated. The distributor shall notify the licensed manufacturer or cultivator who produced the batch of the destruction and the reasons for it. Evidence of destruction including, but not limited to, video or photos of the destruction shall be provided to the Department upon request.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26070, 26100, 26104 and 26110, Business and Professions Code.

§15307. Quality-Assurance Review.

When a licensed distributor receives a certificate of analysis for regulatory compliance testing from the licensed testing laboratory or upon transfer from another licensed distributor stating that the batch meets specifications required by law, the licensed distributor shall ensure the following before transporting the cannabis goods to one or more licensed retailers or licensed microbusinesses authorized to engage in retail sales:

(a) The certificate of analysis for regulatory compliance testing that the licensed distributor received from the licensed testing laboratory or another licensed distributor is the certificate of analysis that corresponds to the batch;

(b) The date on the certificate of analysis for the regulatory compliance testing is less than 12 months old;

(c) The label on the cannabis goods is consistent with the certificate of analysis for regulatory compliance testing regarding cannabinoid content required to be listed by law as follows:

(1) If the cannabis goods are labeled with the content for cannabinoids, terpenoids, Total THC, and/or Total CBD prior to receiving the certificate of analysis for regulatory compliance testing, the licensed distributor shall ensure that the labeled amounts are accurate in accordance with section 15307.1, and

(2) If the cannabis goods are not labeled with the content for cannabinoids, terpenoids, Total THC, and/or Total CBD prior to receiving the certificate of analysis for regulatory compliance testing, the licensed distributor shall label the cannabis goods with the amounts listed on the certificate of analysis pursuant to section 15303;

(d) The packaging and labeling of the cannabis goods complies with Business and Professions Code section 26120 and this division, except cannabis goods are not

required to be labeled or otherwise identified as medicinal products prior to retail sale unless the cannabis goods must be labeled as such pursuant to this division;

(e) The cannabis goods have not exceeded their expiration or sell-by date if one is provided;

(f) The weight or count of the batch comports with that in the track and trace system. A licensed distributor shall use scales as required by this division; and

(g) All events prior to receipt of the certificate of analysis for regulatory compliance testing have been entered into the track and trace system.

(h) If the licensed distributor determines that the cannabis goods are not fit for sale because they do not meet the requirements of this section, then the distributor may arrange for a corrective action plan to be submitted pursuant to section 17305 in accordance with the following:

(1) If the cannabis goods may be relabeled by the licensed distributor, another distributor, or microbusiness authorized to engage in distribution, then the distributor who will conduct the remediation shall submit a corrective action plan pursuant to section 17305. Transport to another licensed distributor or microbusiness authorized to engage in distribution shall not occur until the corrective action plan has been approved by the Department.

(2) If the cannabis goods may only be remediated by a licensed manufacturer or microbusiness authorized to engage in manufacturing because they must be repackaged or reprocessed, then the licensed distributor shall comply with the provisions of subsections (e) and (f) of section 15306.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26070, 26110 and 26120, Business and Professions Code.

§15307.1. Quality-Assurance Review for Labeling Cannabinoids and Terpenoids.

(a) For purposes of this division, any one cannabinoid, THC, Total THC, CBD and/or Total CBD claimed to be present on a label shall not be considered inaccurate if the difference in percentage on the certificate of analysis is plus or minus 10.0%.

(b) For purposes of this division, the terpenoid testing results on the label of any one terpenoid claimed to be present shall not be considered inaccurate if the difference in percentage on the certificate of analysis is plus or minus 10.0%.

(c) For purposes of this section, the difference in percent shall be calculated using the following equation:

$$\text{Difference in percent} = \left| \frac{\text{laboratory measurement} - \text{label claim}}{\text{label claim}} \right| \times 100\%$$

(d) For purposes of this section, Total THC and Total CBD shall have the same meaning as defined in chapter 6.

(e) Cannabis goods shall be labeled with accurate concentration limits in accordance with sections 17304 and 17407.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100 and 26110, Business and Professions Code.

§15307.2. Licensed Distributor to Licensed Distributor Transfers.

(a) Cannabis goods that have undergone and passed regulatory compliance testing and have an accompanying certificate of analysis may be transferred to one or more licensed distributors.

(b) Cannabis goods that have not been transported to retail within 12 months of the date on the certificate of analysis must be destroyed or retested by the licensed distributor in possession of the cannabis goods. Retesting pursuant to this subsection shall only be conducted if the cannabis goods have not been modified in any way.

(c) If the licensed distributor, manufacturer, or microbusiness authorized to engage in manufacturing will be repackaging, relabeling, reformulating, or modifying the cannabis goods in any way, they shall submit a corrective action plan pursuant to section 17305 and receive approval from the Department before beginning modifications to the cannabis goods.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26110, Business and Professions Code.

§15308. Insurance Requirements.

(a) A distributor licensee shall at all times carry and maintain commercial general liability insurance in the aggregate in an amount no less than \$2,000,000 and in an amount no less than \$1,000,000 for each loss.

(b) A distributor licensee shall maintain the insurance required in subsection (a) from an insurance company that is:

(1) A non-admitted insurer that meets the requirements of Insurance Code section 1765.1 or 1765.2, and the insurance is placed pursuant to Insurance Code section 1763 and through a surplus line broker licensed under Insurance Code section 1765;

(2) An insurer qualified to do business in California by the Secretary of State and authorized by the Insurance Commissioner to write the liability and property classes of insurance as defined by Insurance Code sections 102, 103, 107, 108, 114, and 120; or

(3) A registered risk retention group compliant with the California Risk Retention Act of 1991. (See Insurance Code sections 125-140.)

(c) Admitted insurers and risk retention groups must show proof of capitalization in the amount of at least \$10,000,000.

§15309. Inventory Accounting.

(a) A licensed distributor shall be able to account for all inventory and provide that information to the Department upon request.

(b) To account for inventory, a licensed distributor shall ensure all batches of cannabis or cannabis products are stored in accordance with section 15302 and shall be able to provide the Department with the status of the batch as follows:

- (1) The batch is being held in storage for another licensee;
- (2) The batch is awaiting sampling for regulatory compliance testing;
- (3) The batch has been sampled and is awaiting regulatory compliance testing results;
- (4) The batch has passed regulatory compliance testing;
- (5) The batch has failed regulatory compliance testing and is awaiting approval for remediation;
- (6) The batch has failed regulatory compliance testing and is awaiting destruction; and
- (7) The batch is being stored or held for any other lawful purpose under the Act or this division.

§15311. Requirements for the Transportation of Cannabis and Cannabis Products.

The following requirements apply when transporting cannabis and cannabis products between licensees or licensed premises:

(a) Transportation shall only be conducted by persons holding a distributor license under the Act, or employees of those persons. All vehicles and trailers used for transportation shall be owned or leased, in accordance with the Vehicle Code, by the licensee. The licensee is not required to be the sole owner or lessor of the vehicle or trailer and all owners and lessors may use the vehicle for non-commercial cannabis activity.

(b) Prior to transporting any cannabis and cannabis products ~~goods~~, the licensed distributor shall have a completed sales invoice or receipt that meets the requirements of Business and Professions Code section 26161. The licensed distributor shall only transport cannabis and cannabis products listed on the sales invoice or receipt. The sales invoice or receipt may not be altered or changed once transport begins.

(c) A licensed distributor employee shall always carry a copy of the distributor's license and a copy of the QR Code Certificate issued by the Department while engaging in the transportation of cannabis goods. The QR Code Certificate shall comply with the requirements of section 15039, subsection (d).

(d) All vehicles transporting cannabis goods for hire shall be required to have a motor carrier permit issued to the licensed distributor pursuant to Chapter 2 (commencing with Section 34620) of Division 14.85 of the Vehicle Code.

- (e) Transportation by means of aircraft, watercraft, drone, rail, human-powered vehicle, or unstaffed vehicle is prohibited.
- (f) Cannabis and cannabis products shall only be transported inside of a vehicle or trailer and shall not be visible or identifiable from outside of the vehicle or trailer.
- (g) Cannabis and cannabis products shall be transported in a fully enclosed, windowless, locked trailer or trunk that cannot be accessed from inside the vehicle, or in a secured area or compartment within the interior of the vehicle. A “secured area” is defined as an area where solid or locking metal partitions, cages, or high-strength shatterproof acrylic can be used to create a secure compartment in the fully enclosed vehicle. The secured area may be comprised on three sides of any part of the body of the vehicle, provided the parts of the vehicle used for the purposes of this section are shatterproof and are not made of glass.
- (h) While left unattended, vehicles and trailers shall be locked and secured.
- (i) A licensed distributor shall not leave a vehicle or trailer containing cannabis and cannabis products unattended in a residential area or parked overnight in a residential area.
- (j) At a minimum, a licensed distributor shall have a vehicle alarm system on all transport vehicles and trailers. Motion detectors, pressure switches, duress, panic, and hold-up alarms may also be used.
- (k) Packages or containers holding cannabis and cannabis products shall not be tampered with, or opened, during transport.
- (l) A licensed distributor transporting cannabis and cannabis products shall only travel between licensees shipping or receiving cannabis and cannabis products and its own licensed premises when engaged in the transportation of cannabis and cannabis products. The licensed distributor may transport multiple shipments of cannabis and cannabis products at once in accordance with applicable laws. A licensed distributor shall not deviate from the travel requirements described in this section, except for necessary rest, fuel, or vehicle repair stops.
- (m) Under no circumstances may non-cannabis goods, except for cannabis accessories and licensees’ branded merchandise or promotional materials, be transported with cannabis and cannabis products.
- (n) Vehicles and trailers transporting cannabis and cannabis products are subject to inspection by the Department at any licensed premises or during transport at any time.
- (o) Notwithstanding subsections (e) through (g), if it is not operationally feasible to transport cannabis or cannabis products inside of a vehicle or trailer because the licensed premises that the cannabis or cannabis products will be transported from and the licensed premises that will be receiving the cannabis or cannabis products are located within the same building or on the same parcel of land, the cannabis or cannabis products may be transported by foot, hand truck, fork lift, or other similar means. A shipping manifest that complies with this division is required when transporting cannabis or cannabis products pursuant to this subsection.

(p) Notwithstanding subsection (e), transportation of cannabis and cannabis products may be conducted via waterway to licensees located on Catalina Island. The provisions of this section and other sections regarding vehicle requirements also apply to vessels used to transport cannabis and cannabis products via waterway pursuant to this section.

Authority: Section 26013, Business and Professions Code. Reference: Section 26070, Business and Professions Code.

§15312. Required Transport Vehicle Information.

(a) Upon request, the licensed distributor shall provide the Department with a copy of the certificate of ownership or registration card issued by the California Department of Motor Vehicles, the year, make, model, license plate number, and Vehicle Identification Number in writing, and proof of insurance for any vehicle or trailer used to transport cannabis or cannabis products.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26070, Business and Professions Code.

§15313. Transport Personnel Requirements.

(a) No person under the age of 21 years old shall be in a commercial vehicle or trailer transporting cannabis or cannabis products; and

(b) Only a licensee, an employee of the licensed distributor, or security personnel who meets the requirements of section 15045 shall be in a vehicle while transporting cannabis or cannabis products.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26070, Business and Professions Code.

§15314. Shipping Manifest.

(a) Prior to transporting cannabis or cannabis products, a licensed distributor shall generate a shipping manifest through the track and trace system for the following activities:

- (1) Regulatory compliance testing and sampling;
- (2) Sale of cannabis or cannabis products to a licensee;
- (3) Destruction or disposal of cannabis or cannabis products; and
- (4) Any other activity, as required pursuant to this division, or by the Department.

(b) The licensed distributor shall transmit the shipping manifest to the Department and the licensee that will receive the cannabis or cannabis products prior to transporting the cannabis or cannabis products.

(c) The licensed distributor shall ensure and verify that the cannabis or cannabis products being taken into possession for transport at the originating licensed premises are as described and accurately reflected in the shipping manifest. For purposes of this

Department of Cannabis Control

section, the licensed distributor may verify that the cannabis or cannabis products are accurately reflected in the shipping manifest by confirming that the number of boxes of cannabis or cannabis products, type of cannabis or cannabis products, weight and/or units of cannabis or cannabis products matches the label on the boxes containing the cannabis or cannabis products.

(1) The licensed distributor shall not take into possession or transport:

(A) Any cannabis or cannabis products that are not on the shipping manifest; or

(B) Any cannabis or cannabis products that are less than or greater than the amount reflected on the shipping manifest.

(2) The licensed distributor is responsible for any discrepancies between the shipping manifest and the cannabis or cannabis products in its possession during transport, and subject to any enforcement or disciplinary action related to such discrepancy.

(3) A licensed distributor shall not void or change a shipping manifest after departing from the originating licensed premises.

(d) A shipping manifest shall accompany every transport of cannabis or cannabis products.

§15315. Distributor Transport Only License.

(a) A licensed distributor transport only licensee may transport cannabis or cannabis products between licensees; however, they shall not transport any cannabis or cannabis products except for immature cannabis plants, seeds, and trade samples to a licensed retailer or licensed microbusiness authorized to engage in retail sales.

(b) A complete application for a distributor transport only license shall include all the information required in an application for a distributor license.

(c) The licensing fee for a distributor transport only license will be based in part upon whether the licensee intends to transport only cannabis or cannabis products that the licensee has cultivated or manufactured (self-distribution), or whether the licensee intends to transport cannabis or cannabis products cultivated or manufactured by other licensees.

(d) A distributor transport only licensee shall comply with all of the requirements for a holder of a distributor license, except for those related to quality assurance and regulatory compliance testing.

(e) A distributor transport only licensee shall not hold title to any cannabis or cannabis products unless the licensee also holds a Department-issued cultivation, manufacturing, retailer, or microbusiness license.

(f) Holding a distributor transport only license shall not authorize a licensee to:

(1) Engage in the delivery of cannabis or cannabis products as defined in Business and

Professions Code section 26001(o);

(2) Engage in the wholesale, destruction, packaging, labeling, or storing of cannabis or cannabis products; or

(3) Arrange for the regulatory compliance testing of cannabis or cannabis products by a testing laboratory.

(g) A distributor transport only licensee who is licensed to engage in self-distribution and whose licensed premises will be on the same property as their licensed cultivation or licensed manufacturing premises shall comply with the security provisions contained in chapter 1, article 5 that are applicable to their licensed cultivation or licensed manufacturing premises.

§15411. Requirements for Providing Free Cannabis Goods to Medicinal Consumers.

(a) A licensed retailer shall not provide free cannabis goods to any person. A licensed retailer shall not allow individuals who are not employed by the licensed retailer to provide free cannabis goods to any person on the licensed premises.

(b) Notwithstanding subsection (a), in order to provide access to medicinal cannabis patients who have difficulty accessing medicinal cannabis goods, a licensee who holds an M-Retailer license, an M-Retailer Non-storefront license, or an M-Microbusiness license that is authorized for retail sales may provide free medicinal cannabis goods if the following criteria are met:

(1) Free cannabis goods are provided only to a medicinal cannabis patient or primary caregiver who possesses a valid physician's recommendation for medicinal cannabis or cannabis products or a valid identification card issued under Health and Safety Code section 11362.71.

(A) Before providing free cannabis goods to a medicinal cannabis patient who does not possess a valid identification card issued under Health and Safety code section 11362.7, the licensed retailer shall do the following:

(i) Verify with the Medical Board of California, the Osteopathic Medical Board of California, or the California Board of Podiatric Medicine that the attending physician providing the patient's medicinal cannabis recommendation has a license in good standing to practice medicine or osteopathy in the State of California;

(ii) Keep a copy of the patient's or primary caregiver's driver's license or other government-issued identification; and

(iii) Prepare and retain written certification that the licensed retailer verified the physician's recommendation as required by this section that includes the date and time of the verification, the name of the employee who conducted the verification, the name of the licensing board(s) contacted, the method by which the licensing board was contacted, and the name of the person at the licensing board who provided the verification if it was conducted orally, or a copy of the verification if it was provided in writing.

(B) After initially verifying a physician's recommendation for a specific medicinal cannabis patient as required by this section, a licensed retailer shall also verify the physician's recommendation at least annually, for the time period that the physician's recommendation is valid.

(C) A licensee shall not provide free cannabis goods to a medicinal cannabis patient or the patient's primary caregiver if the physician's recommendation has expired.

(2) Prior to being provided to the patient or the patient's primary caregiver, the cannabis goods have been properly designated for donation and recorded in the track and trace system.

(3) Except as provided under Revenue and Taxation Code section 34012.1, the donated cannabis goods shall comply with all statutory and regulatory requirements that apply to

Department of Cannabis Control

cannabis goods for sale, including those for cultivating, manufacturing, distributing, processing, storing, regulatory compliance testing, packaging, labeling, transporting, and delivering.

(4) The cannabis goods provided to a medicinal cannabis patient or the patient's primary caregiver pursuant to this section shall be applied toward the daily purchase limit for a medicinal cannabis customer contained in section 15409 and the possession limits contained in Health and Safety Code section 11362.77.

(5) If cannabis goods are donated by a licensed retailer, then the sales invoice or receipt for the cannabis goods shall indicate that the cannabis goods were donated.

(6) The provision of free cannabis goods shall be recorded in the track and trace system and the licensed retailer's inventory records. The inventory records shall also include either the number of the medicinal cannabis patient's identification card issued under Health and Safety Code section 11362.7 or a copy of a valid physician's recommendation and the written certification that the recommendation was verified as required by this section.

(c) In addition to the provision of free cannabis goods in subsection (b), a licensed retailer may donate cannabis goods and the use of equipment in compliance with any compassionate use, equity, or other similar program administered by a local jurisdiction. The licensee shall ensure that all cannabis goods provided pursuant to this subsection comply with subsections (b)(4), (b)(5), and (b)(6).

(d) A licensed retailer may contract with an individual or organization to coordinate the provision of free cannabis goods on the licensee's retail premises. All cannabis goods provided through an individual or organization pursuant to this subsection shall comply with the requirements of this section. The licensed retailer may be disciplined for violations of the Act that are committed by an individual or organization with whom the licensee has contracted.

(e) A licensed retailer authorized to engage in retail sales only through delivery shall provide free cannabis goods only by delivery. Free cannabis goods provided through delivery shall comply with the requirements of this section.

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 101 of 214

of the vehicle that may indicate that the delivery employee is carrying cannabis goods for delivery. Only the licensee or an employee of the retailer licensee for whom delivery is being performed shall be in the delivery vehicle.

(b) While carrying cannabis goods for delivery, a licensed retailer's delivery employee shall ensure the cannabis goods are not visible to the public. Cannabis goods shall be stored in a secure, fully enclosed trunk that cannot be accessed from inside the vehicle, or in a secured area or compartment within the interior of the vehicle. A "secured area" is defined as an area where solid or locking metal partitions, cages, or high-strength shatterproof acrylic can be used to create a secure compartment in the fully enclosed vehicle. The secured area may be comprised on three sides by any part of the body of the vehicle, provided the parts of the vehicle used for the purposes of this section are shatterproof and are not made of glass.

(c) A licensed retailer's delivery employee shall not leave cannabis goods in an unattended motor vehicle unless the motor vehicle is locked and equipped with an active vehicle alarm system. Any cannabis goods left in an unattended vehicle must be stored in a container as required in subsection (b).

(d) A vehicle used for the delivery of cannabis goods shall be outfitted with a dedicated Global Positioning System (GPS) device for identifying the geographic location of the delivery vehicle and recording a history of all locations traveled to by the delivery employee while engaged in delivery. A dedicated GPS device must be owned by the licensee and used for delivery only. The device shall be either permanently or temporarily affixed to the delivery vehicle and shall remain active and inside of the delivery vehicle at all times during delivery. At all times, the licensed retailer shall be able to identify the geographic location of all delivery vehicles that are making deliveries for the licensed retailer and document the history of all locations traveled to by a delivery employee while engaged in delivery. A licensed retailer shall provide this information to the Department upon request. The history of all locations traveled to by a delivery employee while engaging in delivery shall be maintained by the licensee for a minimum of 90 days.

(e) Upon request, a licensed retailer shall provide the Department with information regarding any motor vehicle used for the delivery of cannabis goods, including the vehicle's make, model, color, Vehicle Identification Number, license plate number and Department of Motor Vehicles registration information.

(f) Any motor vehicle used by a licensed retailer to deliver cannabis goods is subject to inspection by the Department. Vehicles used to deliver cannabis goods may be stopped and inspected by the Department at any licensed premises or during delivery.

(b) For the purposes of this section, the value of cannabis goods shall be determined

Department of Cannabis Control

using the current retail price of all cannabis goods carried by, or within the delivery vehicle of, the licensed retailer's delivery employee.

(c) A delivery employee may only carry cannabis goods, cannabis accessories, branded merchandise of any licensee, or promotional materials in the delivery vehicle and may only perform deliveries for one licensed retailer at a time. A delivery employee must depart and return to the same licensed premises before taking possession of any cannabis goods from another licensee to perform deliveries.

(d) A licensed retailer's delivery employee shall not leave the licensed premises with cannabis goods without at least one delivery order that has already been received and processed by the licensed retailer.

(e) Before leaving the licensed premises, the licensed retailer's delivery driver must have a delivery inventory ledger of all cannabis goods provided to the licensed retailer's delivery driver. For each cannabis good, the delivery inventory ledger shall include the type of good, the brand, the retail value, the track and trace identifier, and the weight, volume or other accurate measure of the cannabis good. All cannabis goods prepared for an order that was received and processed by the licensed retailer prior to the delivery driver's departure from the licensed premises must be clearly identified on the inventory ledger. After each customer delivery, the delivery inventory ledger must be updated to reflect the current inventory in possession of the licensed retailer's delivery driver. Delivery inventory ledgers may be maintained electronically.

(f) The licensed retailer's delivery driver shall maintain a log that includes all stops from the time the licensed retailer's delivery driver leaves the licensed premises to the time that the licensed retailer's delivery driver returns to the licensed premises, and the reason for each stop. The log shall be turned in to the licensed retailer when the licensed retailer's delivery driver returns to the licensed premises. The licensed retailer must maintain the log as a commercial cannabis activity record as required by this division. The log may be maintained electronically.

(g) Prior to arrival at any delivery location, the licensed retailer must have received a delivery request from the customer and provided the delivery request receipt to the licensed retailer's delivery driver electronically or in hard copy. The delivery request receipt provided to the licensed retailer's delivery driver shall contain all of the information required in section 15420, except for the date and time the delivery was made, and the signature of the customer.

(h) Immediately upon request by the Department or any law enforcement officer, the licensed retailer's delivery driver shall provide:

(1) All delivery inventory ledgers from the time the licensed retailer's delivery driver left the licensed premises up to the time of the request;

(2) All delivery request receipts for cannabis goods carried by the driver, in the delivery vehicle, or any deliveries that have already been made to customers; and

(3) The log of all stops from the time the licensed retailer's delivery driver left the licensed premises up to the time of the request.

(i) If a licensed retailer's delivery driver does not have any delivery requests to be

Department of Cannabis Control

performed for a 30-minute period, the licensed retailer's delivery driver shall not make any additional deliveries and shall return to the licensed premises. Required meal breaks shall not count toward the 30-minute period.

(j) Upon returning to the licensed premises, all undelivered cannabis goods shall be returned to inventory and all necessary inventory and track and trace records shall be updated as appropriate that same day.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26090, Business and Professions Code.

§15420. Delivery Request Receipt.

A licensed retailer shall prepare a hard copy or electronic delivery request receipt for each delivery of cannabis goods.

(a) The delivery request receipt shall contain the following:

- (1) The legal business name and license number of the licensed retailer;
- (2) The first name and employee number of the licensed retailer's delivery employee who delivered the order;
- (3) The first name and employee number of the licensed retailer's employee who prepared the order for delivery;
- (4) The first name of the customer and a licensed retailer-assigned customer number for the person who requested the delivery;
- (5) The date and time the delivery request was made;
- (6) The delivery address;
- (7) A detailed description of all cannabis goods requested for delivery. The description shall include the weight, volume, or any other accurate measure of the amount of all cannabis goods requested;
- (8) The total amount paid for the delivery, including any taxes or fees, the cost of the cannabis goods, and any other charges related to the delivery; and
- (9) Upon delivery, the date and time the delivery was made, and the handwritten or electronic signature of the customer who received the delivery.

(b) At the time of the delivery, the delivery employee of the retailer shall provide the customer who placed the order with a hard or electronic copy of the delivery request receipt. The delivery employee shall retain a hard or electronic copy of the signed delivery request receipt for the licensed retailer's records.

(c) For the purposes of this section, an employee number is a distinct number assigned by a licensed retailer to an employee that would allow the licensed retailer to identify the employee in documents or records using the employee number rather than the employee's full name. A licensed retailer shall be able to identify the employee associated with each employee number upon request from the Department.

(d) For the purposes of this section, a customer number is a distinct number assigned by a licensed retailer to a customer that would allow the licensed retailer to identify the customer in documents or records using the customer number rather than the customer's full name. A licensed retailer shall be able to identify the customer associated with each customer number upon request from the Department.

(b) All sales of cannabis goods at a temporary cannabis event must occur in a retail area as designated in the premises diagram pursuant to section 15002.1(b)(5).

(c) Each sale at a temporary cannabis event shall be performed by a licensed retailer, a licensed non-storefront retailer, or licensed microbusiness that is authorized to engage in retail sales. The cannabis event organizer may also sell cannabis goods at the temporary cannabis event if the organizer separately holds a license authorizing the retail sale of cannabis goods.

(1) Licensed retailers or licensed microbusinesses shall only conduct sales activities within their specifically assigned area, identified in the diagram of the physical layout of the temporary cannabis event.

(2) Mobile sales activities via wagon, cart, or similar means are prohibited at the temporary cannabis event site.

- (d) Licensed retailers or licensed microbusinesses must prominently display their temporary cannabis event location number and state license within plain sight of the public.
- (e) All sales at a temporary cannabis event shall occur on the dates stated on the license and shall occur at the location stated on the license. All onsite sales of cannabis goods must comply with the hours of operation requirements of section 15403.
- (f) Sale of alcohol or tobacco shall not be allowed on the licensed temporary cannabis event premises.
- (g) The cannabis goods sold onsite at a temporary cannabis event shall be transported by a licensed distributor or licensed microbusiness in compliance with the Act and this division. All shipments of cannabis goods and non-cannabis goods intended for sale at a temporary cannabis event must be checked by the temporary cannabis event organizer staff to prevent prohibited items, such as alcohol and tobacco, from entering the licensed premises.
- (h) Except small amounts of cannabis goods used for display, all cannabis goods for sale at a temporary cannabis event shall be stored in a secure, locked container that is not accessible to the public. Cannabis goods being stored by a licensee at a temporary cannabis event shall not be left unattended. Licensees may share the secure, locked container; however, each licensee using the container shall be held responsible for any violations of this section and subject to disciplinary action.
- (i) All cannabis goods made available for sale at a cannabis event shall comply with all requirements for the retail sale of cannabis goods within the Act and section 15406.
- (j) All cannabis goods made available for sale at a temporary cannabis event shall comply with all track and trace requirements within the Act and this division.
- (k) All cannabis goods used for display at a temporary cannabis event shall comply with the requirements of section 15405.
- (l) All cannabis goods sold at a temporary cannabis event shall comply with section 15413.
- (m) All customer returns of cannabis goods at a temporary cannabis event shall comply with section 15410.
- (n) The daily sales limits under section 15409 apply to all sales made at a temporary cannabis event.
- (o) A licensed retailer shall only provide free cannabis goods to a person at a temporary cannabis event if the licensed retailer complies with all requirements of section 15411.
- (p) The licensed cannabis event organizer shall be responsible for ensuring that all rules and requirements for the onsite sale of cannabis goods are followed.

(q) Any compensation paid from a licensed retailer to a licensed cannabis event organizer for participation in a temporary cannabis event shall not be determined based on, or be contingent on, the sale of cannabis goods.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26200, Business and Professions Code.

§15603. Temporary Cannabis Event Consumption.

- (a) Access to the area where cannabis consumption is allowed shall be restricted to persons 21 years of age or older.
- (b) The event organizer licensee shall ensure that cannabis consumption is not visible from any public place or non-age-restricted area.
- (c) Consumption of alcohol or tobacco shall not be allowed on the licensed premises.
- (d) All requirements for onsite cannabis consumption imposed by the relevant local jurisdiction shall be followed and smoking of cannabis goods shall be prohibited in any areas where smoking is prohibited by law.
- (e) The licensed cannabis event organizer, who holds the temporary cannabis event license, shall be responsible for ensuring that all rules and requirements for the onsite consumption of cannabis goods are followed.
- (f) A licensed cannabis event organizer and all other licensees participating in a temporary cannabis event are required to follow all applicable requirements in this division pertaining to record keeping and waste management.

Authority: Section 26013, Business and Professions Code. Reference: Section 26200, Business and Professions Code.

§15603.1. Participation in Temporary Cannabis Events by Non-Retail Licensees.

- (a) Licensees who are not retailers may participate in licensed temporary cannabis events and may display cannabis or cannabis products in accordance with the following:
 - (1) Cannabis or cannabis products displayed shall not exceed the following amounts:
 - (A) 85.5 grams of non-concentrated cannabis.
 - (B) 24 grams of cannabis concentrate.
 - (C) 18 immature plants.
 - (D) 21 seeds.
 - (2) Cannabis or cannabis products may be provided to attendees of the event for inspection and educational purposes only. Cannabis and cannabis products used for display shall comply with the provisions in subsections (b) and (c) of section 15405.
 - (3) Cannabis and cannabis products for display purposes by non-retail licensees only may be brought to the licensed event by the licensee or their employees. However, no individual shall transport an amount of cannabis or cannabis products that exceeds the

Department of Cannabis Control

possession limits established in section 11362.1 of the Health and Safety Code unless such individual is a licensed distributor or their employee transporting in a distribution vehicle.

(b) Licensees may display non-cannabis containing items such as cannabis accessories, packaging materials, promotional materials, and branded merchandise.

(c) Licensees may sell branded merchandise and cannabis accessories in compliance with local and state laws governing the sale of goods.

Authority: Section 26013, Business and Professions Code. Reference: Section 26013, Business and Professions Code.

§15604. Informational or Educational Cannabis Events.

(a) Informational or educational cannabis events where no sales of cannabis goods or consumption of cannabis goods is occurring are not required to be licensed by the Department.

(b) A person may display cannabis or cannabis products for informational or educational purposes consistent with Health and Safety Code sections 11362.1 and 11362.77.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26013, Business and Professions Code; and Sections 11362.1 and 11362.77, Health and Safety Code.

Chapter 6. Testing Laboratories

Article 1. Chapter Definitions

§15700. Definitions.

In addition to the definitions in section 15000, the following definitions apply to this chapter.

(a) “Acceptance criteria” means the specified limits placed on the characteristics of an item or method that are used to determine data quality.

(b) “Accreditation body” means an impartial non-profit organization that operates in conformance with the International Organization for Standardization (ISO) / International Electrotechnical Commission (IEC) standard 17011 and is a signatory to the International Laboratory Accreditation Cooperation (ILAC) Mutual Recognition Arrangement (MRA) for Testing.

(c) “Accredited college or university” means a college or university accredited by a regional or national accrediting agency that is an accreditor recognized by the Secretary of the US Department of Education.

(d) “Action level” means the threshold value that provides the criterion for determining whether a sample passes or fails an analytical test.

(e) “Analyte” means a chemical, compound, element, bacteria, yeast, fungus, or toxin to be identified or measured.

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 113 of 214

- (f) “Analytical batch” means a set of no more than 20 samples that is prepared together for the same analysis and are prepared with laboratory quality control (LQC) samples.
- (g) “Analytical method” means a technique used qualitatively or quantitatively to determine the composition of a sample or a microbial contamination of a sample.
- (h) “Analytical sequence” means a group of samples that are analyzed sequentially using the same instrument calibration curve.
- (i) “Cannabinoid” means a class of diverse chemical compounds derived from a cannabis plant.
- (j) “CAS number” means the unique numerical identifier assigned to every chemical substance by Chemical Abstracts Service, a division of the American Chemical Society.
- (k) “CBDA” means cannabidiolic acid, CAS number 1244-58-2.
- (l) “CBG” means cannabigerol, CAS number 25654-31-3.
- (m) “CBN” means cannabitol, CAS number 521-35-7.
- (n) “Certificate of accreditation” means a document issued by an accreditation body that attests to the laboratory’s competence to carry out specific testing analysis.
- (o) “Certified reference material” means a reference material in cannabis or similar non-cannabis matrix prepared at a known concentration by a certifying body or a party independent of the laboratory with ISO/IEC 17034 accreditation. The laboratory will calculate the percent recovery of the certified reference material based on measured concentration relative to the known concentration.
- (p) “Chain of Custody” (COC) means the chronological documentation that records the sequence of custody, control, transfer, analysis, and disposal of a sample.
- (q) “Coefficient of Determination” (commonly denoted as “ r^2 ”) means a statistical measure that determines how well the regression approximates the actual data points in the calibration curve, with a regression of 1 being a perfect fit.
- (r) “Continuing calibration verification” (CCV) means a type of quality control sample that includes each of the target method analytes that is a mid-range calibration standard which checks the continued validity of the initial calibration of the instrument.
- (s) “Corrective action” means an action taken by the laboratory to resolve, and prevent from recurrence, a problem with the technical operations of the laboratory.
- (t) “Exclusivity” means the specificity of the test method for validating microbial testing methods. It evaluates the ability of the method to distinguish the target organisms from similar but genetically distinct non-target organisms.
- (u) “Foreign material” means any filthy, putrid, or decomposed substance including hair, insects, excreta, or related adulterant that may be hazardous or cause illness or injury to the consumer.
- (v) “Frequency” means the number of items occurring in each category. Frequency may be determined by analytical method or laboratory specific requirements for accuracy, precision of the analysis, or statistical calculation.

Department of Cannabis Control

(w) “Good laboratory practice” (GLP) means a system of management controls for laboratories to ensure the uniformity, consistency, reliability, reproducibility, quality, and integrity of analyses performed by the testing laboratory.

(x) “Inclusivity” means, related to microbiological method validation, the sensitivity of the test method. It evaluates the ability of the test method to detect a wide range of target organisms by a defined relatedness.

(y) “Inhalable” means consumable through the lungs.

(z) “Initial Calibration Verification” (ICV) means a solution of each of the target method analytes of known concentration that is obtained from a source external to the laboratory and different from the source of calibration standards.

(aa) “ISO/IEC” means the joint technical committee of the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC).

(bb) “ISO/IEC 17025” means the general requirements specified by the ISO/IEC for the competence of testing and calibration laboratories.

(cc) “ISO/IEC 17034” means the general requirements established by the ISO/IEC for the competence of reference material producers.

(dd) “ISO/IEC 17043” means the general requirements established by the ISO/IEC for proficiency testing.

(ee) “Laboratory” means “testing laboratory” as defined at Business and Professions Code section 26001(av).

(ff) “Laboratory Control Sample” (LCS) means a blank matrix to which known concentrations of each of the target method analytes are added. The spiked concentration must be at a mid-range concentration of the calibration curve for the target analytes. The LCS is analyzed in the same manner as the representative sample.

(gg) “Laboratory replicate sample” means a sub-sample taken of the representative sample used for laboratory quality control purposes to demonstrate reproducibility. It is prepared and analyzed in the identical manner as the representative sample. The results from replicate analyses are used to evaluate analytical precision.

(hh) “Laboratory employee” means any person directly employed by the laboratory for wages, salary, barter, or trade by the laboratory and who is not employed by any other licensee under the Act except for another testing laboratory. “Laboratory employee” does not mean an independent contractor, third party entity, or any other entity acting on behalf of the laboratory.

(ii) “Laboratory quality assurance” means the set of operating principles that enable laboratories to produce defensible data of known accuracy and precision and includes employee training, equipment preventative maintenance procedures, calibration procedures, and quality control testing, among other things.

(jj) “Limit of detection” (LOD) means the lowest quantity of a substance or analyte that can be distinguished from the absence of that substance within a stated confidence limit.

(kk) “Limit of quantitation” (LOQ) means the minimum concentration of an analyte in a

Department of Cannabis Control

specific matrix that can be reliably quantified while also meeting predefined goals for bias and imprecision.

(ll) “Linear regression” means the determination, in analytical chemistry, of the best linear equation for calibration data to generate a calibration curve. The concentration of an analyte in a sample can then be determined by comparing a measurement of the unknown to the calibration curve. A linear regression uses the following equation:

$$y = mx + b; \text{ where } m = \text{slope, } b = \text{intercept}$$

(mm) “Matrix” means the substances that are present in a sample except for the analyte(s) of interest.

(nn) “Matrix spike sample” means a sample prepared by adding a known quantity of each of the target analyte to a sample matrix or to a matrix that is as closely representative of the matrix being analyzed as possible. The spiked concentration must be at a mid-range concentration of the calibration curve for the target analytes.

(oo) “Method Blank” means an analyte free matrix to which all reagents are added in the same volumes or proportions as used in the sample preparation and is processed in exactly the same manner as the samples.

(pp) “Moisture content” means the percentage of water in a sample, by weight.

(qq) “Non-target organism” means an organism that the test method or analytical procedure is not testing for and can be used in evaluating the specificity of a test method.

(rr) “Percent recovery” means the percentage of a measured concentration relative to the added (spiked) concentration in a reference material or matrix spike sample. A laboratory shall calculate the percent recovery by dividing the sample result by the expected result then multiplying the quotient by 100.

(ss) “Practical experience” means experience performing scientific analytical tests in a laboratory setting using equipment, instruments, kits, and materials routinely found in a laboratory. “Practical experience” includes experience in any type of laboratory setting and is not limited to cannabis-specific laboratories.

(tt) “Proficiency test” means an evaluation of a laboratory’s performance against pre-established criteria by means of interlaboratory comparisons of test measurements.

(uu) “Proficiency test sample” means a sample that is prepared by a party independent of the testing laboratory with the ISO/IEC 17043 accreditation, where the concentration and identity of an analyte is known to the independent party, but is unknown to the testing laboratory and testing laboratory employees.

(vv) “Quadratic regression” means the determination, in analytical chemistry, of the best parabola equation for calibration data to generate a calibration curve. The concentration of an analyte in a sample can then be determined by comparing a measurement of the unknown to the calibration curve. A quadratic regression uses the following equation:

$$y = ax^2 + bx + c; \text{ where } a, b, \text{ and } c \text{ are numerical coefficients}$$

(ww) “Quality control” means the set of measures implemented within an analytical procedure to ensure that the measurement system is operating in a state of statistical

control for which errors have been reduced to acceptable levels.

(xx) “Quality control sample” means a sample that is produced and used by a laboratory for the purpose of assuring the quality of the data and results. Quality control samples include blank samples, matrix spike samples, laboratory control samples, replicate samples, and reference material samples.

(yy) “Reagent” means a compound or mixture added to a system to cause a chemical reaction or test if a reaction occurs. A reagent may be used to tell whether a specific chemical substance is present by causing a reaction to occur with the chemical substance.

(zz) “Reference material” means material containing a known concentration of an analyte of interest that is in solution or in a homogeneous matrix.

(aaa) “Reference method” means the method by which the performance of an alternate method is measured or evaluated.

(bbb) “Relative percent difference” (RPD) means the comparative statistic that is used to calculate precision or random error. RPD is calculated using the following equation:

$$\text{RPD} = \left| \frac{\text{representative sample measurement} - \text{replicate sample measurement}}{[\text{representative sample measurement} + \text{replicate sample measurement}] / 2} \right| \times 100\%$$

(ccc) “Relative standard deviation” (RSD) means the standard deviation expressed as a percentage of the means recovery. RSD is calculated using the following equation:

$$\text{RSD} = (s / x) \times 100\%; \text{ where } s = \text{standard deviation and } x = \text{mean}$$

(ddd) “Representative” means a small quantity of the batch whose characteristics represent, as accurately as possible, the entire batch, thus allowing the results to be generalized.

(eee) “Representative sample” means a sample that is comprised of several sample increments of cannabis or cannabis products that are collected from a batch for testing.

(fff) “Requester” means the person who submits a request to the laboratory for testing of cannabis or cannabis products from an entity licensed under the Act.

(ggg) “Reserve sample” means any portion of a representative sample that was not used in the testing process.

(hhh) “Sample” means a representative part of, or a single item from, a batch which is comprised of several sample increments.

(jjj) “Sample increment” means a portion of a batch that, together with other increments, makes up the sample.

(kkk) “Sampler” means the laboratory employee responsible for obtaining samples of cannabis or cannabis products from a licensed distributor or licensed microbusiness authorized to engage in distribution.

(lll) “Sanitize” means to sterilize, disinfect, or make hygienic.

(mmm) “Scope of accreditation” means the tests or types of tests performed, materials or

Department of Cannabis Control

products tested, and the methods used for testing cannabis or cannabis products for which the accreditation has been granted.

(nnn) “Standard operating procedure” (SOP) means a written document that provides detailed instructions for the performance of all aspects of an analysis, operation, or action.

(ooo) “Target organism” means an organism that is being tested for in an analytical procedure or test method.

(ppp) “THCA” means tetrahydrocannabinolic acid, CAS number 23978-85-0.

(qqq) “Total CBD” means the sum of CBD and CBDA. Total CBD is calculated using the following equation:

$$\text{Total CBD concentration (mg/g)} = (\text{CBDA concentration (mg/g)} \times 0.877) + \text{CBD concentration (mg/g)}$$

(rrr) “Total THC” means the sum of THC, delta 8 THC, and THCA. Total THC is calculated using the following equation:

$$\text{Total THC (mg/g)} = [(\text{delta 8-THCA concentration (mg/g)} + \text{delta 9-THCA concentration (mg/g)}) \times 0.877] + [\text{delta 8-THC concentration (mg/g)} + \text{delta 9-THC concentration (mg/g)}]$$

(sss) “Validation” means the confirmation by examination and objective evidence that the requirements for a specific intended use or analytical method are fulfilled.

(ttt) “Water activity” means the measure of the quantity of water in a product that is available and therefore capable of supporting bacteria, yeasts, and fungi and which is reported in units A_w .

Article 2. Laboratory License

§15701. General Laboratory License Requirements.

(a) A licensed laboratory shall maintain ISO/IEC 17025 accreditation for the testing of the following:

- (1) Cannabinoids;
- (2) Heavy metals;
- (3) Microbial impurities;
- (4) Mycotoxins;
- (5) Residual pesticides;
- (6) Residual solvents and processing chemicals; and
- (7) If tested, terpenoids.

(b) Each testing laboratory licensed premises shall have ISO/IEC 17025 accreditation.

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 118 of 214

(c) A licensed laboratory shall retain, and make available to the Department upon request, all records associated with the licensee's ISO/IEC 17025 certificate of accreditation.

(d) A licensed testing laboratory may test items not regulated by this division if they comply with the laws governing the testing of such items. A licensed testing laboratory shall maintain separate and distinct records of their activities regulated by this division and their activities that are subject to other laws.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012 and 26100, Business and Professions Code.

§15702. Laboratory License Application.

In addition to the information required in section 15002, an application for a testing laboratory license includes the following:

(a) A valid certificate of accreditation, issued by an accreditation body, that attests to the laboratory's competence to perform testing, including all the required analytes for the following test methods:

- (1) Cannabinoids;
- (2) Heavy metals;
- (3) Microbial impurities;
- (4) Mycotoxins;
- (5) Residual pesticides;
- (6) Residual solvents and processing chemicals; and
- (7) If tested, terpenoids.

(b) Standard operating procedures for the following testing methods:

- (1) Cannabinoids;
- (2) Foreign material;
- (3) Heavy metals;
- (4) Microbial impurities;
- (5) Moisture content and water activity;
- (6) Mycotoxins;
- (7) Residual pesticides;
- (8) Residual solvents and processing chemicals; and
- (9) If tested, terpenoids.

(c) Method validation reports for the following testing methods:

- (1) Cannabinoids;

- (2) Heavy metals;
 - (3) Microbial impurities;
 - (4) Mycotoxins;
 - (5) Residual pesticides;
 - (6) Residual solvents; and processing chemicals; and
 - (7) If tested, terpenoids.
- (d) Standard operating procedures for the sampling of cannabis or cannabis products.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012, 26050, 26055, 26102 and 26104, Business and Professions Code.

§15703. Interim Testing Laboratory License.

(a) An applicant may apply for an interim license prior to receiving ISO/IEC 17025 accreditation provided that the commercial cannabis business meets all other licensure requirements for a testing laboratory and submits to the Department an application in compliance with section 15002 and an attestation that the commercial cannabis business has or intends to seek ISO/IEC 17025 accreditation for all testing methods required by this division.

(b) An interim testing laboratory license shall be valid for 12 months. The annual license fee for an interim license shall be determined pursuant to the requirements in section 15014 for determining the annual license fee for a testing laboratory license.

(c) To timely renew an interim license, a completed license renewal form and the annual renewal license fee pursuant to section 15014 shall be received by the Department from the licensee no earlier than 60 calendar days before the expiration of the license and no later than 5:00 p.m. Pacific Time on the last business day before the expiration of the license if the renewal form is submitted to the Department at its office(s), or no later than 11:59 p.m. on the last business day before the expiration of the license if the renewal form is submitted to the Department through its electronic licensing system. Failure to receive a notice for license renewal does not relieve a licensee of the obligation to renew an interim license as required.

(d) In the event the license is not renewed prior to the expiration date, the licensee must not test any commercial cannabis or cannabis products until the license is renewed.

(e) A licensee may submit a license renewal form up to 30 calendar days after the license expires. Any late renewal form will be subject to a late fee equal to 50 percent of the applicable licensing fees required by subsection (c).

(f) The license renewal application shall contain the following:

(1) The name of the licensee. For licensees who are individuals, the applicant shall provide both the first and last name of the individual. For licensees who are business entities, the licensee shall provide the legal business name of the commercial cannabis business;

Department of Cannabis Control

- (2) The license number and expiration date;
 - (3) The licensee's mailing address and licensed premises address; and
 - (4) An attestation that all information provided to the Department in the original application under section 15002 or subsequent notification under sections 15023 and 15024 is accurate and current.
- (g) The Department may renew an interim license for an initial renewal period of 12 months.
- (h) After one renewal, the Department may renew the interim license for additional 12-month periods if the licensee has submitted an application for the ISO/IEC 17025 accreditation. In addition to the information required for a renewal form pursuant to subsection (f), any renewal request pursuant to this section shall also include an attestation that the licensee's application for each ISO/IEC 17025 is pending with the accrediting body, the name of the accrediting body, and the date the application was submitted to the accrediting body.
- (i) The licensee shall notify the Department if the application for each ISO/IEC 17025 accreditation is granted or denied within 1 business day of receiving the decision from the accrediting body. The licensee shall submit to the Department the information required, on the Licensee Notification and Request Form, Notifications and Requests Regarding Testing Laboratories, DCC-LIC-029 (New 2/22), which is incorporated herein by reference. If the accrediting body grants or denies the licensee's application for any ISO/IEC 17025 accreditation before the expiration of the interim license, the Department may terminate the interim license at that time.
- (j) The Department may revoke an interim license at any time.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012, 26031, 26050 and 26102, Business and Professions Code.

Article 3. Sampling Cannabis and Cannabis Products

§15704. Sampling Standard Operating Procedures.

- (a) The licensed laboratory shall develop and implement a sampling standard operating procedure (SOP) that describes the laboratory's method for obtaining representative samples of cannabis or cannabis products. The licensed laboratory shall use and submit to the Department Sampling – Standard Operating Procedures, DCC-LIC-021 (Amended 2/22), which is incorporated herein by reference.
- (b) The licensed laboratory shall retain a copy of the sampling SOP on the licensed laboratory premises and ensure that the sampling SOP is accessible to the sampler during sampling.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26102, 26104 and 26110, Business and Professions Code.

Department of Cannabis Control

§15705. General Sampling Requirements.

(a) The licensed laboratory that obtains a representative sample from a licensed distributor or licensed microbusiness shall perform all the required testing at one licensed laboratory premises.

(b) The licensed laboratory may obtain and analyze samples only from cannabis products batches in final form as required by Business and Professions Code section 26100.

(c) The licensed laboratory sampler shall collect a representative sample from each batch following the procedures specified in the laboratory's sampling standard operating procedure(s).

(d) The licensed laboratory shall ensure that the sample is transported and subsequently stored at the licensed laboratory premises in a manner that prevents degradation, contamination, commingling, and tampering. If the cannabis or cannabis products specify on the label how the cannabis or cannabis products shall be stored, the laboratory shall store the sample as indicated on the label.

(e) The licensed laboratory shall complete a chain of custody form for each sample that the laboratory collects and analyzes.

(f) Once a representative sample has been obtained for regulatory compliance testing, the licensed laboratory that obtained the sample must complete the regulatory compliance testing.

(g) If a licensed laboratory is unable to competently complete the regulatory compliance testing after sampling and before a COA is issued, the licensed distributor or microbusiness authorized to engage in distribution who arranged for the testing of the batch may request approval from the Department to have the impacted batch re-sampled and tested by another licensed laboratory.

(1) The request shall be made in writing via email to testinglabs@cannabis.ca.gov and shall include all of the following:

(A) The name and license number of the distributor;

(B) The batch numbers;

(C) The type and quantity of cannabis or cannabis products;

(D) The name and license number of the laboratory that took the initial sample and is not able to competently complete the regulatory compliance testing;

(E) The name and license number of the laboratory proposed to re-sample and complete the regulatory compliance testing for the batch; and

(F) The reason why the laboratory that initially took the sample cannot competently complete the regulatory compliance testing.

(2) The Department will review the request and determine if the licensed laboratory that initially took the sample is unable to competently complete the regulatory compliance testing. If the Department determines that the licensed laboratory is unable to competently complete the regulatory compliance testing, the Department, in its

Department of Cannabis Control

discretion, may approve the request in whole or part and set conditions for the re-sampling and testing.

(3) No re-sampling of any batch shall occur prior to the licensed distributor or licensed microbusiness authorized to engaged in distribution receiving written approval from the Department.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15706. Chain of Custody (COC).

(a) The licensed laboratory shall develop and implement a COC protocol to ensure accurate documentation is recorded for the transport, handling, storage, and destruction of samples.

(b) The COC protocol shall require the use of a COC form. The sampler shall use a COC to record the following information for each sampled batch:

(1) Laboratory's name, licensed premises address, and license number;

(2) Date and time sampling started and ended;

(3) Licensed distributor or licensed microbusiness' name, licensed premises address, and license number;

(4) Licensed cultivator's, licensed manufacturer's, licensed distributor's, or licensed microbusiness' name, licensed premises address, and license number;

(5) Batch number of the batch from which the representative sample was obtained and assigned unique sample identifier;

(6) Sample matrix;

(7) Total batch size, by weight, or unit count;

(8) Total weight, or unit count of the representative sample;

(9) Sampling conditions or problems encountered during the sampling process, if any;

(10) Printed name and signature of the licensed distributor or licensed microbusiness' authorized to engage in distribution employee; and

(11) Printed name and signature of the sampler.

(c) Each time a sample changes custody between licensees, is transported, or is destroyed, the date, time, and the names and signatures of persons involved in these activities shall be recorded on the COC form.

(d) Once the custody of the sample changes between licensees, the COC form for that change of custody may not be altered.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26102, 26104 and 26110, Business and Professions Code.

§ 15707. Harvest Batch Sampling.

(a) The sampler shall obtain a representative sample from each prepacked or unpacked harvest batch. The representative sample must weigh 0.35% of the total harvest batch weight.

(b) A sampler may collect a representative sample greater than 0.35% of the total harvest batch weight of a prepacked or unpacked harvest batch if necessary to perform the required testing or to ensure that the samples obtained are representative.

(c) The prepacked or unpacked harvest batch from which a sample is obtained shall weigh no more than 50.0 pounds. Laboratory analyses of a sample collected from a harvest batch weighing more than 50.0 pounds shall be deemed invalid and the harvest batch from which the sample was obtained shall not be released for retail sale.

(d) When the sampler obtains a representative sample from an unpacked harvest batch, the sampler shall do all the following:

(1) Collect the number of sample increments relative to the unpacked harvest batch size as listed in the following table;

(2) Obtain sample increments from random and varying locations of the unpacked harvest batch, both vertically and horizontally. To the extent practicable, the sample increments obtained from an unpacked harvest batch shall be of equal weight; and

(3) To the extent practicable, collect an equal number of sample increments from each container if the unpacked harvest batch is stored in multiple containers.

Unpacked Harvest Batch Size (pounds)	Number of Increments (per sample)
≤ 10.0	8
10.1 – 20.0	16
20.1 – 30.0	23
30.1 – 40.0	29
40.1 – 50.0	34

§15708. Cannabis Product Batch and Pre-Roll Sampling.

(a) The sampler shall obtain a representative sample from each cannabis product batch or pre-roll batch.

(b) The sampler may collect a greater number of sample increments if necessary to perform the required testing or to ensure that the samples obtained are representative.

(c) The cannabis product batch or pre-roll batch from which a representative sample is obtained shall contain no more than 150,000 units. Laboratory analyses of a sample collected from a cannabis product batch containing more than 150,000 units shall be deemed invalid and the cannabis product batch or pre-roll batch from which the representative sample was obtained shall not be released for retail sale.

Department of Cannabis Control

(d) The sampler shall obtain a representative sample of a cannabis product or pre-roll batch by collecting, at minimum, the number of sample increments relative to the batch size as listed in the following table. Each sample increment consists of 1 packaged unit.

Cannabis Product or Pre-roll Batch Size (units)	Number of Sample Increments (per sample)
≤ 50	2
51 – 150	3
151 – 500	5
501 – 1,200	8
1,201 – 3,200	13

§15709. Laboratory Transportation of Cannabis and Cannabis Products Samples.

(a) The following requirements apply when a licensed testing laboratory transports cannabis or cannabis products samples:

(1) While transporting cannabis or cannabis products samples, a licensed testing laboratory employee shall ensure the cannabis or cannabis products are not visible to the public. Cannabis or cannabis products shall be stored in a secure, fully enclosed trunk that cannot be accessed from inside the vehicle, or in a secured area or compartment within the interior of the vehicle. A “secured area” is defined as an area where solid or locking metal partitions, cages, or high-strength shatterproof acrylic can be used to create a secure compartment in the fully enclosed vehicle. The secured area may be comprised on three sides by any part of the body of the vehicle, provided the parts of the vehicle used for the purposes of this section are shatterproof and are not made of glass.

(2) While left unattended, vehicles and trailers shall be locked and secured.

(3) The licensed laboratory shall not leave a vehicle or trailer containing cannabis or cannabis products samples unattended in a residential area or parked overnight in a residential area.

(4) The licensed laboratory shall ensure that any vehicle or trailer transporting cannabis or cannabis products samples has an alarm system.

(5) The licensed laboratory shall ensure that packages or containers holding cannabis or cannabis products samples are neither tampered with nor opened during transport.

(6) The licensed laboratory transporting cannabis or cannabis products samples shall only travel between licensees for whom the laboratory is conducting regulatory compliance testing or quality assurance testing. A laboratory shall not deviate from the travel requirements described in this section, except for necessary rest, fuel, or vehicle repair stops.

Department of Cannabis Control

- (7) The licensed laboratory may transport multiple cannabis or cannabis products samples obtained from multiple licensees at once.
- (8) Vehicles or trailers transporting cannabis or cannabis products samples are subject to inspection by the Department at any licensed premises or during transport at any time.
- (9) No person under the age of 21 years old shall be in a vehicle or trailer transporting cannabis or cannabis products samples.
- (10) Only an employee of the licensed laboratory or security personnel who meets the requirement of section 15045 shall be in a vehicle while transporting cannabis or cannabis products samples.
- (b) Upon request, the licensed laboratory shall provide the following required transport vehicle information to the Department:
- (1) The certificate of ownership or registration card issued by the California Department of Motor Vehicles for each vehicle used to transport cannabis or cannabis products samples;
- (2) The year, make, model, license plate number, and numerical Vehicle Identification Number (VIN) for each vehicle or trailer used to transport cannabis or cannabis products samples; and
- (3) Proof of insurance for each vehicle used to transport cannabis or cannabis products samples.
- (c) All vehicles and trailers used for transportation shall be owned or leased, in accordance with the Vehicle Code, by the licensee. The licensee is not required to be the sole owner or lessor of the vehicle or trailer and all owners and lessors may use the vehicle for non-commercial cannabis activity.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26102, 26104 and 26110, Business and Professions Code.

§15710. Laboratory Receipt of Samples Obtained from a Distributor or Microbusiness.

- (a) The licensed laboratory may accept and analyze a sample from a licensed distributor or licensed microbusiness authorized to engage in distribution for the required testing under section 15714 only if there is an accompanying COC form for the sample.
- (b) The licensed laboratory employee who receives the sample shall date, print, and sign their name on the accompanying sample COC.
- (c) The licensed laboratory shall not analyze a sample obtained from a licensed distributor or licensed microbusiness authorized to engage in distribution, and the batch from which the sample was obtained may not be released for retail sale, if any of the following occur:
- (1) The sample is received at the laboratory without the requisite COC form;
- (2) The tamper-evident material is broken prior to the sample being received at the laboratory; or

Department of Cannabis Control

(3) There is evidence of sample commingling, contamination, degradation, or a related occurrence rendering the sample unusable for analytical testing when the sample is received at the laboratory.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

Article 4. Standard Operating Procedures

§15711. Laboratory Analyses Standard Operating Procedures.

(a) The licensed laboratory shall develop, implement, and maintain written standard operating procedures (SOP) for sample preparation and each required test method. The licensed laboratory shall use and submit to the Department the following forms which are incorporated by reference:

(1) Sample Preparation – Standard Operating Procedures, Form DCC-LIC-022 (Amended 2/22), which is incorporated herein by reference; and

(2) Test Methods – Standard Operating Procedures, Form DCC-LIC-023 (Amended 2/22), which is incorporated herein by reference.

(b) The licensed laboratory shall keep each SOP at the licensed laboratory premises and ensure that each SOP is accessible to laboratory employees during operating hours.

(c) The licensed laboratory shall make each SOP available for inspection by the Department upon request, as well as any other SOPs associated with the licensee's ISO/IEC 17025 certificate of accreditation.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26012, 26100, 26102, 26104 and 26110, Business and Professions Code.

§15712. Test Methods.

(a) The laboratory shall develop, implement, and validate test methods for the analyses of samples as required under this division.

(b) To the extent practicable, the laboratory test methods shall comport with the following guidelines:

(1) US Food and Drug Administration's *Bacterial Analytical Manual*, 2016;

(2) AOAC International's *Official Methods of Analysis for Contaminant Testing of AOAC International*, 20th Edition, 2016; and

(3) United States Pharmacopeia and the National Formulary's *Methods of Analysis for Contaminant Testing*, 2016.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26102, 26104 and 26110, Business and Professions Code.

§15713. Validation of Test Methods.

(a) The licensed laboratory may use a nonstandard, amplified, or modified test method or a method that is designed or developed by the licensed laboratory to validate the methods for analyses of samples.

(b) The licensed laboratory shall follow the guidelines set forth in the US Food and Drug Administration's *Guidelines for the Validation of Analytical Methods for the Detection of Microbial Pathogens in Foods and Feeds*, 2nd Edition, April 2015, incorporated herein by reference, to validate test methods for the microbial analysis of samples. The licensed laboratory shall include and address the criteria listed in the following table when validating test methods for microbial analyses of samples.

Criteria	Requirement
Number of target organisms; inclusivity	5
Number of non-target organisms; exclusivity	5
Number of analyte levels per matrix: Qualitative methods	3 levels: high and low inoculum levels and 1 uninoculated level
Number of analyte levels per matrix: Quantitative methods	4 levels: low, medium and high inoculum levels and 1 uninoculated level
Replicates per food at each level tested	2 or more replicates per level

(c) The licensed laboratory shall follow the guidelines set forth in the US Food and Drug Administration's *Guidelines for the Validation of Chemical Methods for the FDA FVM Program*, 2nd Edition, April 2015, incorporated herein by reference, to validate test methods for chemical analysis of samples.

(1) The licensed laboratory shall include and address the following criteria to validate test methods for chemical analyses of samples:

(A) Accuracy;

(B) Precision;

(C) Linearity and range;

(i) The Coefficient of Determination (r^2) for all calibration curves shall be greater than or equal to 0.99.

(ii) Linear regression or quadratic regression shall only be used for calibration curves. Curves shall not be weighted at all or only weighted at $1/x$.

(iii) LOQ for analytes tested shall be within the range of the calibration curve.

(D) Calibration standard;

(i) For calibration curves, there shall be a minimum of five calibration standards, not including zero; and

(ii) Each calibration curve must include an Initial Calibration Verification (ICV). The percent recovery must be between 70% to 130%.

(E) Sensitivity and selectivity;

(F) Limit of detection and limit of quantitation;

(G) Recovery;

(H) Reproducibility; and

(I) Robustness.

(2) The licensed laboratory shall use certified reference materials to validate the following chemical analyses. The test method used for analysis is valid if the percent recovery of the certified reference material is between 80% to 120% for all required analytes.

(A) Cannabinoids, if available;

(B) Heavy metals;

(C) Microbial impurities;

(D) Mycotoxins;

(E) Residual pesticides;

(F) Residual solvents and processing chemicals; and

(G) Terpenoids, if available.

(d) The licensed laboratory shall generate a validation report for each test method. Each validation report shall include the following information:

(1) Instrument calibration data, if any;

(2) Raw data, including instrument raw data, for each test method, if any;

(3) Cannabis reference materials or certified reference material results;

(4) Data and calculations pertaining to LOD and LOQ determinations, if any;

(5) LQC report, as described in this chapter, for the validation of each method; and

(6) Worksheets, forms, pictures, or copies of laboratory notebook pages and any other documentation necessary to meet the requirements described in subsections (b) and (c).

(7) The supervisory or management laboratory employee shall review, approve, sign, and date the validation report for each test method.

(8) Upon new test methods or altered test methods being used in the laboratory, the new validation report shall be submitted to the Department within 5 business days, accompanied by the Licensee Notification and Request Form, Notifications and Requests Regarding Testing Laboratories, DCC-LIC-029 (New 2/22), which is incorporated herein by reference.

Article 5. Laboratory Testing and Reporting

§15714. Required Testing.

(a) All sample increments collected must be homogenized prior to sample analyses, notwithstanding foreign material testing.

(b) The licensed laboratory shall test each representative sample for the following:

- (1) Cannabinoids;
- (2) Foreign material;
- (3) Heavy metals;
- (4) Microbial impurities;
- (5) Mycotoxins;
- (6) Moisture content and water activity;
- (7) Residual pesticides;
- (8) Residual solvents and processing chemicals; and
- (9) If applicable, terpenoids.

(c) The licensed laboratory shall report the results of each analysis performed by the laboratory on the certificate of analysis.

(d) The licensed laboratory that obtained the representative sample shall complete all required testing for each representative sample for regulatory compliance testing.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15717. Moisture Content and Water Activity Testing.

(a) The licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of dried flower to determine the level of water activity and the percentage of moisture content.

(1) The dried flower sample, including pre-rolls, shall be deemed to have passed water activity testing if the water activity does not exceed 0.65 Aw. The laboratory shall report the result of the water activity test on the certificate of analysis (COA) and indicate “pass” or “fail” on the COA.

(2) The licensed laboratory shall report the result of the moisture content test on the COA as a percentage.

(b) The licensed laboratory shall analyze at least 0.5 grams of the representative sample of solid edible cannabis products to determine the level of water activity. A solid edible cannabis product shall be deemed to have passed water activity testing if the water activity does not exceed 0.85 Aw. The laboratory shall report the result of the water activity test on the COA and indicate “pass” or “fail” on the COA.

(c) If the sample fails water activity testing, the batch from which the sample was collected fails water activity testing and shall not be released for retail sale.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15718. Residual Solvents and Processing Chemicals Testing.

(a) The licensed laboratory shall analyze at minimum 0.25 grams of the representative sample of cannabis product or pre-rolls to determine whether residual solvents or processing chemicals are present.

(b) The licensed laboratory shall report the result of the residual solvents and processing chemicals testing in unit micrograms per gram ($\mu\text{g/g}$) on the COA and indicate “pass” or “fail” on the COA.

(c) The sample shall be deemed to have passed the residual solvents and processing chemicals testing if the presence of any residual solvent or processing chemical listed in the following tables in Category I and Category II does not exceed the indicated action levels.

(1) Notwithstanding subsection (c), the limit for ethanol does not apply to cannabis products that are tinctures.

(2) Notwithstanding subsection (c), the limit for ethanol or isopropyl alcohol does not apply to cannabis products that are topical cannabis products.

§15719. Residual Pesticides Testing.

(a) The licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of cannabis and cannabis products to determine whether residual pesticides are present.

(b) The licensed laboratory shall report whether any Category I Residual Pesticides are detected above the limit of detection (LOD) and shall report the result of the Category II Residual Pesticides testing in unit micrograms per gram (µg/g) on the COA. The laboratory shall indicate “pass” or “fail” on the COA.

(c) The licensed laboratory shall establish a limit of quantitation (LOQ) of 0.10 µg/g or lower for all Category I Residual Pesticides.

(d) The sample shall be deemed to have passed the residual pesticides testing if both of the following conditions are met:

Department of Cannabis Control

- (1) The presence of any residual pesticide listed in the following tables in Category I are not detected, and
- (2) The presence of any residual pesticide listed in the following tables in Category II does not exceed the indicated action levels.

§15720. Microbial Impurities Testing.

(a) The licensed laboratory shall analyze at minimum 1.0 grams of the representative sample of cannabis or cannabis products to determine whether microbial impurities are present.

(b) The licensed laboratory shall report the result of the microbial impurities testing by indicating “pass” or “fail” on the COA.

(c) The sample of inhalable cannabis and cannabis products shall be deemed to have passed the microbial impurities testing if all of the following conditions are met:

- (1) Shiga toxin-producing Escherichia coli is not detected in 1 gram;
- (2) Salmonella spp. is not detected in 1 gram; and

Department of Cannabis Control

(3) Pathogenic *Aspergillus* species *A. fumigatus*, *A. flavus*, *A. niger*, and *A. terreus* are not detected in 1 gram.

(d) The sample of non-inhalable cannabis and cannabis products shall be deemed to have passed the microbial impurities testing if both the following conditions are met:

(1) Shiga toxin-producing *Escherichia coli* is not detected in 1 gram, and

(2) *Salmonella* spp. is not detected in 1 gram.

(e) If the sample fails microbial impurities testing, the batch from which the sample was collected fails microbial impurities testing and shall not be released for retail sale.

§15721. Mycotoxin Testing.

(a) The licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of cannabis and cannabis products to determine whether mycotoxins are present.

(b) The licensed laboratory shall report the result of the mycotoxins testing in unit micrograms per kilograms ($\mu\text{g}/\text{kg}$) on the COA and indicate “pass” or “fail” on the COA.

(c) The sample shall be deemed to have passed mycotoxin testing if both the following conditions are met:

(1) Total of aflatoxin B1, B2, G1, and G2 does not exceed 20 $\mu\text{g}/\text{kg}$ of substance, and

(2) Ochratoxin A does not exceed 20 $\mu\text{g}/\text{kg}$ of substance.

(d) If the sample fails mycotoxin testing, the batch from which the sample was collected fails mycotoxin testing and shall not be released for retail sale.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15722. Foreign Material Testing.

(a) The licensed laboratory shall analyze the representative sample of cannabis and cannabis products to determine whether foreign material is present.

(b) The licensed laboratory shall report the result of the foreign material test by indicating “pass” or “fail” on the COA.

(c) The licensed laboratory shall perform foreign material testing on the total representative sample prior to sample homogenization.

(d) When the licensed laboratory performs foreign material testing, at minimum, the laboratory shall do all of the following:

(1) Examine both the exterior and interior of the dried flower sample, and

(2) Examine the exterior of the cannabis product sample.

Department of Cannabis Control

(e) The sample shall be deemed to have passed the foreign material testing if the presence of foreign material does not exceed:

- (1) 1/4 of the total sample area covered by sand, soil, cinders, or dirt;
- (2) 1/4 of the total sample area covered by mold;
- (3) 1 insect fragment, 1 hair, or 1 count mammalian excreta per 3.0 grams; or
- (4) 1/4 of the total sample area covered by an imbedded foreign material.

(f) If the sample fails foreign material testing, the batch from which the sample was collected fails foreign material testing and shall not be released for retail sale.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15723. Heavy Metals Testing.

(a) The licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of cannabis and cannabis products to determine whether heavy metals are present.

(b) The licensed laboratory shall report the result of the heavy metals test in unit micrograms per gram ($\mu\text{g/g}$) on the COA and indicate “pass” or “fail” on the COA.

(c) The sample shall be deemed to have passed the heavy metals testing if the presence of heavy metals does not exceed the action levels listed in the following table.

Heavy Metal	Action Level ($\mu\text{g/g}$) for Inhalable Cannabis and Cannabis Products	Action Level ($\mu\text{g/g}$) for Non-Inhalable Cannabis and Cannabis Products
Cadmium	0.2	0.5
Lead	0.5	0.5
Arsenic	0.2	1.5
Mercury	0.1	3.0

(d) If the sample fails heavy metals testing, the batch from which the sample was collected fails heavy metals testing and shall not be released for retail sale.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15724. Cannabinoid Testing.

(a) The licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of cannabis and cannabis products to determine the cannabinoid profile such as THC; THCA; CBD; CBDA; CBG; and CBN.

Department of Cannabis Control

(b) The licensed laboratory shall establish a limit of quantitation (LOQ) of 1.0 mg/g or lower for all cannabinoids analyzed and reported.

(c) The licensed laboratory shall report the result of the cannabinoid testing on the COA, including, at minimum:

(1) A percentage for THC, THCA, CBD, and CBDA;

(A) When the licensed laboratory reports the result of the cannabinoid testing for harvest batch representative samples on the COA in dry-weight percent, they shall use the following equation:

$$\text{Dry-weight percent cannabinoid} = \frac{\text{wet-weight percent cannabinoid}}{(1 - \text{percent moisture} / 100)}$$

(2) A percentage for Total THC and Total CBD, if applicable;

(3) Milligrams per gram (mg/g) if by dry-weight or milligrams per milliliter (mg/mL) if by volume for THC, THCA, CBD, and CBDA.

(4) Milligrams per gram (mg/g) if by dry-weight or milligrams per milliliter (mg/mL) if by volume for Total THC and Total CBD, if applicable;

(A) The licensed laboratory shall calculate the total cannabinoid concentration as follows:

(i) For concentration expressed in weight:

$$\text{Total cannabinoid concentration (mg/g)} = (\text{cannabinoid acid form concentration (mg/g)} \times 0.877) + \text{cannabinoid concentration (mg/g)}$$

(ii) For concentration expressed in volume:

$$\text{Total cannabinoid concentration (mg/mL)} = (\text{cannabinoid acid form concentration (mg/mL)} \times 0.877) + \text{cannabinoid concentration (mg/mL)}$$

(5) Milligrams per package for THC and CBD;

(6) Milligrams per package for Total THC and Total CBD, if applicable;

(7) Milligrams per serving for THC and CBD, if any;

(8) Milligrams per serving for Total THC and Total CBD, if any and if applicable; and

(9) The licensed laboratory shall report the results of all other cannabinoids analyzed on the COA both as a percentage and in either milligrams per gram (mg/g) if by weight or milligrams per milliliter (mg/mL) if by volume.

(d) The sample shall be deemed to have passed the cannabinoid testing if the amount of THC does not exceed the limits established in section 17304.

(e) The licensed laboratory shall report the test results and indicate an overall “pass” or “fail” for the cannabinoid testing on the COA.

(f) Any cannabinoids found to be less than the LOQ shall be reported on the COA as “<1 mg/g” if by dry-weight or “<1 mg/mL” if by volume.

(g) If the sample fails cannabinoid testing, the batch from which the sample was collected fails cannabinoid testing and shall not be released for retail sale.

Department of Cannabis Control

(h) For purposes of this division, any one cannabinoid, Total THC, and/or Total CBD claimed to be present on a label shall not be considered inaccurate if the difference in percentage on the certificate of analysis is plus or minus 10.0%.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15725. Terpenoid Testing.

(a) If requested, the licensed laboratory shall analyze at minimum 0.5 grams of the representative sample of cannabis or cannabis products to determine the terpenoid profile of the sample.

(b) The licensed laboratory shall report the result of the terpenoid testing on the COA both as a percentage and in either milligrams per gram (mg/g) if by weight or milligrams per milliliter (mg/mL) if by volume.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15726. Certificate of Analysis (COA).

(a) The licensed laboratory shall generate a COA for each representative sample that the laboratory analyzes.

(b) The licensed laboratory shall ensure that the COA contains the results of all required analyses performed for the representative sample.

(c) The licensed laboratory shall, within 1 business day of completing all analyses of a sample, both upload the COA into the track and trace system and simultaneously provide a copy of the COA to the Department via email at testinglabs@cannabis.ca.gov with a file name of "METRC UID Number and Test Sample ID" and "Passed" or "Failed" in the subject heading of the email.

(d) The licensed laboratory shall not release to any person any cumulative or individual test results prior to completing all analyses and providing the COA to the Department.

(e) The COA shall contain, at minimum, the following information:

(1) The term "Regulatory Compliance Testing" in font no smaller than 14-point, which shall appear in the upper-right corner of each page of the COA. No text or images shall appear above the term "Regulatory Compliance Testing" on any page of the COA.

(2) Laboratory's name, licensed premises address, and license number;

(3) Licensed distributor's or licensed microbusiness authorized to engage in distribution's name, licensed premises address, and license number;

(4) Licensed cultivator's, licensed manufacturer's, or licensed microbusiness' name, licensed premises address, and license number;

(5) Batch number of the batch from which the sample was obtained. For cannabis and cannabis products that are already packaged at the time of sampling, the labeled batch

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 139 of 214

number on the packaged cannabis and cannabis products shall match the batch number on the COA;

(6) Sample identifying information, including matrix type and unique sample identifiers;

(7) Sample history, including the date collected, the date received by the laboratory, and the date(s) of sample analyses and corresponding testing results;

(8) A picture of the sample of cannabis and cannabis products. If the sample is pre-packaged, the picture must include an unobstructed image of the packaging;

(9) For dried flower samples, the total weight of the batch, in grams or pounds, and the total weight, of the representative sample in grams;

(10) For cannabis product or pre-rolls samples, the total unit count of both the representative sample and the total batch size;

(11) Measured density of the cannabis and cannabis products;

(12) The analytical methods, analytical instrumentation used, and corresponding Limits of Detection (LOD) and Limits of Quantitation (LOQ);

(13) An attestation on the COA from the laboratory supervisory or management employee that all LQC samples required by section 15730 were performed and met the acceptance criteria; and

(14) Analytes detected during the analyses of the sample that are unknown, unidentified, or injurious to human health if consumed, if any.

(f) The licensed laboratory shall report test results for each representative sample on the COA as follows:

(1) Indicate an overall “pass” or “fail” for the entire batch;

(2) When reporting qualitative results for each analyte, the licensed laboratory shall indicate “pass” or “fail”;

(3) When reporting quantitative results for each analyte, the licensed laboratory shall use the appropriate units of measurement as required under this chapter;

(4) When reporting results for each test method, the licensed laboratory shall indicate “pass” or “fail”;

(5) When reporting results for any analytes that were detected below the analytical method LOQ, indicate “<LOQ”, notwithstanding cannabinoid results;

(6) When reporting results for any analytes that were not detected or detected below the LOD, indicate “ND”; and

(7) Indicate “NT” for any test that the licensed laboratory did not perform.

(g) The licensed laboratory supervisory or management employee shall validate the accuracy of the information contained on the COA and sign and date the COA.

(h) The laboratory supervisory or management employee may request to amend a COA to correct minor errors. Requests must be emailed to the Department at testinglabs@cannabis.ca.gov for approval prior to making any corrections. Errors in results required to be reported pursuant to subsection (f) are not minor errors.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

Article 6. Post Testing Procedures

§15727. Remediation and Retesting.

(a) A cannabis or cannabis product batch that has been additionally processed after failed regulatory compliance testing pursuant to section 17305 must be retested and successfully pass all the analyses required under this chapter.

(b) A cannabis or cannabis product batch may only be remediated twice. If the batch fails after the second remediation attempt and the second retesting, the entire batch shall be destroyed.

(c) Within one business day of completing the required analyses of a representative sample obtained from a remediated cannabis or cannabis product batch, the laboratory shall upload the COA information into the track and trace system, or if the licensee does not yet have access to the track and trace system, it shall be emailed to the Department.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15728. Post Testing Sample Retention.

(a) The licensed laboratory shall retain the reserve sample, consisting of any portion of a sample that was not used in the testing process. The reserve sample shall be kept, at minimum, for 45 business days after the analyses, after which time it may be destroyed and denatured to the point the material is rendered unrecognizable and unusable.

(b) The licensed laboratory shall securely store the reserve sample in a manner that prohibits sample degradation, contamination, and tampering.

(c) The licensed laboratory shall provide the reserve sample to the Department upon request.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

Article 7. Laboratory Quality Assurance and Quality Control

§15729. Laboratory Quality Assurance (LQA) Program.

(a) The licensed laboratory shall develop and implement a LQA program to assure the reliability and validity of the analytical data produced by the laboratory. The LQA program shall, at minimum, include a written LQA manual that addresses the following:

Department of Cannabis Control

- (1) Quality control procedures;
- (2) Laboratory organization and employee training and responsibilities, including good laboratory practice (GLP);
- (3) LQA objectives for measurement data;
- (4) Traceability of data and analytical results;
- (5) Instrument maintenance, calibration procedures, and frequency;
- (6) Performance and system audits;
- (7) Corrective action procedures;
- (8) Steps to change processes when necessary;
- (9) Record retention and document control;
- (10) Test procedure standardization; and
- (11) Method validation.

(b) The supervisory or management laboratory employee shall annually review, amend if necessary, and approve the LQA program and manual both when they are created and when there is a change in methods, laboratory equipment, or the supervisory or management laboratory employee.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15730. Laboratory Quality Control (LQC) Samples.

The licensed laboratory shall use LQC samples and adhere to good laboratory practice (GLP) in the performance of each analysis according to the following specifications.

- (a) The licensed laboratory shall analyze LQC samples in the same manner as the laboratory analyzes cannabis and cannabis products samples.
- (b) The licensed laboratory shall use at least one negative control, one positive control, and one laboratory replicate sample in each analytical batch for each target organism during microbial testing. If one of the controls produces unexpected results, the samples shall be re-prepped and reanalyzed with a new set of controls.
- (c) If the result of the microbial analyses is outside the specified acceptance criteria in the following table, the licensed laboratory shall determine the cause and take steps to remedy the problem until the result is within the specified acceptance criteria.

Laboratory Quality Control Sample	Acceptance Criteria	Corrective Action
Positive control	Produces expected result, positive result	Re-prep and reanalyze the entire analytical batch, once. If problem persists, locate and remedy the source of unexpected result, then re-prep samples and reanalyze with a new set of controls.
Negative control	Produces expected result, negative result	Re-prep and reanalyze the entire analytical batch, once. If problem persists, locate and remedy the source of unexpected result, then re-prep samples and reanalyze with a new set of controls.
Laboratory replicate sample	Sample results must concur	Reanalyze sample and associated replicate sample once. If problem persists, re-prep samples and reanalyze.

(d) The licensed laboratory shall prepare and analyze at least one of each of the following LQC samples for each analytical batch:

- (1) Method blank;
- (2) Laboratory control sample (LCS); and
- (3) Laboratory replicate sample or matrix spike sample.

(e) The laboratory shall analyze, at minimum, a continuing calibration verification (CCV) sample at the beginning of each analytical sequence and every 10 samples thereafter.

(f) If the result of the chemical analyses is outside the specified acceptance criteria in the following table, the laboratory shall determine the cause and take steps to remedy the problem until the result is within the specified acceptance criteria.

Laboratory Quality Control Sample	Acceptance Criteria	Corrective Action
Method Blank sample	Not to exceed LOQ	Reanalyze entire analytical batch once. If method blank is still greater than the LOQ for any analyte, locate the source of contamination then re-prep samples and reanalyze.
LCS	Percent recovery 70% to 130%	Reanalyze the entire analytical batch, once. If problem persists, re-prep samples and reanalyze or re-run the initial calibration curve.
Laboratory replicate sample	RPD \leq 30%	Reanalyze sample and associated replicate sample once. If problem persists, re-prep samples and reanalyze.
Matrix spike sample	Percent recovery between 70% to 130%	Reanalyze sample and associated matrix spike sample once. If problem persists, re-prep samples and reanalyze.

Laboratory Quality Control Sample	Acceptance Criteria	Corrective Action
CCV	Percent recovery between 70% to 130%	Reanalyze all samples that followed the last CCV that met the acceptance criteria. If CCV still fails, re-run the initial calibration curve and all samples in the analytical sequence.

(g) If any analyte is detected above any action level, as described in this chapter, the sample shall be re-prepped and reanalyzed in replicate within another analytical batch.

(1) For quantitative analyses, the re-prepped sample and its associated replicate must meet the acceptance criteria of RPD \leq 30%.

(2) For qualitative analyses, the re-prepped sample and its associated replicate results must concur.

(h) If any LQC sample produces a result outside of the acceptance criteria, the laboratory cannot report the result and the entire batch cannot be released for retail sale. The laboratory shall determine the cause and take steps to remedy the problem until the result is within the specified acceptance criteria.

(i) If the licensed laboratory determines that the result is a false-positive or a false-negative, the Department may ask for the laboratory to re-sample or retest.

(j) The licensed laboratory shall compile and generate one LQC sample report for each analytical batch that includes LQC acceptance criteria, measurements, analysis date, and matrix.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104 and 26110, Business and Professions Code.

§15731. Limits of Detection (LOD) and Limits of Quantitation (LOQ) for Quantitative Analyses.

(a) The licensed laboratory shall calculate the LOD for chemical method analyses according to any of the following methods:

(1) Signal-to-noise ratio of between 3:1 and 2:1;

(2) Standard deviation of the response and the slope of calibration curve using a minimum of 7 spiked blank samples calculated as follows; $LOD = (3.3 \times \text{standard deviation of the response}) / \text{slope of the calibration curve}$; or

(3) A method published by the United States Food and Drug Administration (USFDA) or the United States Environmental Protection Agency (USEPA).

(b) The licensed laboratory shall calculate the LOQ for chemical method analyses according to any of the following methods:

(1) Signal-to-noise ratio of 10:1, at minimum;

(2) Standard deviation of the response and the slope using a minimum of 7 spiked blank samples calculated as follows:

Department of Cannabis Control

LOQ = (10 x standard deviation of the response) / slope of the calibration curve; or

(3) A method published by the USFDA or the USEPA.

§15732. Data Package.

(a) The licensed laboratory shall compile and generate one data package for each representative sample that the laboratory analyzes.

(b) The licensed laboratory shall create a data package and use the Data Package Cover Page and Checklist Form, DCC-LIC-024 (Amended 2/22), which is incorporated herein by reference. The data package and form DCC-LIC-024 (Amended 2/22) shall be provided to the Department immediately upon request.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100, 26104, 26110 and 26160, Business and Professions Code.

§15733. Required Proficiency Testing.

(a) The licensed laboratory shall participate in a proficiency testing program provided by an organization that operates in conformance with the requirements of ISO/IEC 17043, at least once every six months.

(b) The licensed laboratory shall annually, successfully participate in a proficiency testing program for each of the following test methods:

- (1) Cannabinoids;
- (2) Heavy metals;
- (3) Microbial impurities;
- (4) Mycotoxins;
- (5) Residual pesticides;
- (6) Residual solvents and processing chemicals; and
- (7) If tested, terpenoids.

(c) The licensed laboratory shall report all analytes available by the proficiency testing program provider and for which the licensee is required to test as required under this chapter.

(d) The licensed laboratory shall participate in the proficiency testing program by following the laboratory's existing SOPs for testing cannabis and cannabis products.

(e) The licensed laboratory shall rotate the proficiency testing program among the laboratory employees who perform the test methods.

(f) Laboratory employees who participate in a proficiency testing program shall sign the corresponding analytical reports or attestation statements to certify that the proficiency testing program was conducted in the same manner as the laboratory tests of cannabis

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 145 of 214

and cannabis products.

(g) A supervisory or management laboratory employee shall review and verify the accuracy of results reported for all proficiency testing program samples analyzed.

(h) The licensed laboratory shall request the proficiency testing program provider to send results concurrently to the Department, if available, or the laboratory shall provide the proficiency testing program results to the Department within 3 business days after the laboratory receives notification of their test results from the proficiency testing program provider. Any results shall be reported by submitting the Licensee Notification and Request Form, Notifications and Requests Regarding Testing Laboratories, DCC-LIC-029 (New 2/22), which is incorporated herein by reference.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100 and 26110, Business and Professions Code.

§15734. Satisfactory and Unsatisfactory Proficiency Test Performance.

(a) The licensed laboratory shall be deemed to have successfully participated in a proficiency testing program for an analyte tested in a specific method if the test results demonstrate a “satisfactory” or otherwise proficient performance determination by the proficiency testing program provider.

(b) The licensed laboratory may not report test results for analytes that are deemed by the proficiency testing program provider as “unacceptable,” “questionable,” “unsatisfactory”, or otherwise deficient.

(c) The licensed laboratory may resume reporting test results for analytes that were deemed “unacceptable,” “questionable,” “unsatisfactory”, or otherwise deficient, only if both of the following conditions are met:

(1) The licensed laboratory satisfactorily remedies the cause of the failure for each analyte; and

(2) The licensed laboratory submits, to the Department, a written corrective action report demonstrating how the laboratory has fixed the cause of the failure.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26100 and 26110, Business and Professions Code.

§15735. Laboratory Audits.

(a) The licensed laboratory shall conduct an internal audit at least once per year or in accordance with the ISO/IEC 17025 accrediting body’s requirement, whichever is more frequent.

(b) The internal audit must include all of the components required by the ISO/IEC 17025 internal-audit standards.

(c) Within 3 business days of completing the internal audit, the licensed laboratory shall submit the results of the internal audit to the Department.

Department of Cannabis Control

(d) Within 3 business days of receiving the accrediting body onsite audit findings, the licensed laboratory shall submit the results to the Department.

(e) The licensed laboratory shall submit any audit results to the Department, accompanied by the Licensee Notification and Request Form, Notifications and Requests Regarding Testing Laboratories, DCC-LIC-029 (New 2/22), which is incorporated herein by reference.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26100 and 26104, Business and Professions Code.

Article 8. Laboratory Employee Qualifications

§15736. General Laboratory Employee Qualifications.

(a) The licensed laboratory may only employ persons who are at least 21 years of age.

(b) The licensed laboratory shall develop and implement an employee training program to ensure competency of laboratory employees for their assigned functions.

(c) The licensed laboratory shall ensure and document that each laboratory employee meets the employee qualifications.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26102 and 26104, Business and Professions Code.

§15737. Supervisor or Management Responsibilities and Qualifications.

(a) The licensed laboratory shall employ a supervisor or management employee who must be responsible for:

(1) Overseeing and directing the scientific methods of the licensed laboratory;

(2) Ensuring that the licensed laboratory achieves and maintains a laboratory quality assurance program as required by section 15729; and

(3) Providing ongoing and appropriate training to laboratory employees.

(b) To be considered qualified, the supervisor or management employee must have at minimum:

(1) A doctoral degree in biological, chemical, agricultural, environmental, or related sciences from an accredited college or university;

(2) A master's degree in biological, chemical, agricultural, environmental, or related sciences from an accredited college or university, plus at least 2 years of full-time practical experience;

(3) A bachelor's degree in biological, chemical, agricultural, environmental, or related sciences from an accredited college or university, plus at least 4 years of full-time practical experience; or

(4) A bachelor's degree in any field from an accredited college or university, plus at least 8 years of full-time practical experience, 4 years of which must have been in a

supervisory or management position.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26102 and 26104, Business and Professions Code.

§15738. Analyst and Sampler Qualifications.

(a) The licensed laboratory shall employ an analyst who, at minimum, must have either:

(1) Earned a master's degree or a bachelor's degree in biological, chemical, agricultural, environmental, or related sciences from an accredited college or university; or

(2) Completed 2 years of college or university education that included coursework in biological, chemical, agricultural, environmental, or related sciences from an accredited college or university, plus at least 3 years of full-time practical experience.

(b) The licensed laboratory shall employ a sampler who, at minimum, must have either:

(1) Completed 2 years college or university education; or

(2) Earned a High School Diploma or passed a General Educational Development or High School Equivalency exam, plus at least 1 year of full-time practical experience.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26102 and 26104, Business and Professions Code.

Chapter 7. Cultivators

Article 1. General Cultivation Requirements

§16201. Cultivation License Types.

License types include:

(a) Specialty Cottage:

(1) "Specialty Cottage Outdoor" is an outdoor cultivation site with up to 25 mature plants or 2,500 square feet or less of total canopy.

(2) "Specialty Cottage Indoor" is an indoor cultivation site with 500 square feet or less of total canopy.

(3) "Specialty Cottage Mixed-Light Tier 1 and 2" is a mixed-light cultivation site with 2,500 square feet or less of total canopy.

(b) Specialty:

(1) "Specialty Outdoor" is an outdoor cultivation site with less than or equal to 5,000 square feet of total canopy, or up to 50 mature plants on noncontiguous plots.

(2) "Specialty Indoor" is an indoor cultivation site with between 501 and 5,000 square feet of total canopy.

(3) "Specialty Mixed-Light Tier 1 and 2" is a mixed-light cultivation site with between 2,501 and 5,000 square feet of total canopy.

Department of Cannabis Control

(c) Small:

(1) “Small Outdoor” is an outdoor cultivation site with between 5,001 and 10,000 square feet of total canopy.

(2) “Small Indoor” is an indoor cultivation site with between 5,001 and 10,000 square feet of total canopy.

(3) “Small Mixed-Light Tier 1 and 2” is a mixed-light cultivation site with between 5,001 and 10,000 square feet of total canopy.

(d) Medium:

(1) “Medium Outdoor” is an outdoor cultivation site with between 10,001 square feet and one acre of total canopy.

(2) “Medium Indoor” is an indoor cultivation site with between 10,001 and 22,000 square feet of total canopy.

(3) “Medium Mixed-Light Tier 1 and 2” is a mixed-light cultivation site with between 10,001 and 22,000 square feet of total canopy.

(e) “Nursery” is a cultivation site that conducts only cultivation of clones, immature plants, seeds, and other agricultural products used specifically for the propagation of cultivation of cannabis.

(f) “Processor” is a cultivation site that conducts only trimming, drying, curing, grading, packaging, and labeling of cannabis and nonmanufactured cannabis products.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26013, 26050 and 26061, Business and Professions Code.

§16202. General Cultivation Requirements.

(a) Licensees are prohibited from transferring any commercially cultivated cannabis or nonmanufactured cannabis products from their licensed premises. All transfers of cannabis and nonmanufactured cannabis product from a licensed cultivation premises must be conducted by a distributor licensed by the Department.

(b) Artificial lighting is permissible only to maintain immature plants outside the canopy area.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26010, 26012, 26013, 26050 and 26053, Business and Professions Code.

§16209. Medium Cultivation License Limits.

A person or owner shall be limited to one (1) Medium Outdoor, or one (1) Medium Indoor, or one (1) Medium Mixed-Light A-License or M-License. This section shall remain in effect until January 1, 2023.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26013, 26050 and 26061, Business and Professions Code.

Article 2. Cultivation Site Requirements

§16300. Cultivation Requirements.

(a) Cannabis plants maintained outside of the designated canopy area(s) for specialty cottage, specialty, small, and medium licenses are prohibited from flowering. Should a plant outside of the canopy area(s) begin flowering, a plant tag shall be applied, the plant shall be moved to a designated canopy area and reported in the track and trace system without delay.

(b) All plants or portions of a plant used for seed production shall be tagged with a plant tag pursuant to section 15048.4.

(c) A licensee propagating immature plants for distribution or seed for distribution to another licensee shall obtain a nursery license.

(d) Licensees shall process their harvested cannabis only in area(s) designated for processing in their cultivation plan, or transfer their harvested cannabis to a licensed processor, manufacturer, or distributor via a licensed distributor.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060 and 26120, Business and Professions Code.

§16301. Seed Production Requirements for Nursery Licensees.

Nursery licensees producing seed for distribution shall tag all mature plants with a plant tag pursuant to section 15048.4(b). All products, except seed, derived from these plants are prohibited from entering the commercial distribution chain.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060 and 26067, Business and Professions Code.

§16302. Research and Development Requirements for Nursery Licensees.

Nursery licensees may maintain a research and development area, as identified in their cultivation plan, for the cultivation of mature plants. All mature plants shall be tagged with a plant tag pursuant to section 15048.4. All cannabis and cannabis products derived from these plants are prohibited from entering the commercial distribution chain or being transferred off the licensed premises.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060 and 26067, Business and Professions Code.

§16303. Cultivation Requirements for Processor Licensees.

(a) Processor licensees shall comply with all of the following requirements:

- (1) All aggregation of product shall adhere to track and trace requirements.
- (2) Licensees may produce nonmanufactured cannabis products without a manufacturing license.
- (3) Cultivation of cannabis plants is prohibited at a licensed processor premises.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060, 26067, 26069 and 26120, Business and Professions Code.

§16304. General Environmental Protection Measures.

(a) All licensed cultivators shall comply with all of the following environmental protection measures:

- (1) Principles, guidelines, and requirements adopted pursuant to section 13149 of the Water Code and implemented by the State Water Resources Control Board, Regional Water Quality Control Boards, or California Department of Fish and Wildlife;
- (2) Any conditions of licensure included pursuant to section 26060.1(b)(1) of the Business and Professions Code;
- (3) Requirements of section 7050.5(b) of the Health and Safety Code if human remains are discovered during cultivation activities;
- (4) Requirements for generators pursuant to section 16306;
- (5) Requirements for pesticides pursuant to section 16307;
- (6) Outdoor lights used for safety or security purposes are shielded and downward facing; and
- (7) Lights used for indoor or mixed-light cultivation are shielded from sunset to sunrise to reduce nighttime glare.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060, 26066 and 26201, Business and Professions Code.

§16305. Renewable Energy Requirements.

(a) Beginning January 1, 2023, all holders of indoor, tier 2 mixed-light license types of any size, and all holders of nursery licenses using indoor or tier 2 mixed-light techniques shall ensure that electrical power used for commercial cannabis activity meets the average electricity greenhouse gas emissions intensity required by their local utility provider pursuant to the California Renewables Portfolio Standard Program in division 1, part 1, chapter 2.3, article 16 (commencing with section 399.11) of the Public Utilities Code.

(b) If a licensed cultivator's average weighted greenhouse gas emission intensity, as calculated and reported upon license renewal pursuant to section 15020, is greater than

the local utility provider's greenhouse gas emission intensity, the licensee shall obtain carbon offsets to cover the excess in carbon emissions from the previous annual licensed period. The carbon offsets shall be purchased from one or more of the following recognized voluntary carbon registries:

- (1) American Carbon Registry;
- (2) Climate Action Reserve; or
- (3) Verified Carbon Standard.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26060, 26066 and 26201, Business and Professions Code.

§16306. Generator Requirements.

(a) For the purposes of this section, “generator” means a stationary or portable compression ignition engine, also known as a diesel engine, as defined in title 17, California Code of Regulations, section 93115.4.

(b) Licensed cultivators using generators rated at fifty (50) horsepower and greater shall demonstrate compliance with the Airborne Toxic Control Measure for stationary or portable engines, as applicable, established in title 17, California Code of Regulations, sections 93115-93116.5. Compliance shall be demonstrated by providing a copy of one of the following to the Department upon request:

- (1) For portable engines, a Portable Equipment Registration Certificate provided by the California Air Resources Board; or
- (2) For portable or stationary engines, a Permit to Operate or other proof of engine registration, obtained from the Local Air District with jurisdiction over the licensed premises.

(c) Licensed cultivators using generators rated below fifty (50) horsepower shall comply with the following by 2023:

(1) Either subsection (1)(A) or (1)(B):

(A) Meet the “emergency” definition for portable engines in title 17, California Code of Regulations, section 93116.2(a)(12), or the “emergency use” definition for stationary engines in title 17, California Code of Regulations, section 93115.4(a)(30); or

(B) Operate eighty (80) hours or less in a calendar year; and

(2) Either subsection (2)(A) or (2)(B):

(A) Meet Tier 3 with Level 3 diesel particulate filter requirements in title 13, California Code of Regulations, sections 2700-2711; or

(B) Meet Tier 4 requirements, or current engine requirements if more stringent, in title 40, Code of Federal Regulations, chapter I, subchapter U, part 1039, subpart B, section 1039.101.

(d) All generators used by licensed cultivators shall be equipped with non-resettable hour-meters. If a generator does not come equipped with a non-resettable hour-meter, an aftermarket non-resettable hour-meter shall be installed.

§16307. Pesticide Use Requirements.

(a) Licensed cultivators shall comply with all applicable pesticide statutes and regulations enforced by the Department of Pesticide Regulation.

(b) For all pesticides that are exempt from registration requirements, licensed cultivators shall comply with all applicable pesticide statutes and regulations enforced by the Department of Pesticide Regulation and the following pesticide application and storage protocols:

- (1) Comply with all pesticide label directions;
- (2) Store chemicals in a secure building or shed to prevent access by wildlife;
- (3) Contain any chemical leaks and immediately clean up any spills;
- (4) Apply the minimum amount of product necessary to control the target pest;
- (5) Prevent offsite drift;
- (6) Do not apply pesticides when pollinators are present;
- (7) Do not allow drift to flowering plants attractive to pollinators;
- (8) Do not spray directly to surface water or allow pesticide product to drift to surface water. Spray only when wind is blowing away from surface water bodies;
- (9) Do not apply pesticides when they may reach surface water or groundwater; and
- (10) Only use properly labeled pesticides. If no label is available, consult the Department of Pesticide Regulation.

§16308. Canopy Requirements.

(a) Licensed cultivators shall comply with the following requirements for canopy areas:

(1) Each canopy shall be marked with clearly identifiable physical boundaries around all areas that will contain mature plants. Physical boundaries include, but are not limited to, interior walls, shelves, greenhouse walls, hoop house walls, garden benches, hedgerows, fencing, garden beds, garden plots, or stakes delineating the perimeter.

(2) Each canopy shall be of sufficient size to contain the mature plants in their entirety at any point in time. No portion of the plant is permitted to hang over an established canopy boundary.

Department of Cannabis Control

(b) Seeds, immature plants, or propagated material received from a licensed nursery as trade samples shall be cultivated in a canopy area dedicated to trade samples that meets the requirements of subsection (a). Canopy areas used to cultivate trade samples received from a licensed nursery shall be included in the licensed cultivator's cultivation plan and shall be included in the aggregate square footage of the canopy areas.

(c) Licensed cultivators may utilize canopy areas to produce seeds for their own use.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26013 and 26060, Business and Professions Code.

§16309. Cultivation Plan Requirements.

(a) Licensed cultivators shall establish and maintain a cultivation plan that includes all of the following:

- (1) A premises diagram drafted in accordance with section 15006.
- (2) A cannabis waste management plan developed in accordance with section 17223.
- (3) A pest management plan developed in accordance with section 16310.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26051.5 and 26060, Business and Professions Code.

§16310. Pest Management Plan.

(a) The licensed cultivator shall develop a pest management plan that includes:

- (1) The product name and active ingredient(s) of all pesticides to be applied to cannabis; and
- (2) Any integrated pest management protocols, including chemical, biological, and cultural methods, that will be used to prevent and control pests on the cultivation site.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26013, 26051.5 and 26060, Business and Professions Code.

§16311. Supplemental Water Source Information.

The following information shall be provided for each water source identified by the applicant:

(a) Retail water supply sources:

(1) If the water source is a retail water supplier, as defined in section 13575 of the Water Code, such as a municipal provider, provide the following:

(A) Name of the retail water supplier; and

(B) A copy of the most recent water service bill or written documentation from the water supplier stating that service will be provided at the premises address.

(2) If the water source is a small retail water supplier, such as a delivery service, and is

Department of Cannabis Control

subject to section 26060.1(a)(1)(B) of the Business and Professions Code and the retail water supplier contract is for delivery or pickup of water from a surface water body or an underground stream flowing in a known and definite channel, provide all of the following:

- (A) The name of the retail water supplier under the contract;
- (B) The water source and geographic location coordinates, in either latitude and longitude or the California Coordinate System, of any point of diversion used by the retail water supplier to divert water delivered to the commercial cannabis business under the contract;
- (C) The authorized place of use of any water right used by the retail water supplier to divert water delivered to the commercial cannabis business under the contract;
- (D) The maximum amount of water delivered to the commercial cannabis business for cannabis cultivation in any year; and
- (E) A copy of the most recent water service bill.

(3) If the water source is a small retail water supplier, such as a delivery service, and is subject to section 26060.1(a)(1)(B) of the Business and Professions Code and the retail water supplier contract is for delivery or pickup of water from a groundwater well, provide all of the following:

- (A) The name of the retail water supplier under the contract;
- (B) The geographic location coordinates for any groundwater well used to supply water delivered to the commercial cannabis business, in either latitude and longitude or the California Coordinate System;
- (C) The maximum amount of water delivered to the commercial cannabis business for cannabis cultivation in any year;
- (D) A copy of the well completion report filed with the Department of Water Resources pursuant to section 13751 of the Water Code for each percolating groundwater well used to divert water delivered to the commercial cannabis business. If no well completion report is available, the applicant shall provide evidence from the Department of Water Resources indicating that the Department of Water Resources does not have a record of the well completion report. When no well completion report is available, the State Water Resources Control Board may request additional information about the well; and
- (E) A copy of the most recent water service bill.

(b) If the water source is a groundwater well, provide the following:

- (1) The groundwater well's geographic location coordinates, in either latitude and longitude or the California Coordinate System; and
- (2) A copy of the well completion report filed with the Department of Water Resources pursuant to section 13751 of the Water Code. If no well completion report is available, the applicant shall provide evidence from the Department of Water Resources indicating that the Department of Water Resources does not have a record of the well completion report. If no well completion report is available, the State Water Resources Control Board may request additional information about the well.

Department of Cannabis Control

(c) If the water source is a rainwater catchment system, provide the following:

(1) The total square footage of the catchment footprint area(s).

(2) The total storage capacity, in gallons, of the catchment system(s).

(3) A detailed description and photographs of the rainwater catchment system infrastructure, including the location, size, and type of all surface areas that collect rainwater. Examples of rainwater collection surface areas include a rooftop and greenhouse.

(4) Geographic location coordinates of the rainwater catchment infrastructure in either latitude and longitude or the California Coordinate System.

(d) If the water source is a diversion from a waterbody (such as a river, stream, creek, pond, lake, etc.), provide any applicable water right statement, application, permit, license, or small irrigation use registration identification number(s), and a copy of any applicable statement, registration certificate, permit, license, or proof of a pending application issued under part 2 (commencing with section 1200) of division 2 of the California Water Code as evidence of approval of a water diversion by the State Water Resources Control Board.

Chapter 8. Manufacturers

Article 1. Manufacturing Licenses

§17006. Manufacturing License Types.

The following manufacturing license types are available from the Department:

(a) "Type 7," for extractions using volatile solvents as defined by section 15000(yyy). A Type 7 licensee may also:

(1) Conduct extractions using nonvolatile solvents or mechanical methods on the licensed premises, provided that the extraction process is noted on the application and the relevant information pursuant to section 15011(b) is provided to the Department;

(2) Conduct infusion operations on the licensed premises, provided the infusion operations and product types are noted on the application and the relevant information pursuant to section 15011(b) is provided to the Department;

(3) Conduct packaging and labeling of cannabis products on the licensed premises; and

(4) Register and operate the licensed premises as a shared-use facility in accordance with article 2 (commencing with section 17124) of chapter 8.

(b) "Type 6," for extractions using mechanical methods or nonvolatile solvents as defined by section 15000(uu). A Type 6 licensee may also:

(1) Conduct infusion operations on the licensed premises, provided the infusion operations and product types are noted on the application and the relevant information pursuant to section 15011(b) is provided to the Department;

Department of Cannabis Control

(2) Conduct packaging and labeling of cannabis products on the licensed premises; and
(3) Register and operate the licensed premises as a shared-use facility in accordance with article 2 (commencing with section 17124) of chapter 8.

(c) “Type N,” for manufacturers that produce cannabis products other than extracts or concentrates that are produced through extraction. A Type N licensee may also:

(1) Conduct packaging and labeling of cannabis products on the licensed premises; and
(2) Register and operate the licensed premises as a shared-use facility in accordance with article 2 (commencing with section 17124) of chapter 8.

(d) “Type P,” for manufacturers that only package or repackage cannabis products or label or relabel cannabis product containers or wrappers.

(e) “Type S,” for manufacturers that conduct commercial cannabis manufacturing activities in accordance with article 2 (commencing with section 17124) of chapter 8 at a registered shared-use facility.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26012, 26050 and 26130, Business and Professions Code.

§17009. Additional Activities.

In addition to the activities specified in section 17006, a licensed manufacturer may also roll and package pre-rolls and package dried cannabis flower.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26012 and 26130, Business and Professions Code.

§17117. License Constraints.

(a) A manufacturer licensee shall not manufacture, prepare, package or label any products other than cannabis products at the licensed premises.

(b) Notwithstanding subsection (a), a manufacturer licensee may manufacture, prepare, package, and label non-cannabis-infused product samples. For purposes of this section, a “non-cannabis-infused product sample” is a product that does not contain cannabis but contains all other components of a corresponding cannabis product and is used to provide information on flavor profiles, textures, smells, and other physical characteristics of the cannabis product. Non-cannabis-infused product samples shall not be sold and may be provided to other licensees except for licensed cultivators, transport only distributors, testing laboratories, and cannabis event organizers.

(c) A manufacturer licensee shall only use cannabinoid concentrates and extracts that are manufactured or processed from cannabis obtained from a licensed cannabis cultivator.

(d) A manufacturer licensee shall not manufacture, prepare, package, or label cannabis products in a location that is operating as a retail food establishment or as a processed food registrant.

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 157 of 214

(e) A manufacturer licensee shall not manufacture, prepare, package, or label cannabis products in a location that is licensed by the Department of Alcoholic Beverage Control pursuant to division 9 (commencing with section 23000) of the Business and Professions Code.

Authority: Section 26013 and 26130, Business and Professions Code. Reference: Sections 26050 and 26140, Business and Professions Code.

Article 2. Shared-Use Facilities

§ 17124. Definitions.

For purposes of this article, the following definitions shall apply:

- (a) “Common-use area” means any area of the manufacturer's registered shared-use facility, including equipment that is available for use by more than one licensed manufacturer, provided that the use of a common-use area is limited to one licensee at a time.
- (b) “Designated area” means the area of the manufacturer's registered shared-use facility that is designated by the primary licensee for the sole and exclusive use of a Type S licensee, including storage of the Type S licensee's cannabis, cannabis concentrates, and cannabis products.
- (c) “Primary licensee” means the Type 7, Type 6, or Type N licensee that has registered and been approved to operate its licensed premises as a shared-use facility.
- (d) “Shared-use facility” means a manufacturing premises operated by a Type 7, Type 6, or Type N licensee in which Type S licensees are authorized to conduct manufacturing operations.
- (e) “Use agreement” means a written agreement between a primary licensee and a Type S commercial cannabis business or licensee that specifies the designated area of the Type S licensee, the days and hours in which the Type S licensee is assigned to use the common-use area, any allocation of responsibility for compliance pursuant to section 17128, and an acknowledgement that the Type S licensee has sole and exclusive use of the common-use area during the Type S licensee's assigned time period.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26001, 26050, 26051.5 and 26130, Business and Professions Code.

§17126. Registration to Operate a Shared-Use Facility.

- (a) No licensed manufacturer shall operate as a shared-use facility without prior approval by the Department.
- (b) To register as a shared-use facility, a Type 7, Type 6, or Type N licensee shall submit the following to the Department through the online licensing system:
- (1) A copy of the license, permit, or other authorization issued by the local jurisdiction that enables the licensee to operate as a shared-use facility. The Department shall contact the applicable local jurisdiction to confirm the validity of the authorization upon

Department of Cannabis Control

receipt of the application for registration. If the local jurisdiction does not respond within 10 calendar days, the Department shall consider the authorization valid.

(2) A registration form prescribed by the Department, which includes the following information:

(A) The proposed occupancy schedule that specifies the days and hours the common-use area will be available for use by Type S licensees and when the common-use area will be used by the primary licensee. The occupancy schedule shall allow for maintenance and sanitizing between uses by individual licensees.

(B) A diagram indicating:

(i) Each designated area for Type S licensee(s).

(ii) The common-use area, including identification of any shared equipment.

(c) The Department shall notify the Type 7, Type 6, or Type N licensee upon approval of the registration to operate as a shared-use facility. Notification shall be made through the online licensing system.

(d) At least one business day prior to a Type S licensee commencing manufacturing operations at a registered shared-use facility, the primary licensee shall provide written notification to the Department. The notification to the Department shall include the Type S licensee's business name, contact person, contact phone number, and license number. The primary licensee shall also provide an updated occupancy schedule that includes the Type S licensee and an updated diagram that specifies the Type S licensee's designated area. Notification shall be provided by email or through the online licensing system.

(e) A primary licensee that wishes to discontinue operation as a shared-use facility may cancel its registration by providing written notice to the Department and each Type S licensee authorized to use the shared-use facility at least 30 calendar days prior to the effective date of the cancellation.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26051.5, 26055 and 26130, Business and Professions Code.

§17127. Shared-Use Facility Conditions for Operation.

(a) A primary licensee shall operate the shared-use facility in accordance with the conditions of operation specified in this section.

(b) Each Type S licensee shall be assigned a “designated area” that, at minimum:

(1) Is for exclusive use by the Type S licensee; and

(2) Provides an area for storage that is secure, fixed in place, locked with a commercial-grade lock, and accessible only to the Type S licensee for storage of that Type S licensee's cannabis, cannabis concentrates, and cannabis products.

(c) Any part of the premises used for manufacturing activities that is a common-use area shall be occupied by only one licensee at a time by restricting the time period that each licensee may use the common-use area. During the assigned time period, one licensee

shall have sole and exclusive occupancy of the common-use area.

(d) The use of the shared-use facility shall be restricted to the primary licensee and the Type S licensees authorized by the Department to use the shared-use facility.

(e) Any cannabis product or other materials remaining after a Type S licensee ceases operation and discontinues use of its designated area shall be considered cannabis waste and disposed of by the primary licensee consistent with the requirements of the Act and this division.

(f) The shared-use facility shall meet all applicable requirements of the Act and this division.

(g) The occupancy schedule shall be prominently posted near the entrance to the shared-use facility.

(h) The primary licensee may conduct manufacturing activities as permitted under its Type 7, Type 6, or Type N license and may use the common-use area during its scheduled time period.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17128. Shared-Use Facility Compliance Requirements.

(a) As part of the use agreement, the primary licensee and the Type S licensee(s) may allocate responsibility for providing and maintaining commonly used equipment and services, including, but not limited to, security systems, fire monitoring and protection services, and waste disposal services. However, the Department may take enforcement action against either the primary licensee or Type S licensee(s) regardless of the allocation of responsibility in the use agreement.

(b) A primary licensee or a Type S licensee is liable for any violation found at the shared-use facility during that licensee's scheduled occupancy or within that licensee's designated area. However, a violation of any provision of the Act or this division may be deemed a violation for which each Type S licensee and the primary licensee are responsible. In the event of a recall or embargo of a cannabis product produced at a shared-use facility, the Department, in its sole discretion, may include any or all cannabis products produced at the shared-use facility.

(c) The occupancy schedule and designated area for a Type S licensee shall not be altered without prior notification to the Department. Prior to making any changes to the occupancy schedule or the designated area, written notification that includes the intended changes shall be submitted by email or through the Department's online licensing system.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26055 and 26130, Business and Professions Code.

Article 3. Solvent Use and Safety

§17202.1. General Requirements for Extraction and Post-Extraction Processing.

(a) A licensed manufacturer that uses a volatile solvent, a flammable liquid, or a solvent that creates an asphyxiant gas shall ensure that the solvent is used in accordance with the requirements of:

- (1) Chapter 39 of the California Fire Code;
- (2) Title 8, California Code of Regulations, sections 5416-5420, which includes ensuring adequate ventilation and controlling sources of ignition;
- (3) All Division of Occupational Safety and Health (Cal/OSHA) regulations related to the processing, handling, and storage of the applicable solvent; and
- (4) All fire, safety, and building code requirements related to the processing, handling, and storage of the applicable solvent or gas.

(b) No volatile solvent extraction or post-extraction processing operations or other closed-loop system operations shall occur in an area zoned as residential.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26105 and 26130, Business and Professions Code.

§17203. Permissible Extractions.

(a) Except as provided in subsection (b), cannabis extraction shall only be conducted using the following methods:

- (1) Mechanical extraction;
- (2) Chemical extraction using a nonvolatile solvent, as defined in section 15000(uu).
- (3) Chemical extraction using CO₂ gas in a professional closed-loop extraction system.
- (4) Chemical extraction using a volatile solvent, as defined in section 15000(yyy), in a professional closed-loop extraction system; or
- (5) Any other method authorized by the Department pursuant to subsection (b).

(b) To request authorization from the Department to conduct cannabis extraction using a method other than those specified in subsections (a)(1) through (4), the applicant or licensee shall submit a detailed description of the extraction method, including any documentation that validates the method and any safety procedures to be utilized to mitigate any risk to public or worker health and safety.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17204. Solvent Requirements.

(a) Any solvents used for extraction or post-extraction processing shall meet the following minimum purity requirements:

Department of Cannabis Control

- (1) Hydrocarbon-based solvents shall be at least 99 percent purity.
- (2) Nonhydrocarbon-based solvents shall be food-grade.
- (3) CO₂ gas used for extraction shall be food-grade.
- (4) Ethanol shall be food-grade in accordance with 21 CFR, part 184, subpart B, section 184.1293.
 - (A) Solutions of ethanol may be used if the ethanol component is food-grade and it is combined with another food-grade solvent or a hydrocarbon-based solvent that meets the requirements of subsection (a)(1).
 - (B) Solutions of ethanol that include one or more volatile solvents that total 5% or less by volume of the total ethanol solution volume are considered nonvolatile solvents as defined in section 15000(uu).
- (5) Water and ice shall be potable.
- (6) Dry ice shall be food-grade.
 - (b) The licensed manufacturer shall maintain copies of the safety data sheets for any chemical solvents used and make these records readily available to employees and to the Department upon request.
 - (c) The licensed manufacturer shall maintain documentation evidencing the purity of any chemical solvents used and make these records readily available to employees and to the Department upon request.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26105 and 26130, Business and Professions Code.

§17205. Additional Requirements for Ethanol Operations.

A licensed manufacturer that uses ethanol in manufacturing operations for extractions or post-extraction processing shall receive approval for the facility and equipment from the local fire code official prior to commencing operations, if required by local ordinance.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17206. Closed-Loop Extraction System Requirements.

- (a) Chemical extractions using CO₂; a volatile solvent; or chlorofluorocarbon, hydrocarbon, or other fluorinated gas shall be conducted in a professional closed-loop extraction system designed to recover the solvents that are certified in accordance with section 17206.1.
- (b) The licensed manufacturer shall establish and implement procedures to ensure that the closed-loop extraction system is maintained in accordance with the equipment manufacturer specifications. The licensed manufacturer shall maintain logs documenting the date(s) of maintenance; description of the maintenance done, including any machine parts that were replaced; and the initials of the employee conducting the maintenance.

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 162 of 214

(c) The licensed manufacturer shall establish and implement procedures to ensure routine verification that the system is operating in accordance with equipment manufacturer specifications and continues to comply with fire, safety, and building code requirements. The licensed manufacturer shall conduct any verification recommended by the equipment manufacturer. The licensed manufacturer shall maintain logs documenting the date(s) of verification, description of the verification method, and the initials of the employee conducting the verification.

(d) A licensed manufacturer shall develop and implement written standard operating procedures, good manufacturing practices, and a training plan prior to using the closed-loop system. Any personnel using solvents or gases in a closed-loop system shall have direct access to applicable safety data sheets. Personnel shall be trained on how to use the system and handle and store solvents and gases safely prior to operating the system. The training shall be documented in accordance with section 17211.1.

(e) Professional closed-loop systems, other equipment used, the extraction operation, and facilities shall be approved for use by the local fire code official prior to commencing operation of the closed-loop system, if required by local ordinance. Licensed manufacturers shall provide documentation confirming compliance with this subsection to the Department upon request.

(f) The facility shall have a gas detection system that meets the requirements of title 24, California Code of Regulations, sections 3905.1-3905.2.

(g) All procedures and logs described in this section shall be in writing and made available to the Department upon request.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26105 and 26130, Business and Professions Code.

§17206.1. Certification of Closed-Loop Systems.

(a) The closed-loop system shall be commercially manufactured and bear a permanently affixed and visible serial number.

(b) After installation and before use of a closed-loop system, the licensed manufacturer shall have the closed-loop system certified by a California-licensed engineer that the system was commercially manufactured, safe for use with the intended solvent, and built and installed to codes of recognized and generally accepted good engineering practices. The certification document shall contain:

(1) The name, signature and stamp of the California-licensed professional engineer;

(2) The serial number of the extraction unit being certified;

(3) A list of the solvent(s) deemed safe for use with the equipment; and

(4) The address of the premises where the extraction unit was certified.

(c) The licensed manufacturer shall maintain the current certification document and make it available to the Department upon request.

(d) The closed-loop system shall be recertified if any of the following occur:

Department of Cannabis Control

- (1) The system is modified in a manner such that its operation no longer conforms to the original equipment manufacturer specifications, such as by adding or removing components that expand or reduce its capacity.
- (2) The system is moved to a different premises.
- (3) Five years have elapsed since the date of the certification.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26130 and 26132, Business and Professions Code.

Article 4. Good Manufacturing Practices

§17207. Manufacturing Practices Definitions.

In addition to the definitions in section 26001 of the Act and section 15000 of this division, the following definitions shall govern the construction of this chapter:

- (a) “Allergen cross-contact” means the unintentional incorporation of a food allergen into a cannabis product.
- (b) “Component” means any substance or item intended for use in the manufacture of a cannabis product, including those substances or items that are not intended to appear in the finished cannabis product. “Component” includes cannabis, cannabis products used as ingredients, raw materials, other ingredients, and processing aids.
- (c) “Contact surface” means any surface that contacts cannabis products and cannabis product components and those surfaces from which drainage, or other transfer, onto the cannabis product or cannabis product components, occurs during the normal course of operations. Examples of contact surfaces include containers, utensils, tables, and equipment.
- (d) “Easily cleanable” means a characteristic of a surface that allows effective removal of soil, food residue, or other organic or inorganic materials by normal cleaning methods.
- (e) “Environmental pathogen” means a pathogen capable of surviving and persisting within the manufacturing environment such that cannabis products may be contaminated and may result in illness if consumed or used without treatment to significantly minimize the environmental pathogen. Examples of environmental pathogens include *Listeria monocytogenes* and *Salmonella spp.* but do not include the spores of pathogenic spore-forming bacteria.
- (f) “Hazard” means any biological, chemical, radiological, or physical agent that has the potential to cause illness or injury.
- (g) “Holding” means storage of cannabis or cannabis products and includes activities performed incidental to storage of a cannabis product and activities performed as a practical necessity for the distribution of that cannabis product.
- (h) “Microorganisms” means yeasts, molds, bacteria, viruses, protozoa, and microscopic parasites and includes species that are pathogens. The term “undesirable microorganisms” includes those microorganisms that are pathogens, that subject a cannabis product to decomposition, that indicate that a cannabis product is contaminated

Department of Cannabis Control

with filth, or that otherwise may cause a cannabis product to be adulterated.

(i) “Monitor” means to conduct a planned sequence of observations or measurements to assess whether preventive measures are operating as intended.

(j) “Pathogen” means a microorganism that can cause illness or injury.

(k) “Potable” means water that meets the requirements of Health and Safety Code section 113869.

(l) “Preventive measures” means those risk-based, reasonably appropriate procedures, practices, and processes that a person knowledgeable about the safe manufacturing, processing, packing, or holding of food would employ to significantly minimize or prevent the hazards identified pursuant to a product quality plan as specified in section 17214.

(m) “Processing aid” means any substance that is added to a cannabis product during manufacture but is removed in some manner from the cannabis product before it is packaged in its finished form. This includes substances that are converted into constituents normally present in the product, and do not significantly increase the amount of the constituent naturally found in the product. This also includes substances that are added to a product for their technical or functional effect in the processing but are present in the finished product at insignificant levels and do not have any technical or functional effect in that product.

(n) “Qualified individual” means a person who has the education, training, or experience (or a combination thereof) necessary to manufacture quality cannabis products as appropriate to the individual's assigned duties. A qualified individual may be, but is not required to be, an employee of the licensed manufacturer.

(o) “Quality control” means a planned and systematic operation or procedure for ensuring the quality of a cannabis product.

(p) “Quality control operation” means a planned and systematic procedure for taking all actions necessary to prevent cannabis product(s) from being adulterated or misbranded.

(q) “Quality control personnel” means any person, persons, or group designated by the licensed manufacturer to be responsible for quality control operations.

(r) “Raw material” means any unprocessed material in its raw or natural state that is intended to become part of the components of a cannabis product.

(s) “Sanitize” means to treat cleaned surfaces by a process that is effective in destroying vegetative cells of pathogens and substantially reducing numbers of other undesirable microorganisms, but without adversely affecting the product or its safety for the consumer.

(t) “Smooth” means any of the following:

(1) A contact surface that is free of pits, pinholes, cracks, crevices, inclusions, rough edges, and other surface imperfections detectable by visual or tactile inspection.

(2) A floor, wall, or ceiling having an even or level surface with no roughness or projections that render it difficult to clean.

(u) “Utensil” means an implement, tool, or container used in the storage, preparation,

Department of Cannabis Control

manufacture, or processing of cannabis and cannabis products. In addition to kitchenware, examples of utensils include, but are not limited to, gloves, screens, sieves, implements to create pre-rolls, buckets, and scissors.

(v) “Validate” means obtaining and evaluating scientific and technical evidence that a control measure, combination of control measures, or set of quality control procedures, when properly implemented, is capable of ensuring the quality of a cannabis product or effectively controlling an identified hazard.

(w) “Verification” means the application of methods, procedures, tests, or other evaluations, in addition to monitoring, to determine whether a control measure or combination of control measures is or has been operating as intended and to establish the validity of the quality control procedures.

(x) “Yield” means the quantity of a particular cannabis product expected to be produced at a given step of manufacture or packaging, as identified in the master manufacturing protocol. The expected yield is based upon the quantity of components or packaging to be used, in the absence of any loss or error in actual production. “Actual yield” means the quantity of a particular cannabis product that is actually produced at a given step of manufacture or packaging that is recorded in the batch production record.

§17208. Quality Control Program.

(a) A licensed manufacturer shall establish and implement a quality control program to ensure that cannabis products are not adulterated or misbranded. The quality control program shall describe how the licensee will comply with the following:

- (1) Grounds, building, and manufacturing premises standards, as specified in section 17209;
- (2) Equipment and utensil requirements, as specified in section 17210;
- (3) Personnel procedures, as specified in section 17211;
- (4) Cannabis product component procedures, as specified in section 17212; and
- (5) Manufacturing processes and procedures, as specified in section 17213.

(b) The quality control program shall be under the supervision of one or more qualified individuals assigned responsibility for this function.

(c) For purposes of this article, for those requirements that are contained in the Health and Safety Code, use of the term “food” shall include cannabis, cannabis products, components, and contact surfaces.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17209. Grounds, Building, and Manufacturing Premises.

(a) Exterior facility and grounds. A licensed manufacturer shall ensure the facility exterior and grounds under the licensed manufacturer's control meet the following minimum standards:

(1) Grounds shall be equipped with draining areas in order to prevent pooled or standing water;

(2) Weeds, grass, and vegetation shall be cut within the immediate vicinity of the cannabis manufacturing premises, litter and waste shall be removed, and equipment shall be stored in order to minimize the potential for the grounds to constitute an attractant, breeding place, or harborage for pests;

(3) Roads, yards, and parking lots shall be maintained so that these areas do not constitute a source of contamination in areas where cannabis products are handled or transported;

(4) Openings into the building (such as windows, exhaust fans, ventilation ducts, or plumbing vent pipes) shall be screened, sealed, or otherwise protected to minimize potential for pests to enter the building;

(5) Waste treatment and disposal systems shall be provided and maintained so as to prevent contamination in areas where cannabis products may be exposed to such a system's waste or waste by-products.

(6) A licensed manufacturer shall implement precautions within the premises, such as inspection or extermination, if the premises is bordered by grounds outside the licensed manufacturer's control that are not maintained in the manner described in subsections (1) through (5), in order to eliminate any pests, dirt, and filth that pose a source of cannabis product contamination. Any use of insecticide, rodenticide, or other pesticide within the premises shall meet the requirements of Health and Safety Code section 114254.

(b) Interior facility. A licensed manufacturer shall ensure construction, design, and maintenance of the interior of the manufacturing premises as follows:

(1) Walls, ceilings, and floors. Walls, ceilings, and floors shall be constructed of material that is smooth, nonporous, easily cleanable, corrosion-resistant, and suitable to the activity that will be conducted. Fixtures, ducts, and pipes shall not pose a source of drip or condensate that may contaminate cannabis, cannabis products, components, contact surfaces, or packaging material.

(2) Lighting. Interior facility lighting shall meet the requirements of the Health and Safety Code section 114252, subdivisions (a)(1) and (3), (b)(3) and (4), and (c). Interior facility lighting shall also meet the requirements for shatter-resistant lighting in Health and Safety Code section 114252.1. The requirements of Health and Safety Code section 114252.1(a), shall also apply to all areas where glass breakage may result in the contamination of exposed cannabis, cannabis products, components, contact surfaces, or packaging material.

(3) Plumbing system and fixtures.

Department of Cannabis Control

(A) Water supply. Running water shall be supplied as required by Health and Safety Code section 114192 in all areas where required for the manufacturing of cannabis products; in all areas used for the cleaning of equipment, utensils, and packaging materials; and for employee sanitary facilities. Water that contacts cannabis, cannabis products, components, contact surfaces, or packaging materials shall be potable.

(B) Plumbing. Plumbing systems shall meet the requirements of Health and Safety Code section 114190.

(C) Sewage disposal. The sewage system shall be maintained and kept in good repair so that it does not pose a potential source of contamination of cannabis, cannabis products, components, contact surfaces, or packaging materials.

(D) Toilet facilities. A licensed manufacturer shall provide employees with access to toilet facilities that meet the requirements of Health and Safety Code section 114250. Toilet facilities shall be kept clean and shall not pose a potential source of contamination of cannabis, components, cannabis products, contact surfaces, or packaging materials.

(E) Hand-washing facilities. A licensed manufacturer shall provide hand-washing facilities that meet the requirements of Health and Safety Code sections 113953(a)-(d) and 113953.2.

(F) Waste disposal. A licensed manufacturer shall provide for waste disposal in accordance with Health and Safety Code sections 114244(a) and (c) and 114245.1. Cannabis waste shall be disposed of in accordance with section 17223.

(4) Ventilation. Ventilation systems shall meet the requirements of Health and Safety Code sections 114149 and 114149.3.

(5) Cleaning and maintenance. The premises, including any fixtures, and other physical facilities therein, shall be maintained in a clean and sanitary condition and kept in good repair so as to prevent cannabis products from becoming adulterated, and shall meet the requirements of Health and Safety Code section 114257.1.

(A) The premises shall have a janitorial facility that meets the requirements of Health and Safety Code section 114279(a).

(B) Cleaning equipment and supplies shall be stored in a manner that meets the requirements of Health and Safety Code section 114281.

(C) Poisonous or toxic materials such as cleaning compounds, sanitizing agents, and pesticide chemicals that are necessary for premises and equipment maintenance and operation shall be handled and stored in a manner that meets the requirements of Health and Safety Code sections 114254.1, 114254.2 and 114254.3.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17210. Equipment and Utensils.

(a) Design and construction. Equipment and utensils shall meet the requirements of Health and Safety Code sections 114130.1, 114130.2, 114130.3, and 114130.4 and shall be used in accordance with their operating instructions to avoid the adulteration of cannabis products with lubricants, fuel, metal fragments, contaminated water, or any other contaminants.

(b) Installation. Equipment shall be installed so as to allow cleaning and maintenance of the equipment and of adjacent spaces. Equipment that is not easily moveable shall meet the requirements of Health and Safety Code section 114169.

(c) Cleaning, sanitizing, and maintenance. Equipment and utensils shall be maintained in a clean and sanitary condition and kept in good repair. The quality control program for cleaning, sanitizing, and maintenance of equipment and utensils shall include the following elements, at minimum:

- (1) A detailed, written procedure for cleaning, sanitizing, and maintaining (including calibrating) equipment and utensils;
- (2) A schedule for cleaning, sanitizing, and maintaining equipment and utensils;
- (3) A log for documentation of the date and time of maintenance, cleaning, and sanitizing of equipment and utensils; and
- (4) A procedure for storing cleaned and sanitized equipment and utensils in a manner to protect the equipment and utensils from contamination.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17211. Manufacturing Personnel.

(a) Licensed manufacturers shall establish and implement procedures for personnel that include, at minimum:

(1) Disease control. Any individual who by medical examination or supervisory observation is shown to have, or appears to have, an illness specified in Health and Safety Code section 113949.2(a) or an open lesion (e.g., boil, sore, cut, rash, or infected wound), unless covered in accordance with the requirements of Health and Safety Code section 113949.2(b), shall be excluded from any manufacturing operations until their health condition is corrected. Personnel shall be instructed to report such health conditions to their supervisors.

(2) Cleanliness. All individuals working in direct contact with cannabis, cannabis products, components, contact surfaces, and packaging materials shall maintain personal cleanliness in order to protect against allergen cross-contact and contamination of cannabis products while on duty. The methods for maintaining personal cleanliness include:

(A) Wearing clean outer clothing to protect against allergen cross-contact and contamination of cannabis, cannabis products, components, contact surfaces, and packaging materials;

(B) Washing hands thoroughly in a hand-washing facility that meets the requirements of section 17209 before starting work, after each absence from a work station, at any time specified in Health and Safety Code section 113953.3, and at any time when the hands may have become soiled or contaminated;

(C) Removing all unsecured jewelry and other objects that might fall into cannabis, cannabis products, components, equipment, or containers. Hand jewelry that cannot be sanitized shall be removed during periods in which cannabis products are manipulated by hand. If such hand jewelry cannot be removed, it shall be covered by material that can be maintained in an intact, clean, and sanitary condition and that effectively protects against contamination by these objects of cannabis, cannabis products, components, contact surfaces, and packaging materials;

(D) Maintaining gloves used in cannabis product handling in an intact, clean, and sanitary condition;

(E) Wearing hair nets, caps, beard covers, or other hair restraints that are designed and worn to prevent hair contact with cannabis, cannabis products, components, contact surfaces, and packaging materials;

(F) Storing clothing and personal belongings in areas separate from those where cannabis products are exposed or where equipment or utensils are washed; and

(G) Confining the following activities to areas separate from those where cannabis products may be exposed or where equipment or utensils are washed: eating food, chewing gum, drinking beverages, and using tobacco.

(b) Nothing in this section prohibits a licensed manufacturer from establishing additional precautions to protect against allergen cross-contact and contamination of cannabis, cannabis products, components, contact surfaces, and packaging materials by microorganisms or foreign substances (e.g., perspiration, hair, cosmetics, tobacco, chemicals, and medicines applied to the skin).

(c) The procedures for manufacturing personnel shall be in writing and made available to the Department upon request.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17211.1. Training Program.

(a) A manufacturing licensee shall establish and implement a training program to ensure that all personnel present at the premises are provided information and training that, at minimum, covers the following topics:

(1) Within 30 days of the start of employment:

(A) Health and safety hazards;

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 170 of 214

(B) Hazards presented by all solvents or chemicals used at the licensed premises as described in the safety data sheet for each solvent or chemical;

(C) Emergency response procedures;

(D) Security procedures;

(E) Record keeping requirements; and

(F) Training requirements.

(2) Prior to independently engaging in any cannabis manufacturing process:

(A) An overview of the cannabis manufacturing process and standard operating procedure(s);

(B) Quality control procedures;

(C) Product quality plans developed in accordance with section 17214;

(D) Proper and safe usage of equipment or machinery;

(E) Safe work practices applicable to an employee's job tasks, including appropriate use of any necessary safety or sanitary equipment;

(F) Cleaning and maintenance requirements;

(G) Emergency operations, including shutdown; and

(H) Any additional information reasonably related to an employee's job duties.

(3) Additionally, a manufacturing licensee that produces edible cannabis products shall ensure that all personnel who prepare, handle, or package edible products successfully complete a California food handler certificate course from an entity accredited by the American National Standards Institute (ANSI) within 90 days of commencing employment at the premises and again every three years during employment. A manufacturing licensee shall obtain documentation evidencing the fulfillment of this requirement;

(b) A manufacturing licensee shall ensure that all personnel receive annual refresher training to cover, at minimum, the topics listed in subsection (a). This annual refresher training must be completed within 12 months of the previous training completion date.

(c) A manufacturing licensee shall maintain a record of training containing, at minimum:

(1) A list of all personnel at the premises including, at minimum, name and job duties of each individual;

(2) Documentation of training topics and dates of training completion, including refresher training, for all personnel;

(3) The signatures of each individual and the licensee verifying receipt and understanding of each training or refresher training completed by the individual; and

(4) Any official documentation attesting to the successful completion of required training by personnel.

(d) A manufacturing licensee may assign responsibility for the training of individual personnel to supervisory personnel. Assigned supervisory personnel must have the

education, training, or experience (or a combination thereof) necessary to ensure the production of quality cannabis products by all personnel. The assigned training personnel shall sign and date a document on an annual basis attesting that they received and understands all information that will be provided to personnel in the training program. This documentation shall be maintained as part of the record requirements in subsection (c).

§17212. Cannabis Product Components.

(a) In order to prevent adulteration of cannabis products, licensed manufacturers shall establish and implement written policies and procedures to ensure and maintain the quality of product components.

(b) Components are subject to the following minimum requirements:

(1) Components that are food must be obtained from a source that complies with federal and state food laws.

(2) Raw materials and other components shall be inspected upon intake to ensure that they are clean and suitable for manufacturing into cannabis products, and shall be stored under conditions that protect against allergen cross-contact and contamination and minimize deterioration.

(3) Raw materials shall be washed or cleaned as necessary to remove soil and other visible contaminants. Water used for washing, rinsing, or conveying cannabis product ingredients shall be potable.

(4) Raw materials and other components shall not contain levels of microorganisms that render the cannabis product injurious to human health, or shall be pasteurized or otherwise treated during manufacturing so that they no longer contain levels of microorganisms that would cause the cannabis product to be adulterated.

(5) Raw materials and other components susceptible to contamination with aflatoxin or other natural toxins, pests, or extraneous material shall not exceed generally acceptable limits set by the U.S. Food and Drug Administration in the *Defect Levels Handbook* (Rev. February 2005), which is hereby incorporated by reference, before these raw materials or other ingredients are incorporated into cannabis products.

(6) Raw materials and other components shall be held in containers designed and constructed to protect against allergen cross-contact or contamination, and shall be held at a temperature and relative humidity and in a manner that prevents the cannabis products from becoming adulterated.

(7) Frozen raw materials and other components shall be kept frozen. If thawing is required prior to use, it shall be done in a manner that prevents the raw materials and other ingredients from becoming adulterated.

(8) Raw materials and other components that are food allergens shall be identified and held in a manner that prevents cross-contact with other raw materials or ingredients.

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 172 of 214

(c) Holding and storage of raw materials and other components shall meet the requirements of Health and Safety Code sections 114047(a) and (b), 114049, and 114051.

(d) The policies and procedures for components shall be in writing and made available to the Department upon request.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17213. Manufacturing Procedures.

(a) A licensed manufacturer shall implement and maintain the following manufacturing procedures that ensure cannabis product quality:

(1) A product quality plan, as described in section 17214;

(2) Master manufacturing protocols, as described in section 17215, for each unique formulation of cannabis product manufactured to ensure only intended components are included and that the cannabis product is packaged and labeled in accordance with product specifications and this division; and

(3) Batch production records, as described in section 17216, to document the production process and, if needed, to verify that the established procedures, including the preventive measures and master manufacturing protocol, were implemented correctly.

(b) All manufacturing records and procedures shall be in writing and are subject to inspection by the Department, its inspectors and agents.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17214. Product Quality Plan.

(a) A licensed manufacturer shall establish and implement a written product quality plan for each type of product manufactured at the premises. The product quality plan shall address the hazards associated with the premises or the manufacturing process that, if not properly mitigated, may cause the product to be adulterated or misbranded, or may cause the product to fail laboratory testing or quality assurance review.

(b) To create the product quality plan, the licensed manufacturer shall conduct a comprehensive assessment of the overall manufacturing process, as follows:

(1) Identify each step from component intake through transfer of product from the premises;

(2) Evaluate the potential risks associated with each step;

(3) Identify the preventive measures that shall be taken to mitigate the potential risks identified;

(4) Identify the methods to evaluate and monitor the effectiveness of the preventive measures; and

Department of Cannabis Control

(5) Identify any action to take if a preventive measure was unsuccessful.

(c) The licensed manufacturer shall evaluate the following potential risks to cannabis product quality that could be introduced during manufacturing operations:

- (1) Biological hazards, including microbiological hazards;
- (2) Chemical hazards, including radiological hazards, pesticide contamination, solvent or other residue, natural toxins, decomposition, or allergens;
- (3) Physical hazards, such as stone, glass, metal fragments, hair, or insects; and
- (4) Process failures that may lead to product contamination, allergen cross-contact, packaging errors, labeling errors, or other errors affecting cannabis product quality.

(d) The licensed manufacturer shall identify and implement the preventive measure(s) necessary to mitigate each potential risk identified pursuant to subsection (c). Examples of preventive measures include, but are not limited to:

- (1) Cleaning and sanitizing of equipment and utensils to mitigate against risk of microbiological hazards;
- (2) Conducting in-house testing of raw cannabis to mitigate against the risk of pesticide contamination;
- (3) Establishing an allergen control program to ensure that allergen cross-contact does not occur between product types; and
- (4) Implementing procedures to ensure homogeneity of cannabinoids into a cannabis product to mitigate against the risk of a non-homogeneous product.

(e) The licensed manufacturer shall identify and implement methods to evaluate and monitor the effectiveness of the preventive measures in mitigating the potential risks identified in subsection (c). Methods for evaluation and monitoring of preventive measures include, but are not limited to, the following:

- (1) Review of test results conducted to determine contamination such as pesticide residue;
- (2) Maintaining and reviewing cleaning, sanitizing, or maintenance logs to verify such actions have been taken;
- (3) Conducting environmental testing to determine if equipment or utensils are contaminated with pathogens; and
- (4) Monitoring the temperature of raw materials that need to be held below 41 degrees Fahrenheit to prevent microbial contamination.

(f) The licensed manufacturer shall identify actions to be taken if the evaluation and monitoring of the preventive measure indicates that a risk was not properly mitigated. The corrective action shall be specific to the type of product under evaluation and the specific risk to be mitigated. Examples of corrective actions include, but are not limited to:

- (1) Destruction of product components or finished cannabis product;
- (2) Further manufacturing of cannabis extract to remove impurities; and

Department of Cannabis Control

(3) Reworking the unfinished product to further homogenize the cannabinoids.

(g) The licensed manufacturer shall maintain the product quality plans and documentation of preventive measures, monitoring results, and corrective actions and make the records available to the Department upon the Department's request, including during the Department's onsite inspection of the premises. Nothing in this chapter requires the disclosure of product quality plans other than to the Department and its inspectors and agents. The licensed manufacturer may consider the product quality plan subject to trade secret protection.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and ~~26134~~26039.6, Business and Professions Code.

§17215. Master Manufacturing Protocol.

(a) A licensed manufacturer shall establish and follow a written master manufacturing protocol for each unique formulation of cannabis product manufactured, and for each batch size, in order to mitigate the potential for adulteration through incorporation of incorrect amounts of cannabinoids, unintended ingredients, or hazards identified in the product quality plan; the potential for misbranding through incorporation of ingredients not identified on the label or mislabeling of the product; and to ensure uniformity in finished batches and across all batches produced.

(b) The master manufacturing protocol shall include:

(1) The name and intended cannabinoid concentration(s) of the cannabis product to be manufactured;

(2) A complete list of components to be used;

(3) The weight or measure of each component to be used. The master manufacturing protocol for any given product may include the ability to adjust the weight or measure of cannabinoid-containing ingredients in order to account for the variability of cannabinoid content in harvest batches;

(4) The identity and weight or measure of each ingredient that will be declared on the ingredients list of the cannabis product;

(5) The expected yield of the finished cannabis product, based upon the quantity of components or packaging to be used in the absence of any loss or error in actual production, and the maximum and minimum percentages of expected yield beyond which a deviation investigation of a batch will be necessary, material review will be conducted, and a decision on the disposition of the product will be made;

(6) A description of packaging and a representative label, or a cross-reference to the physical location of the actual or representative label;

(7) The expected number of packages and labels to be used, if the cannabis product will leave the manufacturing premises in final form and packaged and labeled as it will be sold at retail;

- (8) Written instructions for each point, step, or stage in the manufacturing process; and
- (9) Written instructions for any action to mitigate risk(s) identified in the product quality plan.

(c) Master manufacturing protocols shall be in writing and made available to the Department upon request.

(d) Nothing in this chapter requires disclosure of the master manufacturing protocol to any person other than the individuals conducting activities that utilize the protocol or to the Department and its inspectors and agents. The licensee may consider the master manufacturing protocol subject to trade secret protection.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17216. Batch Production Record.

(a) A licensed manufacturer shall prepare a written batch production record every time a batch of a cannabis product is manufactured or a batch of cannabis or cannabis product is remediated. The batch production record shall accurately follow the appropriate master manufacturing protocol, and each step of the protocol shall be performed in the production of the batch.

(b) The batch production record shall document all the following information about each batch at the time the batch is produced or remediated:

- (1) The licensee number or premises address of the facility at which the production occurred;
- (2) The date each step of the master manufacturing protocol was performed and the initials of the employee performing each step;
- (3) The identity and weight or measure of each component used in production of the batch;
- (4) The specific equipment and processing lines used in producing or remediating the batch;
- (5) A statement of the actual yield and the percentage difference from expected yield at appropriate phases of manufacturing as identified in the master manufacturing protocol;
- (6) If the product quality plan identifies any monitoring needed to ensure product safety, the results of the monitoring action performed;
- (7) An actual or representative label or other identification of the label to be used for the cannabis product;
- (8) The actual quantity of the packages and labels used, and the difference from the expected quantity to be used, if the cannabis product will leave the manufacturing premises as a final form cannabis good;
- (9) Documentation that quality control personnel:
 - (A) Reviewed the batch production record;

Department of Cannabis Control

- (B) Reviewed all required monitoring operation(s); and
 - (C) Either approved and released, or rejected, the finished cannabis product, including any remediated, repackaged or relabeled cannabis product;
 - (10) Documentation, at the time of performance, of any investigation identified in the product quality plan or master manufacturing protocol, including deviations from the expected yield or package and label count; and
 - (11) The UID and the batch or lot number of the finished batch of cannabis product and the UIDs of all cannabis or cannabis products used in the batch.
- (c) The batch production record shall:
- (1) Contain the actual values and observations obtained during monitoring and, as appropriate, during verification activities;
 - (2) Be accurate, indelible, and legible;
 - (3) Be created concurrently with performance of the activity documented; and
 - (4) Be as detailed as necessary to provide a history of work performed.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26039.6, Business and Professions Code.

§17217. Standard Operating Procedures.

- (a) A licensed manufacturer shall establish and maintain written standard operating procedures that are easily accessible to onsite personnel. The standard operating procedures shall, at minimum, include the following:
- (1) Policies or procedures developed in accordance with the security plan required by section 15042.1;
 - (2) Emergency response procedures, including safety data sheets for any chemicals onsite;
 - (3) Policies and procedures developed in accordance with section 17206;
 - (4) Policies and procedures developed in accordance with this article;
 - (5) Procedures for complying with the track and trace requirements established in article 6 of chapter 1; and
 - (6) Cannabis waste management procedures in compliance with section 17223.
- (b) Procedures shall be written in English but may be made available in other languages, as necessary for the licensee's personnel.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26130 and 26160, Business and Professions Code.

§17218. Inventory Control – Cannabis and Cannabis Products.

(a) A licensed manufacturer shall establish and implement a written inventory control plan capable of tracking the location and disposition of all cannabis and cannabis products at the licensed premises.

(b) A licensed manufacturer shall reconcile the on-hand inventory of cannabis and cannabis products at the licensed premises with the records in the track and trace system at least once every thirty (30) calendar days.

(c) If a licensed manufacturer finds a discrepancy between the on-hand inventory and the track and trace system, the licensee shall conduct an audit.

(d) If the inventory reconciliation conducted pursuant to subsection (b) or the audit conducted pursuant to subsection (c) reveals a discrepancy that is significant pursuant to section 15034, the licensed manufacturer shall notify the Department within 24 hours of the discovery. The result of inventory reconciliation and any audit shall be retained in the licensed manufacturer's records and shall be made available to the Department upon request.

(e) The licensed manufacturer shall maintain sales invoices and receipts for all batches of cannabis and cannabis products received at and transferred from its licensed premises. The licensed manufacturer shall prepare a sales invoice or receipt that meets the requirements of Business and Professions Code section 26161 prior to each sale or transport of cannabis products from the premises.

Article 5. Special Requirements**§17219. Juice Manufacturing.**

Manufacturers of cannabis juice or cannabis-infused juice or beverages shall prepare and implement a written juice hazard analysis and critical control plan in accordance with the requirements of title 21, Code of Federal Regulations, Part 120, subpart A, section 120.8 and subpart B, section 120.24, (Rev. January 2001), which are hereby incorporated by reference. The hazard analysis and critical control plan shall be made available to the Department upon request.

Chapter 9. Other Responsibilities

§17221. Weighing Devices and Weighmasters.

(a) A licensee shall use weighing devices approved, tested, and sealed in accordance with the requirements in Business and Professions Code, division 5, chapter 5 (commencing with section 12500) and its implementing regulations, and registered with the county sealer consistent with Business and Professions Code, division 5, chapter 2 (commencing with section 12240) and its implementing regulations whenever:

- (1) Cannabis or cannabis product is bought or sold by weight or count;
- (2) Cannabis or cannabis product is packaged for sale by weight or count;
- (3) Cannabis or cannabis product is weighed or counted for entry into the track and trace system; and
- (4) The weighing device is used for commercial purposes as defined in Business and Professions Code section 12500.

(b) Whenever the licensee is determining the weight, measure, or count of cannabis and cannabis products for the purposes specified in subsection (a), the weight, measure, or count shall be determined by a licensed weighmaster in compliance with the requirements of Business and Professions Code, division 5, chapter 7 (commencing with section 12700).

(c) A licensee shall obtain a weighmaster certificate that complies with the requirements of Business and Professions Code, division 5, chapter 7 (commencing with section 12700) whenever:

- (1) Payment for the cannabis or cannabis product is dependent upon the quantity determined by the weighmaster; or
- (2) Payment for service or processing of the cannabis or cannabis product is dependent upon the quantity determined by the weighmaster.

(d) The weighmaster certificate shall not be required when cannabis or cannabis products are weighed or counted for entry into the track and trace system.

(e) In any county in which a county sealer refuses or is not required to approve, register, test, and seal weighing devices used by a licensee, the licensee may have a service

Department of Cannabis Control

agency registered pursuant to Business and Professions Code, division 5, chapter 5.5 perform testing of a weighing device consistent with the requirements in title 4, California Code of Regulations, section 4070. The licensee shall keep a copy of the registered service agency's written inspection report attesting to the accuracy of the device for each device operated by the licensee.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26060, Business and Professions Code.

§17223. Waste Management.

(a) A licensee shall dispose of all waste in accordance with the Public Resources Code and any other applicable state and local laws. It is the responsibility of the licensee to properly evaluate waste to determine if it should be designated and handled as a hazardous waste, as defined in Public Resources Code section 40141.

(b) A licensee shall establish and implement a written cannabis waste management plan that describes the method or methods by which the licensee will dispose of cannabis waste, as applicable to the licensee's activities. A licensee shall dispose of cannabis waste using only the following methods:

(1) On-premises composting of cannabis waste.

(2) Collection and processing of cannabis waste by a local agency, a waste hauler franchised or contracted by a local agency, or a private waste hauler permitted by a local agency in conjunction with a regular organic waste collection route.

(3) Self-haul cannabis waste to one or more of the following:

(A) A staffed, fully permitted solid waste landfill or transformation facility;

(B) A staffed, fully permitted composting facility or staffed composting operation;

(C) A staffed, fully permitted in-vessel digestion facility or staffed in-vessel digestion operation;

(D) A staffed, fully permitted transfer/processing facility or staffed transfer/processing operation;

(E) A staffed, fully permitted chip and grind operation or facility; or

(F) A recycling center as defined in title 14, California Code of Regulations, section 17402.5(d) that meets the following:

(i) The cannabis waste received shall contain at least ninety (90) percent inorganic material;

(ii) The inorganic portion of the cannabis waste is recycled into new, reused, or reconstituted products that meet the quality standards necessary to be used in the marketplace; and

(iii) The organic portion of the cannabis waste shall be sent to a facility or operation identified in subsections (b)(3)(A)-(E).

(4) Reintroduction of cannabis waste back into agricultural operation through on-premises organic waste recycling methods including, but not limited to, tilling directly into agricultural land and no-till farming.

(c) The licensee shall maintain any cannabis waste in a secured waste receptacle or secured area on the licensed premises until the time of disposal. Physical access to the receptacle or area shall be restricted to the licensee, employees of the licensee, the local agency, waste hauler franchised or contracted by the local agency, or private waste hauler permitted by the local agency only. Nothing in this subsection prohibits licensees from using a shared waste receptacle or area with other licensees, provided that the shared waste receptacle or area is secured and access is limited as required by this subsection.

(d) A licensee that disposes of waste through an entity described in subsection (b)(2) shall do all of the following:

- (1) Maintain and make available to the Department upon request the business name, address, contact person, and contact phone number of the entity hauling the waste; and
- (2) Obtain documentation from the entity hauling the waste that evidences subscription to a waste collection service.

(e) If a licensee is self-hauling cannabis waste as allowed by the local jurisdiction, the licensee shall be subject to all of the following requirements:

- (1) Self-hauled cannabis waste shall only be transported by the licensee or its employees;
- (2) Self-hauled cannabis waste shall only be transported to a facility specified in subsection (b)(3); and
- (3) The licensee or its employee who transports the waste shall obtain for each delivery of cannabis waste a copy of a certified weight ticket or receipt from the solid waste facility.

(f) A batch of cannabis or cannabis products that is being disposed of because the batch has failed internal quality testing, quality assurance review by a distributor, or regulatory compliance testing shall comply with the following additional requirements:

- (1) All cannabis or cannabis products in the batch shall be rendered unusable prior to disposal;
- (2) Rendering of the cannabis or cannabis products shall be done under video surveillance, unless the rendering is performed by a licensee engaging in cultivation activities on a licensed premises authorized exclusively for cultivation activities or the cultivation area of a licensed microbusiness premises; and
- (3) The reason for disposal and the disposition of the batch shall be noted in the track and trace system.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17225. Product Complaints.

(a) A licensee shall review all product complaints made to the licensee to determine whether the complaints involve possible misbranding or adulteration of a cannabis good, and shall investigate the complaints to the extent practicable based on the information received and the records the licensee is required to maintain.

(b) For purposes of this section, “product complaint” means any written, electronic, or oral communication received by a licensee that contains any allegation expressing concern, for any reason, with the quality of a cannabis good. Examples of product complaints may include, but are not limited to: foul odor, caused illness or injury, foreign material in a cannabis product container, improper packaging, mislabeling, cannabis products that contain an incorrect concentration of cannabinoids, and cannabis products that contain an unidentified ingredient, or any form of contaminant.

(c) The licensee shall maintain written records for every product complaint received and any subsequent investigation. The records shall include:

- (1) The name and description of the cannabis good;
 - (2) The batch number or UID of the cannabis good, if available;
 - (3) The date the complaint was received and the name, address, and telephone number of the complainant, if available;
 - (4) The nature of the complaint including, if known, how the product was used;
 - (5) The reply to the complainant, if any;
 - (6) The findings of the investigation or follow-up action taken when an investigation is performed;
 - (7) The basis for any determination not to conduct an investigation, if applicable; and
 - (8) The notification to the licensee that made the cannabis good, if applicable.
- (d) The licensee shall conduct a recall, as specified in section 17226, when the investigation evidences adulteration or misbranding.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and ~~26134~~26039.6, Business and Professions Code.

§17226. Voluntary Recalls.

(a) Licensees shall establish and implement written procedures for recalling cannabis goods that are determined to be misbranded or adulterated. The recall procedures shall be implemented upon discovery, or notification from the Department, that one or more batches of cannabis goods are adulterated or misbranded. These procedures shall include:

- (1) Factors that necessitate a recall;
- (2) Personnel responsible for implementing the recall procedures;
- (3) Notification protocols, including:

Department of Cannabis Control

(A) A mechanism to notify all customers that have, or could have, obtained the cannabis goods, including communication and outreach via media, as necessary and appropriate;

(B) A mechanism to notify any licensees that supplied or received the recalled cannabis goods; and

(C) Instructions to the general public and other licensees for the return or destruction of the recalled cannabis goods; and

(4) Procedures for the collection and destruction of any recalled cannabis goods. These procedures shall meet the following requirements:

(A) All recalled cannabis goods that are intended to be destroyed shall be quarantined for a minimum of 72 hours, unless a longer holding time is requested by the Department. The licensee shall affix to the recalled cannabis goods any bills of lading, shipping manifests, or other similar documents with the cannabis goods information and weight. The cannabis goods held in quarantine shall be subject to auditing by the Department.

(B) Following the quarantine period, the licensee shall render the recalled cannabis goods unusable and dispose of them in accordance with section 17223.

(b) In addition to the tracking requirements set forth in section 15049, a licensee shall use the track and trace system and onsite documentation to ensure that recalled cannabis goods intended for destruction are identified, weighed, and tracked while on the licensed premises and when disposed of in accordance with this section. For recalled cannabis goods, the licensee shall enter the following details into the track and trace system: the weight and count of the cannabis goods, reason for destruction, and date the quarantine period will begin.

(c) The licensee shall notify the Department of any recall within 24 hours of initiating the recall.

(d) A licensed manufacturer may submit a corrective action plan to the Department for recalled cannabis goods in accordance with section 17305. If the corrective action plan is not approved by the Department, the cannabis goods shall be destroyed pursuant to the procedures required by subsection (a)(4).

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26039.1 and 26039.6, Business and Professions Code.

§17227. Mandatory Recalls.

(a) The Department may require licensees to conduct a recall of a cannabis good that is adulterated or misbranded in accordance with Business and Professions Code section 26039.1.

(b) The licensee shall conduct the mandatory recall in the same manner as a voluntary recall as provided in section 17226.

Chapter 10. Cannabis and Cannabis Products

Article 1. Standards for Manufactured Cannabis Products

§17300. Prohibited Products.

The following types of products shall not be sold as cannabis products:

(a) Alcoholic beverages, as defined in Business and Professions Code section 23004. This prohibition does not apply to tinctures that meet the requirements of section 17303.

(b) Any cannabis product containing any non-cannabinoid additive that would increase potency, toxicity, or addictive potential, or that would create an unsafe combination with other psychoactive substances including, but not limited to, nicotine.

(c) Any cannabis product that must be held at or below 41 degrees Fahrenheit to keep it safe for human consumption, including, but not limited to, cream- or custard-filled pies; pies or pastries consisting in whole or in part of milk or milk products, or eggs; and meat-filled pies or pastries. This prohibition shall not apply to juices or beverages that need to be held below 41 degrees Fahrenheit if the juice or beverage was processed in accordance with section 17219, or to infused butter manufactured as permitted by subsection (g).

(d) Any thermally-processed low-acid cannabis product packed in a hermetically sealed container that, if it did not contain cannabis, would be subject to the manufacturing requirements of title 21, Code of Federal Regulations, part 113.

(e) Any acidified cannabis product that, if it did not contain cannabis, would be subject to the manufacturing requirements of title 21, Code of Federal Regulations, part 114.

(f) Any juice that is not shelf-stable or that is not processed in accordance with section 17219.

(g) Dairy products of any kind, as prohibited by Business and Professions Code section 26001(u), except butter purchased from a licensed milk products plant or retail location that is subsequently infused or mixed with cannabis.

(h) Meat products other than dried meat products prepared in accordance with section 17220.

(i) Seafood products of any kind.

(j) Any product that is manufactured by application of cannabinoid concentrate or extract to commercially available candy or snack food items without further processing of the product. Commercially available candy or snack food items may be used as ingredients in a cannabis product, provided that they are used in a way that renders them unrecognizable as the commercially available items, and the label, including the ingredient list, does not reference the commercially available item.

(k) Any cannabis product that the Department determines, on a case-by-case basis, is attractive to children, as specified in section 17408.

(l) Any cannabis product that the Department determines, on a case-by-case basis, is easily confused with commercially available foods that do not contain cannabis.

Department of Cannabis Control

(m) Any cannabis product in, or imprinted with the shape, either realistic or caricature, of a human being, animal, insect, or fruit.

(n) Any inhalable cannabis product that is delivered into the lungs through a metered-dose inhaler or dry-powder inhaler. Nothing in this section shall be interpreted to prohibit other dry-powder cannabis products or metered-dose vaporizers containing cannabis or cannabis oil.

(o) Any cannabis product that is administered to the eye or the nasal passages.

(p) Any cannabis product that is injected into the body by piercing the skin.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17301. Additional Requirements for Edible Cannabis Products.

(a) Except for cannabis, cannabis products, or terpenes, no ingredient or component shall be used in the manufacture of an edible cannabis product unless that ingredient or component is permitted by the United States Food and Drug Administration for use in food or food manufacturing, as specified in *Substances Added to Food in the United States*, available at

<https://www.accessdata.fda.gov/scripts/fdcc/index.cfm?set=FoodSubstances> or is Generally Recognized as Safe (GRAS) under sections 201(s) and 409 of the Federal Food, Drug, and Cosmetic Act (codified in 21 U.S.C. 321(s) and 21 U.S.C. 348).

(b) Edible cannabis products that consist of more than a single serving shall be marked or packaged in a manner such that a single serving is readily identifiable or measurable.

(c) An edible cannabis product consisting of multiple servings shall be homogenized so that each serving contains the same concentration of THC.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

§17302. Additional Requirements for Topical Cannabis Products.

(a) Except for cannabis, cannabis concentrate, or terpenes, topical cannabis products shall only contain ingredients permitted for cosmetic manufacturing in accordance with title 21, Code of Federal Regulations, part 700, subpart B (section 700.11 et seq.) (Rev. March 2016), which is hereby incorporated by reference.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

§17302.1. Additional Requirements for Tinctures.

(a) A tincture shall be no more than 2 fluid ounces and shall include a calibrated dropper or similar device for measuring a single serving.

(b) A tincture, defined at section 15000(rrr), may include ingredients other than cannabis

extract and alcohol, vegetable oil, or glycerin provided that the primary ingredient by weight is alcohol, vegetable oil, or glycerin.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

§17303. Orally Consumed Products Containing Alcohol.

(a) Any orally consumed product that contains more than 0.5% alcohol by volume as an ingredient, and is not otherwise an alcoholic beverage as defined in Business and Professions Code section 23004, shall be packaged in a container no larger than two (2) fluid ounces and shall include a calibrated dropper or other similar device capable of accurately measuring servings.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

§17303.1. Additional Requirements for Inhaled Products.

(a) Cannabis products intended for inhalation shall only contain cannabis, cannabis concentrate, terpenes, rolling paper, leaf, pre-roll filter tips, or ingredients permitted by the United States Food and Drug Administration as an “inactive ingredient” for inhalation, as specified in the United States Food and Drug Administration *Inactive Ingredients Database*, available at <https://www.fda.gov/drugs/drug-approvals-and-databases/inactive-ingredients-database-download>.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

Article 2. Cannabinoid Concentration Limits

§17304. THC Concentration Limits.

(a) An edible cannabis product shall not contain more than:

- (1) 10 milligrams THC per serving; and
- (2) 100 milligrams THC per package.

(b) Notwithstanding subsection (a), a package containing an edible product that is an orally dissolving product, such as sublingual lozenges or mouth strips, may contain up to 500 milligrams THC per package, if:

- (1) The cannabis product consists of discrete servings of no more than 10 milligrams THC per piece;
- (2) The cannabis product is labeled “FOR MEDICAL USE ONLY;” and
- (3) The cannabis product is only available for sale to a medicinal-use patient.

(c) A topical cannabis product or a cannabis concentrate shall not contain more than 1,000 milligrams THC per package.

Department of Cannabis Control

(d) Notwithstanding subsection (c), a topical cannabis product or a cannabis concentrate may contain more than 1,000 milligrams THC per package, but not more than 2,000 milligrams THC per package, if the product is labeled “FOR MEDICAL USE ONLY” and is only available for sale to a medicinal-use patient.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5, 26120 and 26130, Business and Professions Code.

Article 3. Failed Product Batches

§17305. Failed Product Batches.

(a) A finished cannabis product batch that fails any regulatory compliance laboratory testing requirement established in this division shall be destroyed unless:

(1) The cannabis product batch or harvest batch may be remediated by relabeling pursuant to subsection (d); or

(2) A corrective action plan for remediation is approved by the Department pursuant to subsection (e). The licensed manufacturer or microbusiness authorized to engage in manufacturing who submits a corrective action plan for remediation shall be the manufacturer that remediates the subject batch. The licensed manufacturer shall not receive the batch from the licensed distributor until the Department has approved the corrective action plan.

(b) Remediation of a failed product batch or the use of a harvest batch that has failed any regulatory compliance laboratory test shall comply with the requirements and procedures established by the Department in section 15306, in addition to the requirements of this article.

(c) Except as provided in subsections (d) and (f), edible cannabis products that fail regulatory compliance laboratory testing shall not be remediated and shall be destroyed. If any edible cannabis product that has failed regulatory compliance laboratory testing is remediated or otherwise mixed with another batch of cannabis product in violation of this section, such action shall render the final cannabis product adulterated, regardless of the defect level of the final cannabis product.

(d) A cannabis product batch that fails regulatory compliance laboratory testing for cannabinoid or terpenoid content may be remediated by relabeling the product with the correct information from the certificate of analysis for regulatory compliance, provided that the THC limits in section 17304 are met.

(e) Except as provided in subsection (d), a cannabis product batch or a harvest batch that fails regulatory compliance laboratory testing or quality assurance review shall not be remediated unless the Department has approved a corrective action plan submitted by the licensed manufacturer or microbusiness authorized to engage in manufacturing who will be performing the remediation. Edible cannabis products may only be remediated by relabeling pursuant to subsection (d) or repackaging as provided in subsection (f). Corrective action plans will be reviewed by the Department on a case-by-

case basis. A corrective action plan shall be submitted to the Department at remediation@cannabis.ca.gov and contain the following:

- (1) The licensed manufacturer's license number and legal business name;
 - (2) The licensed manufacturer's DBA, if any;
 - (3) The brand name of the product being remediated, the UID for the batch, and the size of the batch;
 - (4) The licensed manufacturer's premises address;
 - (5) The name, email address, and phone number of the licensed manufacturer's contact person for this remediation;
 - (6) A description of how the cannabis product or harvest batch will be remediated so that the cannabis product or harvest batch, or any product produced therefrom, will meet all regulatory compliance testing standards and quality assurance requirements; and
 - (7) Any additional information requested by the Department.
- (f) Edible cannabis products that fail regulatory compliance testing because the per-package limit of THC has been exceeded may be remediated by repackaging under the following conditions:
- (1) The Department has approved a corrective action plan for repackaging the product;
 - (2) The product batch is returned to the manufacturer who packaged the product;
 - (3) The product itself is not altered in any way; and
 - (4) The product is labeled to accurately state the contents.
- (g) All remediation of harvest or product batches shall be documented in the batch production records. Remediated products, harvest batches, or products produced therefrom shall be transported to a licensed distributor and undergo regulatory compliance testing in accordance with chapters 2 and 6 and quality assurance review pursuant to sections 15307 and 15307.1 prior to being transported to a licensed retailer.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26039.6, Business and Professions Code.

Chapter 11. Labeling and Packaging Requirements

Article 1. Bulk Cannabis or Cannabis Products, Immature Plants, and Seeds

§17398. Bulk Cannabis or Cannabis Products.

- (a) For purposes of this section, "bulk cannabis or cannabis products" means cannabis or cannabis products transferred between licensees for the purpose of further processing and/or packaging.
- (b) The packaging used to transport bulk cannabis or cannabis products shall protect the cannabis or cannabis products from contamination and shall not expose the cannabis or cannabis products to any toxic or harmful substance.

Department of Cannabis Control

- (c) Packages of bulk cannabis or cannabis products shall be labeled with the following:
- (1) The type or common name of the cannabis or cannabis products contained therein;
 - (2) The UID assigned to the cannabis or cannabis products;
 - (3) The ingredients of the cannabis products, including a list of any allergens present as described in section 17406(a)(6); and
 - (4) The net weight or count of the cannabis or cannabis products.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§17399. Immature Plants.

- (a) Immature plants to be sold at retail are not required to be placed in child-resistant or tamper-evident packaging prior to sale.
- (b) Immature plants shall be labeled with the following:
- (1) The legal business name, or any name listed on the license certificate, of the licensed nursery that cultivated the immature plant, and its contact number or website address;
 - (2) The strain name; and
 - (3) The statement: “This plant has not been tested in accordance with the Medicinal and Adult-Use Cannabis Regulation and Safety Act.”

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26070, 26100 and 26120, Business and Professions Code.

§17400. Seeds.

- (a) Packages of seeds are not required to be placed in child-resistant packaging prior to sale.
- (b) Packages of seeds to be sold at retail shall be labeled with the following:
- (1) The legal business name, or any name listed on the license certificate, of the licensed nursery that cultivated the seeds, and its contact number or website address;
 - (2) The strain name(s);
 - (3) Either the weight or count of seeds in the package;
 - (4) The universal symbol described in section 17410; and
 - (5) The statement: “These seeds have not been tested in accordance with the Medicinal and Adult-Use Cannabis Regulation and Safety Act.”

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26130, Business and Professions Code.

Article 2. Cannabis Products Released from Manufacturing

§17401. Release to Distributor as Finished Product.

(a) Cannabis products shall not be transferred to a licensed distributor, or microbusiness authorized to engage in distribution, for regulatory compliance testing unless the cannabis products are in their final form and packaged and labeled for retail sale.

(b) Notwithstanding subsection (a), a product label may exclude labeling of cannabinoid content if the cannabinoid content is to be added to the label at the distribution premises after issuance of a Certificate of Analysis in accordance with section 17407.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26011.5 and 26130, Business and Professions Code.

Article 3. Labeling Requirements

§ 17402. General Provisions.

(a) Any information required to be listed on a label shall be written in English.

(b) A label shall be unobstructed and conspicuous so that it can be read by the consumer.

(c) All required label information shall be located on the outside container or wrapper of the finished product to be sold at a retailer, or be easily legible through the outermost container or wrapper. If the immediate container holding the cannabis goods is separable from the outermost packaging, such as a container placed inside of a box, the immediate container shall be labeled with the universal symbol as described in section 17410.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§ 17403. Primary Panel Labeling Requirements: Nonmanufactured Cannabis Goods.

(a) The label for a package of nonmanufactured cannabis goods shall include a primary panel that includes the following information in a type size no smaller than 6 point and proportional to the size of the primary panel and container:

(1) The identity of the product;

(2) The net weight of cannabis in the package, listed in both metric and U.S. customary units; and

(3) The universal symbol described in section 17410.

(b) The label for a package of nonmanufactured cannabis goods shall include an informational label that includes the following information in a type size no smaller than 6 point and proportional to the size of the informational panel and container:

(1) The UID;

(2) The name of the licensed cultivator or licensee packaging the product (either the legal business name or the listed on the license certificate) and that licensee's contact number or website address;

(3) The date of packaging for retail sale; and

(4) The following statement in bold print: "GOVERNMENT WARNING: THIS PACKAGE CONTAINS CANNABIS, A SCHEDULE I CONTROLLED SUBSTANCE. KEEP OUT OF REACH OF CHILDREN AND ANIMALS. CANNABIS MAY ONLY BE POSSESSED OR CONSUMED BY PERSONS 21 YEARS OF AGE OR OLDER UNLESS THE PERSON IS A QUALIFIED PATIENT. CANNABIS USE WHILE PREGNANT OR BREASTFEEDING MAY BE HARMFUL. CONSUMPTION OF CANNABIS IMPAIRS YOUR ABILITY TO DRIVE AND OPERATE MACHINERY. PLEASE USE EXTREME CAUTION."

(c) Nothing in this section prohibits the inclusion of additional information on the primary panel, provided that the label does not violate the requirements of section 17408.

(d) The cannabinoid content for a package of nonmanufactured cannabis goods shall be labeled as specified in section 17407.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§17404. Primary Panel Labeling Requirements: Manufactured Cannabis Products.

(a) The label for a manufactured cannabis product shall include a primary panel that includes the following information in a type size no smaller than 6 point and proportional to the size of the primary panel and container:

(1) The identity of the product in a text size reasonably proportional to the most prominent printed matter on the panel;

(2) The universal symbol as described in section 17410; and

(3) The net weight or volume of the contents of the package, listed in both metric and U.S. customary units.

(b) Nothing in this section prohibits the inclusion of additional information on the primary panel, provided that the label does not violate the requirements of section 17408.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§17405. Additional Primary Panel Labeling Requirements: Edible Products.

(a) In addition to the requirements of section 17404, the primary panel of an edible cannabis product shall include the words "cannabis-infused" or "cannabis infused" immediately above the identity of the product in bold type and a text size larger than the text size used for the identity of the product.

§17406. Informational Panel Labeling Requirements.

(a) The label for a manufactured cannabis product shall include an informational panel that includes the following:

(1) The name of the licensed manufacturer (either the legal business name or the name listed on the license certificate) that manufactured the cannabis product and the manufacturer's contact number or website address;

(2) The date the cannabis product was packaged for retail sale;

(3) The following statement in bold print: "GOVERNMENT WARNING: THIS PRODUCT CONTAINS CANNABIS, A SCHEDULE I CONTROLLED SUBSTANCE. KEEP OUT OF REACH OF CHILDREN AND ANIMALS. CANNABIS PRODUCTS MAY ONLY BE POSSESSED OR CONSUMED BY PERSONS 21 YEARS OF AGE OR OLDER UNLESS THE PERSON IS A QUALIFIED PATIENT. THE INTOXICATING EFFECTS OF CANNABIS PRODUCTS MAY BE DELAYED UP TO TWO HOURS. CANNABIS USE WHILE PREGNANT OR BREASTFEEDING MAY BE HARMFUL. CONSUMPTION OF CANNABIS PRODUCTS IMPAIRS YOUR ABILITY TO DRIVE AND OPERATE MACHINERY. PLEASE USE EXTREME CAUTION;"

(4) The statement: "FOR MEDICAL USE ONLY" if the package contains an amount of THC that exceeds the level allowed for adult-use cannabis goods, as specified in section 17304;

(5) A list of all product ingredients in descending order of predominance by weight or volume. If any product ingredient contains subingredients, the list shall either:

(A) Include the common name of the ingredient followed by a parenthetical listing of all ingredients in descending order by weight or volume; or

(B) List all subingredients as individual ingredients in descending order of predominance; however,

(C) This subsection shall not apply to flavoring, which shall instead comply with title 21, Code of Federal Regulations, Part 101.22 (Rev. Jan. 2009), hereby incorporated by reference;

(6) For cannabis products containing an ingredient, flavoring, coloring, or an incidental additive that bears or contains a major food allergen, the word "contains," followed by a list of the applicable major food allergens. The list shall conform with the requirements for food allergen labeling set forth in 21 U.S.C. §343(w), paragraph (1)(A) or (1)(B);

(7) The names of any artificial colorings contained in the product;

(8) For edible cannabis products, the amount, in grams or milligrams, of sodium, sugar, carbohydrates, and total fat per serving;

(9) Instructions for use, such as the method of consumption or application, and any preparation necessary prior to use;

(10) The UID;

Department of Cannabis Control

(11) The batch or lot number; and

(12) The statement: “KEEP REFRIGERATED” or “REFRIGERATE AFTER OPENING,” as applicable, if the cannabis product is perishable or perishable after opening.

(b) The informational panel text shall be in a type size no smaller than 6 point and proportional to the size of the primary panel and container.

(c) Except for the information required by subsections (a)(1), (a)(10) and (a)(11), the requirements of subsection (a) may be fulfilled through the use of supplemental labeling, which may include, but is not limited to, a package insert, fold-out or booklet label, or a hanging tag.

(d) Cannabinoid content may be included on the informational panel. Cannabinoid content for manufactured cannabis products shall be labeled as specified in section 17407.

(e) Nothing in this section prohibits the inclusion of additional information on the informational panel provided that the label does not violate the requirements of section 17408.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§17407. Cannabinoid Content Labeling.

(a) Each package for retail sale of cannabis goods shall be labeled with the cannabinoid content on either the primary panel or an informational panel. For manufactured products, cannabinoid content may be included on the label prior to release to a distributor or it may be added to the label at the distribution premises after issuance of a regulatory compliance testing Certificate of Analysis for the batch as described in subsection (d).

(b) Cannabinoid content labeling shall include the following:

(1) For an edible product or a cannabis concentrate for which the manufacturer has established serving designations, THC and CBD content expressed in milligrams per serving and milligrams per package.

(2) For a topical cannabis product or a cannabis concentrate without serving designations, THC and CBD content expressed in milligrams per package.

(3) For nonmanufactured cannabis goods, Total THC content expressed as a percentage.

(4) Packages of infused pre-rolls shall be labeled with either:

(A) The cannabinoid content in milligrams; or

(B) The cannabinoid content of the dried flower expressed as a percentage and the added cannabinoid content in milligrams.

(c) Cannabis goods labeled prior to testing must include the items specified in subsection (b), as appropriate to the product. For THC or CBD concentration that is less than two (2)

milligrams per serving or per package, the THC or CBD concentration may be stated as “<2 mg per serving” or “<2 mg per package.”

(d) Cannabis goods labeled at the distribution premises after issuance of the Certificate of Analysis shall comply with the following:

(1) Each package of cannabis goods shall be labeled with the cannabinoid content as specified in subsection (b) that is indicated on the Certificate of Analysis, as well as any other cannabinoid that is five (5) percent or greater of the total cannabinoid content;

(2) Labeled cannabinoid content shall reflect the amount indicated on the Certificate of Analysis. The amount may be rounded to the nearest whole number, except that packages shall not be labeled with an amount greater than the allowable THC limits. If the THC or CBD content of a manufactured cannabis product is indicated on the Certificate of Analysis as “Not Detected” or “<LOQ,” the cannabinoid content shall be labeled as “0 mg” or “<2 mg;”

(3) The cannabinoid content label shall be affixed to the outermost packaging of the cannabis goods and shall not obscure any other label information.

(e) Nothing in this section precludes the labeling of terpenes or additional cannabinoid content on the cannabis goods, provided that the information is verified by the Certificate of Analysis.

Authority cited: Sections 26013 and 26130, Business and Professions Code. Reference: Section 26120, Business and Professions Code.

§17408. Labeling Restrictions.

(a) Cannabis goods labeling shall not contain any of the following:

(1) The name of a California city, county, or city and county, including any similar name that is likely to mislead consumers as to the origin of the cannabis contained therein, unless one hundred percent of the cannabis contained therein was produced in that city, county, or city and county. For purposes of this subsection, a cannabis plant is considered to have been produced within a city, county, or city and county if it was cultivated within that boundary starting from the time the plant was no taller or wider than 18 inches.

(2) Content that is, or is designed to be, attractive to individuals under the age of 21, as specified in section 15040(a)(2) and (3).

(3) Any health-related statement that is untrue or misleading. Any health-related statement must be supported by the totality of publicly available scientific evidence (including evidence from well-designed studies conducted in a manner which is consistent with generally recognized scientific procedures and principles), and for which there is significant scientific agreement among experts qualified by scientific training and experience to evaluate such claims.

(4) If the product is an edible cannabis product, a picture of the product contained therein.

(5) Any information that is false or misleading. For purposes of this section, false and misleading information includes, but is not limited to:

(A) Any statement or indication that the cannabis or cannabis product is organic, unless the National Organic Program (section 6517 of the federal Organic Foods Production Act of 1990 (7 U.S.C. section 6501 et seq.)) authorizes organic designation and certification for cannabis and the cannabis or cannabis product meets the requirements for that designation and certification. This includes use of the word “organic” or variants in spelling such as “organix” on the labeling, except for use of the term “organic” in the ingredient statement on the informational panel of a cannabis product in compliance with the requirements of the programs established pursuant to Business and Professions Code section 26062.

(B) Any statement or indication that the cannabis or cannabis product is “OCal,” “OCal certified,” or made with “OCal cannabis,” if the cannabis or cannabis product has not been cultivated, handled, processed, or manufactured in compliance with the requirements of the programs established pursuant to Business and Professions Code section 26062.

(6) Any statement or indication of an appellation of origin if the cannabis or cannabis product does not meet the requirements of the program established pursuant to Business and Professions Code section 26063.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26062.5, 26063, 26120, 26121 and 26154, Business and Professions Code.

§17409. Statement of Characteristic Anticipated Effects.

(a) A cannabis good may include information on the characteristic anticipated effects of the cannabis good if the licensee has substantiation that the information is truthful and not misleading. Such information may be located on the informational panel of the label or the supplemental labeling with the package. For purposes of this section, “characteristic anticipated effect” includes any physiological effect (a temporary effect on the body related to the consumption of cannabis goods) that is common to or expected from the particular cannabis strain, but excludes any claim of health benefits (i.e., claims of therapeutic action as a result of the consumption of cannabis goods).

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26120 and 26130, Business and Professions Code.

§17410. Universal Symbol.

(a) The symbol established pursuant to Business and Professions Code section 26130 shall replicate the following in form:

Department of Cannabis Control

- (b) The symbol shall be black or white in color. The symbol shall be made conspicuous by printing the symbol on a contrasting color.
- (c) The symbol shall be no smaller in height than one-half (0.5) inch except as allowed under subsection (d).
- (d) A cannabis vape cartridge or integrated cannabis vaporizer shall bear a universal symbol in a size no smaller than one-quarter (0.25) inch wide by one-quarter (0.25) inch high that is engraved, printed, or affixed with a sticker.
- (e) The symbol shall not be altered or cropped in any way other than to adjust the sizing for placement on the primary panel.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26120, 26121 and 26130, Business and Professions Code.

Article 4. Packaging

§17411. Packaging.

- (a) A package used to contain a cannabis good shall comply with the following requirements:
- (1) The package shall protect the cannabis good from contamination and shall not expose the good to any toxic or harmful substance.
 - (2) The package shall be tamper-evident, which means that the packaging is sealed so that the contents cannot be accessed without obvious destruction of the seal upon initial opening.
 - (3) If the cannabis good has more than one serving, the package shall be resealable.
 - (4) The package shall not imitate any package used for products typically marketed to children.
 - (5) If the cannabis good is an edible product, the package shall be opaque.
 - (6) Notwithstanding subsection (a)(5), cannabis beverages may be packaged in glass containers that are clear or any color.
 - (7) The package shall be child-resistant, as described in section 17412.

Authority: Sections 26013 and 26130, Business and Professions Code. Reference: Sections 26120 and 26121, Business and Professions Code.

§17412. Child-Resistant Packaging Requirements.

- (a) A package containing cannabis or cannabis products transferred to a distributor for retail sale shall be child-resistant, as follows:
- (1) The package for an edible product, an orally consumed concentrate, or a suppository shall be child-resistant for the life of the product. A package that contains more than a single serving is not required to be child-resistant if each individual serving is packaged in child-resistant packaging.

Department of Cannabis Control

(2) Cannabis or a cannabis product intended to be inhaled or a cannabis product that is applied topically may utilize packaging that is child-resistant only until first opened, if the package is labeled with the statement: “This package is not child-resistant after opening.”

(b) The following packages are considered child-resistant for purposes of this article:

(1) Any package that has been certified as child-resistant under the requirements of the Poison Prevention Packaging Act of 1970 Regulations (16 C.F.R. § 1700.15(b)(1)) (Rev. July 1995), which is hereby incorporated by reference.

(2) A bottle sealed with a pry-off, metal crown, cork-style bottle cap, provided that the bottle contains only a single serving.

(3) Plastic packaging that is at least four (4) mils thick and heat-sealed without an easy-open tab, dimple, corner, or flap, provided that the package contains a cannabis product described in subsection (a)(2) or a cannabis product that is only a single serving.

Chapter 12. Enforcement

Article 1. Authority

§17800. Right of Access.

(a) The Department and its authorized representatives, for purposes of inspection, investigation, review, or audit, shall have full and immediate access to:

(1) Enter any premises licensed by the Department.

(2) Inspect and test any vehicle or equipment possessed by, in control of, or used by a licensee or their agents and employees for the purpose of conducting commercial cannabis activity.

(3) Test any cannabis goods or cannabis-related materials or products possessed by, in control of, or used by a licensee or their agents and employees for the purpose of conducting commercial cannabis activity.

(4) Copy any materials, books, or records of any licensee or their agents and employees.

(b) Failure to cooperate with and participate in any Department investigation pending against the licensee may result in a licensing violation subject to discipline. This subsection shall not be construed to deprive a licensee of any privilege guaranteed by the Fifth Amendment to the Constitution of the United States, or any other constitutional or statutory privileges. This subsection shall not be construed to require a licensee to cooperate with a request that would require the licensee to waive any constitutional or statutory privilege or to comply with a request for information or other matters within an unreasonable period of time in light of the time constraints of the licensee's business. Any constitutional or statutory privilege exercised by the licensee shall not be used against the licensee in a regulatory or disciplinary proceeding against the licensee.

(c) Prior notice of an inspection, investigation, review, or audit is not required.

Department of Cannabis Control

(d) Any inspection, investigation, review, or audit of a licensed premises shall be conducted anytime the licensee is exercising privileges under the license, or as otherwise agreed to by the Department and the licensee or its agents, employees, or representatives.

(e) If the licensed premises is not accessible because access is only available by going through another licensed premises and the licensee occupying the other licensed premises denies the Department access, the licensees shall both be held responsible and subject to discipline.

Authority: Section 26013, Business and Professions Code. Reference: Sections 26013, 26015 and 26160, Business and Professions Code; and Section 11181, Government Code.

Article 2. Compliance and Enforcement Actions

§17801. Notice to Comply.

(a) The Department may issue a Notice to Comply to a licensee for violation(s) of the Act or this division discovered during an investigation or audit or observed during an inspection.

(b) The Notice to Comply shall be in writing and describe the nature and facts of each violation, including a reference to the statute or regulation violated, and may indicate the manner in which the licensee must correct the violation(s) to achieve compliance.

(c) The Department may serve the Notice to Comply personally, by email, or by mail to the licensee or an employee, agent, or person delegated by the licensee to accept notice.

(d) The licensee shall sign and return the Notice to Comply and describe how compliance was achieved within 30 calendar days after the date of personal service or the date of emailing or mailing of the notice or a different date specified by the Department. The Department may also require the licensee to provide a plan for review and approval by the Department on a case-by-case basis.

(e) Failure to correct the violation(s) in the Notice to Comply may result in disciplinary action.

Authority: Section 26013, Business and Professions Code; Reference: Sections 26012 and 26018, Business and Professions Code.

§17801.1. Notice of Violation.

(a) Until October 1, 2021, the Department may issue a Notice of Violation to a licensee for violation(s) of the Act or this division that shall inform the licensee of:

- (1) The violation(s) alleged;
- (2) The proposed fine amount; and
- (3) The licensee's right to request a hearing pursuant to subsection (b).

Department of Cannabis Control

(b) Within 30 calendar days after issuance by the Department, a licensee may appeal a Notice of Violation by submitting a written request for an informal hearing by mail to the Department of Cannabis Control, Legal Affairs Division, 2920 Kilgore Road, Rancho Cordova, CA 95670, or by email to appeals@cannabis.ca.gov. The request shall include the following:

- (1) The licensee's name, mailing address, and daytime phone number;
- (2) The license number issued by the Department;
- (3) A copy of the Notice of Violation; and
- (4) A clear and concise statement of the basis of the appeal.

(c) If the licensee fails to submit a timely request for hearing pursuant to subsection (b), the Notice of Violation is not appealable and the Department may proceed upon the noticed violation(s) without a hearing.

(d) A hearing requested to appeal a Notice of Violation will be scheduled and conducted in accordance with chapter 5 (commencing with section 11500) of part 1 of division 3 of the Government Code.

(e) For all written requests for a hearing submitted by licensees and received by the Department prior to October 1, 2021, with hearings scheduled to take place on or after October 1, 2021, the following will occur:

- (1) Informal hearing proceedings noticed prior to October 1, 2021, shall be converted to adjudicative proceedings under chapter 5 (commencing with section 11500) of part 1 of division 3 of the Government Code.
- (2) Any scheduled informal hearings will be vacated, and a new hearing date, location and time will be noticed by the Department.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26031 and 26031.5, Business and Professions Code.

§17801.5. Embargo of Cannabis or Cannabis Products.

(a) The Department may embargo cannabis or cannabis products to prevent their sale, disposal, or removal from the location when the Department has probable cause to believe the cannabis or cannabis products are adulterated or misbranded or the sale would otherwise be in violation of the Act or this division.

(b) To embargo cannabis or cannabis products, the Department shall:

- (1) Provide initial notice to the licensee or product owner that the cannabis or cannabis products are subject to embargo and the reason for the embargo. Initial notice may be oral or written and may be provided in person or by telephone, mail, facsimile transmission, email, or other electronic means;
- (2) Affix a tag or marking to the cannabis or cannabis products, or component thereof, subject to embargo; and
- (3) Provide an inventory of the embargoed items to the licensee or product owner.

Department of Cannabis Control

(c) The Department shall provide a supplemental written notice to the licensee or product owner of the embargoed items that includes the following:

- (1) The factual and legal bases for the embargo;
- (2) A description of the cannabis or cannabis products under embargo;
- (3) A request for a written plan to address the items under embargo and the issue(s) that resulted in the embargo;
- (4) A summary of the proceedings for condemnation in accordance with chapter 5 (commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code;
- (5) Notification that the embargoed items cannot be removed from embargo, sold, or disposed of without authorization of the Department or a court; and
- (6) The penalty for violation of the embargo.

(d) The licensee or product owner may submit a written plan to the Department that describes how the licensee or product owner will address the items under embargo and the issue(s) that resulted in the embargo.

(1) If the Department determines that the plan will resolve the issue(s) that resulted in the embargo, and that all of the provisions of the Act and this division can be complied with, the Department will approve the plan and supervise the completion of the plan.

(2) If the Department cannot approve the plan, or the Department does not receive a response from the licensee within seven (7) calendar days after providing the notice described in subsection (c), the Department may initiate condemnation proceedings in accordance with Business and Professions Code section 26039.3(f).

(e) A licensee or product owner or their authorized representative may agree in writing to the voluntary condemnation and destruction of the cannabis and cannabis products subject to embargo. Destruction and disposal of the cannabis or cannabis products shall be at the licensee or product owner's expense and shall be conducted with the approval of and under the supervision of the Department.

(f) A licensee or product owner shall not remove the tag or marking from cannabis or cannabis products under embargo. A licensee or product owner shall not undertake corrective action or destruction of the items under embargo unless the Department has provided written approval and removed the embargo tag.

(g) A licensee or product owner shall not remove from embargo, sell, or dispose of any cannabis or cannabis products under embargo without written permission of the Department or a court. Each item removed, sold, or disposed of without written permission of the Department or a court constitutes a separate violation of the Act.

(h) A licensed cultivator or a microbusiness authorized to engage in cultivation may request permission to continue cultivation or harvesting of cannabis under embargo. The request shall be made to the Department in writing at compliance@cannabis.ca.gov and shall specify the cultivation or harvesting activities in which the licensee requests to engage. The Department may, in its sole discretion, authorize and impose conditions on

the continued cultivation or harvesting of the cannabis under embargo.

(i) Cannabis and cannabis products found, cultivated, processed, produced, or manufactured at an unlicensed location, or derived from an unlicensed source, cannot be corrected and shall be destroyed.

Authority: Section 26013, Business and Professions Code. Reference: Section 26039.3, Business and Professions Code.

§17802. Citations; Orders of Abatement; Administrative Fines.

(a) The Department may issue citations containing orders of abatement and fines against a licensee, or an unlicensed person, for any acts or omissions that are in violation of any provision of the Act or this division, or any another California laws applicable to cannabis licensees including, but not limited to, state labor law.

(b) The Department may issue a citation under this section to a licensee for a violation of a term or condition contained in a decision placing that licensee on probation.

(c) Each citation may contain either order(s) of abatement, monetary fine(s), or both, and shall:

(1) Be in writing and describe with particularity the nature of the violation, including a reference to the statute or regulation determined to have been violated;

(2) Fix a reasonable time for abatement of the violation if the citation contains an order of abatement;

(3) Assess an administrative fine of up to \$5,000 per violation, per day, by a licensee and up to \$30,000 per violation, per day, by an unlicensed person if the citation contains a fine;

(4) Be served personally or by certified mail; and

(5) Inform the licensee or person that they may request an informal conference, or contest the citation, or both, pursuant to section 17803.

(d) Fines issued with a citation must be paid within 30 calendar days after service of the citation, unless the fine is contested. If a citation is not appealed and the fine is not paid, the full amount of the assessed fine shall be added to the fee for renewal of the license. A license shall not be renewed without payment of the renewal fee and fine.

(e) The amount of any fine assessed by the Department under this section shall take into consideration the factors listed in Business and Professions Code section 26031.5(a)(1)-(3).

(f) Nothing in this section shall be deemed to prevent the Department from filing an accusation to suspend or revoke a license where grounds for such suspension or revocation exist.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26030 and 26031.5, Business and Professions Code.

§17803. Contesting Citations.

(a) A cited licensee or person may, within 30 calendar days after service of the citation, contest the citation by submitting to the Department a written request for a hearing, conducted in accordance with chapter 5 (commencing with section 11500) of part 1 of division 3 of the Government Code. If a hearing is not requested, it is waived and payment of a fine will not constitute an admission of the violation charged.

(b) In addition to requesting a hearing provided for in subsection (a), the cited licensee or person may, within 15 calendar days after service of the citation, submit a written request for an informal conference with the Department regarding the acts or omissions charged in the citation.

(c) The Department shall, within 15 calendar days after receipt of the written request, hold an informal conference with the cited licensee or person and/or their legal counsel or authorized representative.

(d) At the conclusion of the informal conference, the Department may affirm, modify, or dismiss the citation, including any fines levied or orders of abatement issued. A written decision stating the reasons for the decision shall be mailed to the cited licensee or person and their legal counsel, if any, within 15 calendar days after the date of the informal conference. This decision shall be deemed to be a final order with regard to the citation issued, including the levied fine and the order of abatement, if any.

(e) If the citation is dismissed, any request for a hearing shall be deemed withdrawn. If the citation is affirmed or modified, the cited licensee or person may either withdraw the request for a hearing or proceed with the administrative hearing process.

(f) If the citation, including any fines levied or orders of abatement issued, is modified, the citation originally issued shall be considered withdrawn and new citation issued. If a hearing is requested for the subsequent citation, it shall be requested within 30 calendar days after issuance of the citation.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26016 and 26031.5, Business and Professions Code.

§17804. Citation Compliance.

(a) If a citation with an order of abatement is issued, the time to abate or correct a violation as provided for in the order of abatement may be extended for good cause. If a cited licensee or person who has been issued an order of abatement is unable to complete the correction within the time set forth in the citation because of conditions beyond their control after the exercise of reasonable diligence, the cited licensee or person may request an extension of time from the Department in which to complete the correction. The request must be in writing and made within the time set forth for abatement.

(b) When a citation is not contested, or if it is contested and the cited licensee or person does not prevail, failure to abate the violation within the time allowed or pay a fine that was imposed shall constitute a separate violation.

Department of Cannabis Control

(c) Failure to timely comply with an order of abatement or pay a fine that was imposed may result in further action being taken by the Department, including, but not limited to, suspension or revocation of a license, or further administrative or civil proceedings.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012 and 26031.5, Business and Professions Code.

§17805. Minor Decoys.

(a) Peace officers may use a person under 21 years of age to attempt to purchase cannabis goods, for the purposes of enforcing the Act and to apprehend licensees, employees, or agents of licensees who sell cannabis goods to minors. For purposes of this section, a “minor” is a person under 21 years of age.

(b) The following minimum standards shall apply to the use of a minor decoy:

(1) At the time of the operation, the decoy shall be less than 20 years of age.

(2) A decoy shall either carry identification showing the decoy's correct date of birth or carry no identification. A decoy who carries identification shall present it upon request to any seller of cannabis goods.

(3) A decoy shall truthfully answer any questions about their age.

(4) Following any completed sale, but not later than the time a citation, if any, is issued, the peace officer directing the decoy shall make a reasonable attempt to enter the licensed premises or respond to the location where the licensee is located and have the minor decoy who purchased cannabis goods identify the alleged seller of the cannabis goods.

Authority cited: Sections 26013 and 26140, Business and Professions Code. Reference: Section 26140, Business and Professions Code.

§17806. Attire and Conduct.

(a) No licensee shall allow the following:

(b) Employment or use of any person in the sale or service of cannabis goods in or upon the licensed premises while such person is unclothed or in such attire, costume, or clothing as to expose to view any portion of the breast below the top of the areola or of any portion of the pubic hair, anus, cleft of the buttocks, vulva, or genitals.

(c) Employment or use of the services of any host or other person to mingle with the patrons while such host or other person is unclothed or in such attire, costume, or clothing as described in subsection (a).

(d) Encouraging or permitting any person on the licensed premises to touch, caress, or fondle the breasts, buttocks, anus, or genitals of any other person.

(e) Permitting any employee or person to wear or use any device or covering, exposed to view, which simulates the breast, genitals, anus, pubic hair, or any portion thereof.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

§17807. Entertainers and Conduct.

(a) Live entertainment is permitted on a licensed premises, except that no licensee shall permit any person to perform acts of or acts that simulate:

(1) Sexual intercourse, masturbation, sodomy, bestiality, oral copulation, flagellation, or any sexual acts that are prohibited by law.

(2) Touching, caressing, or fondling of the breast, buttocks, anus, or genitals.

(3) Displaying of the buttocks, breasts, pubic hair, anus, vulva, or genitals.

(b) No licensee shall permit any person to use artificial devices or inanimate objects to depict any of the prohibited activities described in this section.

(c) No licensee shall permit any person to remain in or upon the licensed premises who exposes to public view any portion of their breast, buttocks, genitals, or anus.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26011.5, Business and Professions Code.

Article 3. Disciplinary Actions

§17808. Additional Grounds for Discipline.

The following include, but are not limited to, additional grounds that constitute a basis for disciplinary action:

(a) Failure to pay a fine imposed by the Department or agreed to by the licensee.

(b) Failure to take reasonable steps to correct objectionable conditions on the licensed premises, including the immediately adjacent area that is owned, leased, or rented by the licensee, that constitute a nuisance, within a reasonable time after receipt of notice to make those corrections, under Penal Code section 373a.

(c) Failure to take reasonable steps to correct objectionable conditions that occur during operating hours on any public sidewalk abutting a licensed premises and constitute a nuisance, within a reasonable time after receipt of notice to correct those conditions from the Department. This subsection shall apply to a licensee only upon written notice to the licensee from the Department. The Department shall issue this written notice upon its own determination, or upon a request from the local law enforcement agency in whose jurisdiction the licensed premises is located, that is supported by substantial evidence that persistent objectionable conditions are occurring on the public sidewalk abutting the licensed premises. For purposes of this subsection:

(1) "Any public sidewalk abutting a licensed premises" means the publicly owned, pedestrian-traveled way, not more than 20 feet from the licensed premises, that is

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 204 of 214

located between a licensed premises, including any immediately adjacent area that is owned, leased, or rented by the licensee, and a public street.

(2) “Objectionable conditions that constitute a nuisance” means disturbance of the peace, public intoxication, drinking alcoholic beverages in public, smoking or ingesting cannabis or cannabis products in public, harassment of passersby, gambling, prostitution, loitering, public urination, lewd conduct, drug trafficking, or excessive loud noise.

(3) “Reasonable steps” means all of the following:

(A) Calling the local law enforcement agency. Timely calls to the local law enforcement agency that are placed by the licensee or their agents or employees shall not be construed by the Department as evidence of objectionable conditions that constitute a nuisance.

(B) Requesting that those persons engaging in activities causing objectionable conditions to cease those activities, unless the licensee or their agents or employees feel that their personal safety would be threatened in making that request.

(C) Making good faith efforts to remove items that facilitate loitering, such as furniture, except those structures approved or permitted by the local jurisdiction. The licensee shall not be liable for the removal of those items that facilitate loitering.

(4) When determining what constitutes “reasonable steps,” the Department shall consider site configuration constraints related to the unique circumstances of the nature of the business.

(5) Even after correcting the objectionable conditions that constitute a nuisance, the licensee has a continuing obligation to meet the requirements of subsections (b) and (c), and failure to do so shall constitute grounds for disciplinary action.

(d) Knowingly permitting the illegal sale, or negotiations for the illegal sale, of controlled substances or dangerous drugs upon the licensed premises. Successive sales, or negotiations for sales, over any continuous period of time shall be deemed evidence of permission. As used in this section, “controlled substances” has the same meaning as in Health and Safety Code section 11007, and “dangerous drugs” has the same meaning as in Business and Professions Code section 4022.

(e) If the licensee has employed or permitted any person to solicit or encourage others, directly or indirectly, to buy that person's cannabis goods in the licensed premises under any commission, percentage, salary, or other profit-sharing plan, scheme, or conspiracy.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26011.5, 26012, 26030 and 26031, Business and Professions Code.

§17809. Disciplinary Actions.

(a) When an accusation recommending disciplinary action against a licensee has been filed pursuant to Business and Professions Code section 26031, the accusation shall be served on the licensee in accordance with Government Code section 11505.

(b) A hearing shall be conducted in accordance with the provisions of chapter 5

Department of Cannabis Control

Medicinal and Adult-Use Commercial Cannabis Regulations (November 2022) Page 205 of 214

(commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code to determine if cause exists to take action against the licensee. At the hearing, the Department shall have all of the powers granted by the statutes cited above and by the Business and Professions Code.

(c) If a hearing on an accusation against a licensee results in a finding that the licensee has committed any of the acts or omissions constituting grounds for disciplinary action, the Department may order the license revoked, suspended outright for a specified period of time, or suspended on probationary restriction for a specified period of time, including terms and conditions of probation the Department considers appropriate on the basis of its findings, impose a fine, or any combination thereof. The Department may also issue other lawful orders it considers appropriate on the basis of its findings.

(d) An accusation may be terminated by written stipulation at any time prior to the conclusion of the hearing on the accusation. If a licensee submits a proposed stipulation to the Department for its consideration and the Department subsequently declines to accept the proposed stipulation, the Department shall not thereafter be disqualified from hearing evidence on the accusation and taking action thereon as authorized in this section.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26012, 26031 and 26034, Business and Professions Code.

§17810. Interim Suspension.

(a) Pursuant to Business and Professions Code section 494, the Department may petition for an interim order to suspend any license or impose licensing restrictions upon any licensee if:

(1) The licensee has engaged in acts or omissions constituting a violation of the Business and Professions Code or this division, or been convicted of a crime substantially related to the licensed activity, and

(2) Permitting the licensee to continue to engage in the licensed activity would endanger the public health, safety, or welfare.

(b) An interim order for suspension or restrictions may be issued with notice, as follows:

(1) The Department shall provide the licensee with at least 15 days' notice of the hearing on the petition for an interim order.

(2) The notice shall include all documents submitted in support of the petition.

(c) An interim order for suspension or restrictions may be issued without notice to the licensee if it appears from the Department's petition and supporting documents that serious injury would result to the public before the matter could be heard on notice.

(1) The licensee shall be entitled to a hearing on the petition within 20 days after issuance of the initial interim order.

(2) Notice of the hearing shall be provided to the licensee by the Department within two days after issuance of the initial interim order.

Department of Cannabis Control

(3) The licensee shall receive all documents in support of the petition.

(d) The Department shall file an accusation, pursuant to chapter 5 (commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code, within 15 calendar days after issuance of the interim order.

Authority: Section 26013, Business and Professions Code; Reference: Sections 494, 26011.5, 26012 and 26031, Business and Professions Code.

§17813. Enforcement Costs.

(a) In any order in resolution of a disciplinary proceeding for suspension or revocation of a license, the Department may request the administrative law judge to direct a licensee found to have committed a violation or violations of the Act or this division to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

(b) A certified copy of the actual costs, or a good faith estimate of costs where actual costs are not available, signed by the Department's designated representative shall be prima facie evidence of reasonable costs of investigation and prosecution of the case. The costs shall include the amount of investigative and enforcement costs up to the date of the hearing, including, but not limited to, charges imposed by the Attorney General.

(c) The administrative law judge shall make a proposed finding of the amount of reasonable costs of investigation and prosecution of the case when requested pursuant to subsection (a). The Department may reduce or eliminate the cost award, or remand to the administrative law judge where the proposed decision fails to make a finding on costs requested pursuant to subsection (a).

(d) Where an order for recovery of costs is made and timely payment is not made as directed in the decision, the Department may enforce the order for repayment in any appropriate court. This right of enforcement shall be in addition to any other rights the Department may have to recover costs.

(e) In any action for recovery of costs, proof of the decision shall be conclusive proof of the validity of the order of payment and the terms for payment.

(f) Except as provided in subsection (g), the Department shall not renew or reinstate any license of a licensee who has failed to pay all of the costs ordered under this division.

(g) Notwithstanding subsection (f), the Department may, in its discretion, conditionally renew or reinstate for a maximum of one year the license of any licensee who demonstrates financial hardship and enters into a formal agreement with the Department for reimbursement within that one-year period for the unpaid costs.

(h) Nothing in this section shall preclude the Department from including recovery of the costs of investigation and enforcement of a case in any stipulated settlement.

§17814. Disciplinary Guidelines.

In reaching a decision on a disciplinary action under the Act and the Administrative Procedure Act (Govt. Code section 11400 et seq.), the Department shall consider the disciplinary guidelines entitled “Department of Cannabis Control Disciplinary Guidelines for All Commercial Cannabis Licenses Amended July 2022,” which are hereby incorporated by reference. Deviation from these guidelines and orders, including the standard terms of probation, is appropriate where the Department in its sole discretion determines that the facts of the particular case warrant such a deviation (e.g., the presence of mitigating factors, the age of the case, or evidentiary problems).

Article 4. Emergency Decision and Orders

§17815. Emergency Decision and Order.

(a) The Department may issue an emergency decision and order for temporary, interim relief to prevent or avoid immediate danger to the public health, safety, or welfare. Such circumstances include, but are not limited to, the following:

- (1) The Department has information that cannabis goods at a licensee's premises have a reasonable probability of causing serious adverse health consequences or death.
- (2) To prevent the sale, transfer, or transport of contaminated or illegal cannabis goods in possession of a licensee.
- (3) The Department observes or has information that conditions at a licensee's premises exist that present an immediate risk to worker or public health and safety.
- (4) To prevent illegal diversion of cannabis goods, or other criminal activity at a licensee's premises.
- (5) To prevent the destruction of evidence related to illegal activity or violations of the Act.
- (6) To prevent misrepresentation to the public, such as selling untested cannabis goods, providing inaccurate information about the cannabis goods or cannabis goods that have been obtained from an unlicensed person.

(b) Temporary, interim relief may include a suspension or administrative hold by one or more of the following:

- (1) An order temporarily suspending a license.
- (2) An order to segregate or isolate specific cannabis goods.
- (3) An order prohibiting the movement of cannabis goods to or from the premises.
- (4) An order prohibiting the sale of specific cannabis goods.
- (5) An order prohibiting the destruction of specific cannabis goods.

(c) The emergency decision and order issued by the Department shall include a brief explanation of the factual and legal bases of the emergency decision that justify the

Department of Cannabis Control

Department's determination that emergency action is necessary, and the specific actions ordered. The emergency decision and order shall be effective when issued or as otherwise provided by the decision and order.

(d) To issue an administrative hold that prohibits activity related to specified cannabis goods, the Department shall comply with the following:

(1) Provide notice of the administrative hold that includes a description of the cannabis goods subject to the administrative hold.

(2) Following notice, the Department shall identify the cannabis goods subject to the administrative hold in the track and trace system.

(e) A licensee subject to an administrative hold shall comply with the following:

(1) Within 24 hours after receipt of notice of the administrative hold, physically segregate all designated cannabis goods in a limited-access area of the licensed premises. The licensee shall ensure that all cannabis goods subject to the administrative hold are safeguarded and preserved in a manner that prevents tampering, degradation, or contamination.

(2) While the administrative hold is in effect, the licensee shall not sell, donate, transfer, transport, gift, or destroy the cannabis goods subject to the hold.

(3) A microbusiness licensee subject to an administrative hold may continue to cultivate any cannabis subject to an administrative hold. If the cannabis subject to the hold must be harvested, the licensee shall place the harvested cannabis into separate batches.

(4) A licensee may voluntarily surrender cannabis goods that are subject to an administrative hold. The licensee shall identify the cannabis goods being voluntarily surrendered in the track and trace system. Voluntary surrender shall not be construed to waive the right to a hearing or any associated rights.

(f) To issue a temporary suspension, the Department shall specify in the order that the licensee shall immediately cease conducting all commercial cannabis activities under its license, unless otherwise specified in the order.

(g) A microbusiness licensee subject to a temporary suspension may continue to cultivate cannabis at the licensed premises only as prescribed by the Department in the order. If the order permits the cannabis to be harvested, the licensee shall place the harvested cannabis into separate batches.

(h) The emergency decision and order for temporary, interim relief shall be issued in accordance with the following procedures:

(1) The Department shall give notice of the emergency decision and order and an opportunity to be heard to the licensee prior to the issuance, or effective date, of the emergency decision and order, if practicable.

(2) Notice and hearing under this section may be oral or written and may be provided by telephone, personal service, mail, facsimile transmission, electronic mail, or other electronic means, as the circumstances permit.

(3) Notice may be given to the licensee, any person meeting the definition of owner for

Department of Cannabis Control

the license, or to a manager or other personnel at the licensed premises.

(4) Upon receipt of the notice, the licensee may request a hearing within three (3) business days by submitting a written request for hearing to the Department through electronic mail, facsimile transmission, or other means. The hearing shall commence within five (5) business days after receipt of the written request for hearing, unless a later time is agreed upon by the Department and the licensee.

(5) The hearing may be conducted in the same manner as an informal conference under section 17803; however, the timeframes provided in section 17803 shall not apply to a hearing under this section. Pre-hearing discovery or cross-examination of witnesses is not required under this section.

(6) The emergency decision and order shall be affirmed, modified, or set aside as determined appropriate by the Department within five (5) business days after the hearing.

(i) Within ten (10) calendar days after the issuance or effective date of the emergency decision and order for temporary, interim relief, the Department shall commence adjudicative proceedings in accordance with chapter 5 (commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code to resolve the underlying issues giving rise to the temporary, interim relief.

(j) After formal proceedings are held pursuant to subsection (i), a licensee aggrieved by a final decision of the Department may appeal the decision to the Cannabis Control Appeals Panel pursuant to section 26043 of the Act.

(k) Notwithstanding administrative proceedings commenced pursuant to subsection (i), the licensee may obtain judicial review of the emergency decision and order pursuant to section 1094.5 of the Code of Civil Procedure in the manner provided in section 11460.80 of the Government Code without exhaustion of administrative remedies.

(l) The Department's authority provided by this section may be used in addition to any civil, criminal, or other administrative remedies available to the Department.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 26012, Business and Professions Code; and Sections 11460.10, 11460.20, 11460.30, 11460.40, 11460.50, 11460.60, 11460.70 and 11460.80, Government Code.

Article 5. Posting Notices of Suspension and Revocation

§17816. Posting of Notice of Suspension.

(a) A licensee whose license has been suspended shall conspicuously and continuously display a notice on the exterior of the licensee's premises for the duration of the suspension.

(b) The notice shall be 11 inches in length and 8.5 inches in width. The notice shall read:

(e) A licensee shall notify the Department by submitting the Licensee Notification and Request Form, Notifications and Requests Regarding Regulatory Compliance, DCC-LIC-028 (New 2/22), incorporated herein by reference, within 24 hours of discovering that the notice under subsection (b) has been removed or damaged to an extent that makes the notice illegible.

Authority cited: Section 26013, Business and Professions Code. Reference: Sections 26011.5 and 26012, Business and Professions Code.

§17817. Posting of Notice of Revocation.

(a) A person whose license has been revoked shall conspicuously display a notice on the exterior of the premises indicating that the license has been revoked. The notice shall remain continuously on the premises for at least 15 calendar days.

(b) The notice shall be 11 inches in length and 8.5 inches in width. The notice shall read:

NOTICE OF REVOCATION

The Department of Cannabis Control License(s) Issued For This
Premises Has Been
Revoked For Violation of State Law

(c) Advertising or posting signs to the effect that the premises has been closed, or that business has been suspended for any reason other than the reason provided in the decision revoking the license, shall be deemed a violation of this section.

(d) If the Department revokes a license at a licensed premises that has one or more licenses at the location that will remain active after the revocation, the revocation notice shall remain posted for a period of at least 15 calendar days.

(e) Failure to display the notice for the time required in this section shall be a violation of this section and may result in additional disciplinary action.

(f) A person whose license has been revoked shall notify the Department by submitting the Licensee Notification and Request Form, Notifications and Requests Regarding

Department of Cannabis Control

Regulatory Compliance, DCC-LIC-028 (New 2/22), incorporated herein by reference, within 24 hours of discovering that the notice under subsection (b) has been removed or damaged to an extent that makes the notice illegible.

Chapter 13. Other Provisions

Article 1. Research Funding

§17900. Eligibility.

(a) Only public universities in California shall be eligible to be selected to receive funds disbursed pursuant to Revenue and Taxation Code section 34019(b).

(b) Subject to available funding, the amounts to be disbursed to the university or universities will not exceed the sum of ten million dollars (\$10,000,000) for each fiscal year, ending with the 2028-2029 fiscal year.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 34019, Revenue and Taxation Code.

§17901. Request for Proposals.

(a) A Request for Proposal (RFP) is the document issued by the Department to notify all eligible fund recipients of the following, at a minimum:

- (1) The funding available for research related to the Act or this division;
- (2) Disbursement of funds to eligible applicants through a review and selection process, including the criteria that will be used for review and selection;
- (3) The specified timeframes for the proposal review and selection process, including the deadline for submission of proposals;
- (4) Proposal requirements, including necessary documentation;
- (5) Any priorities or restrictions imposed upon the use of the funds;
- (6) The governing statutes and regulations; and
- (7) The name, address, and telephone number of a contact person within the Department who can provide further information regarding the process for submission of proposals.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 34019, Revenue and Taxation Code.

§17902. Selection Process and Criteria.

(a) The selection process shall involve eligible proposals timely received by the Department, in response to an applicable RFP, or similar notice.

(b) The Department will consider only one proposal per applicant for a given research

Department of Cannabis Control

project. Applicants may submit more than one proposal if the proposals are for separate and distinct research projects or activities.

(c) The Department will make a selection for funding based on criteria including, but not limited to:

(1) The extent to which the proposed project is designed to achieve objectives specified in Revenue and Taxation Code section 34019(b).

(2) The extent to which the proposed project is designed to achieve measurable outcomes, and the clarity of the measures for success, including, for research-based objectives, the scientific and technical merit of the proposed project as evaluated by relevant experts.

(3) The extent to which the proposed project is feasible, demonstrated by:

(A) A timeline for project completion, including readiness; and

(B) Budget detail.

(4) Qualifications of the staff who will be assigned to or working on the proposed project.

(5) Any other criteria to determine the proposed project's efficacy in evaluating the implementation and effect of the Act.

(d) Applicants selected for funding will be notified of the selection and amount of funding in writing.

(e) The Department's selection decision is final and not subject to appeal.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 34019, Revenue and Taxation Code.

§17903. Release of Funds.

(a) The Department shall not cause funds to be disbursed until the recipient has executed a Grant Agreement and any other required documents.

(b) Selected recipients shall receive a single disbursement of funds for the duration of the research project.

(c) Funds released to the recipient that will be used for the purchase of any equipment related to the research project shall, at a minimum, meet the following conditions:

(1) Prior to the purchase of any equipment, the recipient shall obtain written approval from the Department.

(2) Receipts or other documentation for the purchase of any equipment shall be provided to the Department immediately upon purchase and request and retained pursuant to section 17904.

(d) Any funds that are not used prior to the completion of the research project shall be forfeited.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 34019, Revenue and Taxation Code.

§17904. Reports to the Department.

(a) The recipient of funds shall provide regular performance reports to the Department in the following manner, unless otherwise specified in the Grant Agreement:

(1) At monthly intervals for research projects with an estimated completion time not exceeding one year.

(2) At quarterly intervals for research projects with an estimated completion time exceeding one year.

(b) Performance reports shall include, at a minimum:

(1) A detailed, estimated time schedule of completion for the research project;

(2) A description of any measurable outcomes, results achieved, or other completed objectives of the research project;

(3) A description of remaining work to be completed;

(4) A summary of expenditures of the funds and statement of whether the research project is meeting the proposed budget. If not, the reasons for any discrepancies and a list of actions that will be taken to ensure completion of the research project; and

(5) Any changes to the information provided in the proposal, including, but not limited to, change in staff.

Authority cited: Section 26013, Business and Professions Code. Reference: Section 34019, Revenue and Taxation Code.

§17905. Research Records.

Recipients shall retain all research and financial data necessary to substantiate the purposes for which the funds were spent for the duration of the funding, and for a period of seven years after completion of the research project. Recipients shall provide this documentation to the Department upon request.

DEPARTMENT OF CANNABIS CONTROL

DISCIPLINARY GUIDELINES FOR ALL COMMERCIAL CANNABIS LICENSES

AMENDED
JULY 2022

TABLE OF CONTENTS

I. INTRODUCTION

II. FACTORS TO BE CONSIDERED IN DETERMINING PENALTIES

III. DISCIPLINARY GUIDELINES

IV. STANDARD CONDITIONS OF PROBATION

V. INTRODUCTORY LANGUAGE AND OPTIONAL TERMS AND CONDITIONS OF PROBATION

I. INTRODUCTION

Pursuant to Business and Professions Code section 26011.5, the protection of the public is of the highest priority for the Department of Cannabis Control (Department). In keeping with its mandate to protect the public, the Department has adopted these recommended uniform guidelines in order to promote consistency in disciplinary orders for similar offenses on a statewide basis. This document is intended for use by those involved in the administrative disciplinary process (e.g., Administrative Law Judges (ALJ), Deputy Attorneys General (DAG), Department licensees and their legal counsel, and other interested parties), and may be revised from time to time, and distributed to interested parties upon request.

The Department requests that the suggested disciplinary orders contained in these guidelines be levied consistently and appropriately, based on the nature and seriousness of the violation(s) confirmed in an administrative action. The Department recognizes that mitigating or aggravating circumstances, in addition to other factors, may necessitate departure from these recommended orders and terms of probation. If there are any deviations from the guidelines, the Department requests that the ALJ hearing the matter include an explanation in the Proposed Decision so that the circumstances can be better understood and evaluated by the Department before final action is taken.

Additionally, these guidelines only apply to formal administrative disciplinary processes. These guidelines do not apply to other alternatives available to the Department, such as administrative citations and fines, except in cases where an Accusation has been filed for failure to pay an assessed administrative fine and/or comply with an order of abatement issued by the Department.

II. FACTORS TO BE CONSIDERED IN DETERMINING PENALTIES

In determining whether revocation, suspension, probation, fine, or a combination is to be imposed in a given case, factors such as the following should be considered:

1. Nature and gravity of the act(s), violations, offenses, or crime(s) under consideration.
2. Actual or potential harm to the public.
3. Actual or potential harm to any consumer.
4. Prior disciplinary and/or administrative record.
5. Number and/or variety of current violations.
6. Mitigating evidence.
7. Rehabilitation evidence, including but not limited to, a statement of rehabilitation containing any evidence that demonstrates fitness for licensure, or a certificate of rehabilitation under Penal Code section 4852.01.
8. In case of a criminal conviction, compliance with conditions of sentence and/or court-ordered probation.
9. Overall criminal record.
10. Time passed since the act(s) or offense(s) occurred.

11. If applicable, evidence of dismissal under Penal Code sections 1203.4, 1203.4a, 1203.41, or 1203.42.

12. Whether the conviction is a felony conviction based on possession or use of cannabis or cannabis products that would not be a felony if the person was convicted during the time of licensure.

III. DISCIPLINARY GUIDELINES

The Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA) specifies the offenses for which the Department may take disciplinary action. Following are samples of the codes and regulation numbers, titles of the offenses and the associated Department determined disciplinary recommendations. When filing an accusation, the Department or Office of the Attorney General are not limited to the violations listed herein. They may also cite any and all additional related statutes and regulations violated not listed below. The following is **not** a comprehensive list of potential violations and in no way, should limit the Department or the Attorney General's Office from asserting any relevant and applicable violation. The Department suggests that for cases with multiple violations, suspensions or other disciplines run concurrently. All standard terms of probation as stated in these Disciplinary Guidelines shall be included for all probations.

As used in these Disciplinary Guidelines, statutes and regulations are referenced as follows:

1. Business and Professions Code: (B&P)
2. Title 4, California Code of Regulations: (CCR)
3. Penal Code: (PC)

A. Violations and Fine Formula for all Distributor, Retailer, Microbusiness, Cannabis Event Organizer, Cannabis Event, Manufacturer, and Testing Laboratory Licenses.

The following Tier 1 through Tier 3 violations are samples of the codes and regulation numbers, titles of the offenses and the associated Department determined disciplinary recommendations for all license types, excluding cultivation licenses.

Fine Formula

In instances where the Department allows a fine to be paid, the following method will be used to calculate the fine.

Gross Revenue divided by **Number of Days Open During the Preceding 12 Months** = **Average Daily Sale Amount**

50% of the Average Daily Sale Amount multiplied by **Number of Days of the Suspension** = **Potential Fine Amount**

The books and records of the licensee shall be kept in such a manner that the gross revenue, average daily sale amount, and/or the loss of profits from commercial cannabis activity that the licensee would have suffered from a suspension can be determined with reasonable accuracy, and such books, records, and information shall be accessible to the Department to make an accurate and complete determination of any fine amount. The fine formula is a guide for calculating a fine amount and is not determinative of any assessed or final fine amount. The Department may in its sole discretion adjust the fine amount against any licensee to any amount within the minimum and maximum fine amounts, or to any amount exceeding the maximum fine amount for each license type. The factors the Department will consider in determining a fine amount include those factors under Section II of the Disciplinary Guidelines.

Minimum and Maximum Fine Amounts

The minimum and maximum fine amount is based on the tier the licensee falls into on the annual license fee schedule listed in 4 CCR § 15014. These fine amounts do not limit or supersede any fine amounts prescribed by statute, if the statutory fines exceed those amounts listed here. For instance, Business and Professions Code section 26160, subsection (f), provides that a licensee shall be subject to a citation and fine of up to thirty thousand dollars per individual violation, for a failure to maintain or provide records as required pursuant to that section. The minimum fine amount for any disciplinary action shall not be less than \$1,000.

Minimum and Maximum Fine Amounts for Testing Laboratory

Gross Revenue (\$ Max. Per License)	Minimum Fine to Maximum Fine
Less or equal to \$160,000	\$1,500 to \$6,000
More than \$160,000 and less or equal to \$320,000	\$3,000 to \$12,000
More than \$320,000 and less or equal to \$480,000	\$4,000 to \$16,000
More than \$480,000 and less or equal to \$800,000	\$6,500 to \$26,000
More than \$800,000 and less or equal to \$1.2 million	\$10,000 to \$40,000
More than \$1.2 million and less or equal to \$2.0 million	\$16,000 to \$64,000
More than \$2.0 million and less or equal to \$2.8 million	\$24,000 to \$96,000
More than \$2.8 million and less or equal to \$4.4 million	\$36,000 to \$144,000
More than \$4.4 million	\$56,000 to \$224,000

B. Violations and Fine Amounts for all Cultivation Licenses

The following violations in Table A and Table B below are samples of the codes and regulation numbers, titles of the offenses and the associated Department determined disciplinary recommendations for all cultivation licenses. Violations are designated as “Minor,” “Moderate,” and “Serious.”

“Serious.” Violations that preclude or significantly interfere with enforcement of any state law, or those violations that cause significant false, misleading, or deceptive business practices, potential for significant level of public or environmental harm, or for any violation that is a repeat of a Moderate violation that occurred within a two-year period and that resulted in an administrative civil penalty. All Serious violations are subject to license suspension or revocation. For Table A violations, the proposed fine range is \$1,001 - \$5,000, and for Table B violations, the proposed fine range is \$10,001 - \$30,000.

“Moderate.” Violations that undermine enforcement of any state law, are likely to cause public or environmental harm, or are a repeat of a Minor violation that occurred within a two-year period and resulted in an administrative civil penalty. For Table A violations, the proposed fine range is \$501 - \$1,000, and for Table B violations, the proposed fine range is \$1,001 - \$10,000.

“Minor.” Violations that are not likely to have an adverse effect on public safety or environmental health. For Table A violations, the proposed fine range is \$100 - \$500, and for Table B violations, the proposed fine range is \$100 - \$1,000.

Repeat violations may result in an escalation of violation class.

Table A and Table B shall be used to establish the initial level of severity of the referenced violations and the corresponding penalty range for “Serious,” “Moderate,” and “Minor” violation classes. For violations of other state laws, including state labor laws and related regulations, the Department shall utilize the definitions of “Serious,” “Moderate,” and “Minor” violations included above.

IV. STANDARD CONDITIONS OF PROBATION

The protection of the public is the highest priority of the Department. In disciplinary matters where probation has been imposed, the Department believes the conditions of probation will help ensure public protection and allow the probationer the opportunity to demonstrate rehabilitation. The following conditions of probation provide for consumer protection and establish a mechanism to monitor the rehabilitation progress of a probationer. Generally, the Department recommends a minimum of three (3) years' probation.

Introductory Language and Conditions 1-9 are required as follows:

1. OBEY LAWS

Respondent shall obey all state and local laws. A full and detailed account of any and all violations of law shall be reported by the respondent to the Department in writing within seventy-two (72) hours of occurrence. To permit monitoring of compliance with this condition, respondent shall submit completed fingerprint forms and fingerprint fees within 45 days of the effective date of the decision, unless previously submitted as part of the licensure application process.

CRIMINAL COURT ORDERS: If respondent, or an owner of the respondent, is under criminal court orders, including probation or parole, and the order is violated, this shall be deemed a violation of these probation conditions, and may result in the filing of an accusation and/or petition to revoke probation.

2. SUBMIT WRITTEN REPORTS

Respondent, during the period of probation, shall submit or cause to be submitted such written reports/declarations and verification of actions under penalty of perjury, as required by the Department, but no more frequently than once each calendar quarter. These reports/declarations shall contain statements relative to respondent's compliance with all the conditions of the Department's Probation Program. Respondent shall immediately execute all release of information forms as may be required by the Department or its representatives.

3. REPORT IN PERSON

Respondent, during the period of probation, through its designated owner or owners, shall appear in person at interviews/meetings as directed by the Department or its representatives.

4. COMPLY WITH CONDITIONS OF PROBATION

Respondent shall fully comply with the conditions of probation established by the Department and cooperate with representatives of the Department in its monitoring and investigation of the respondent's compliance with the Department's Probation Program. Respondent shall inform the Department in writing within no more than 14 calendar days of any address change. Upon successful completion of probation, respondent's license shall be fully restored.

5. POSTING OF SIGN

During the period of suspension, respondent shall prominently post a sign or signs, provided by the Department, indicating the beginning and ending dates of the suspension and indicating the reason for the suspension. The sign or signs shall be conspicuously displayed in a location or locations open to and frequented by customers. The location(s) of the sign(s) shall be approved by the Department and shall remain posted during the entire period of actual suspension.

Additionally, the respondent shall circulate a notice of the conditions of probation to all employees and post the notice in a conspicuous place where notices to employees are posted or available to employees. New employees shall also be provided a copy of the notice of the conditions of probation.

6. MAINTAIN VALID LICENSE

Respondent shall, at all times while on probation, maintain a current and valid license with the Department, including any period during which suspension or probation is tolled.

7. COST RECOVERY

Respondent shall pay to the Department costs associated with its investigation and enforcement pursuant to Business and Professions Code Section 26031 in the amount of \$_____. Respondent shall be permitted to pay these costs in a

payment plan approved by the Department, with payments to be completed no later than three months prior to the end of the probation term.

If respondent has not complied with this condition during the probationary term, and respondent has presented sufficient documentation of good faith efforts to comply with this condition, and if no other conditions have been violated, the Department, in its discretion, may grant an extension of the respondent's probation period up to one year without further hearing in order to comply with this condition. During the one-year extension, all original conditions of probation will apply.

8. LICENSE SURRENDER

During respondent's term of probation, if it ceases business or is otherwise unable to satisfy the conditions of probation, respondent may surrender its license to the Department. The Department reserves the right to evaluate respondent's request and to exercise its discretion whether to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances, without further hearing. Upon formal acceptance of the tendered license, respondent will no longer be subject to the conditions of probation. Surrender of respondent's license shall be considered a disciplinary action and shall become a part of respondent's license history with the Department.

9. VIOLATION OF PROBATION

If a respondent violates the conditions of probation, the Department, after giving the respondent notice and an opportunity to be heard, may set aside the stay order and impose the stayed discipline (revocation/suspension) of the respondent's license. If during the period of probation, an accusation or petition to revoke probation is filed against respondent's license, or the Department has served the respondent a notice of intent to set aside the stay, the Department shall have continuing jurisdiction, and the probationary period shall automatically be extended and shall not expire until final resolution of the matter.

V. INTRODUCTORY LANGUAGE AND OPTIONAL TERMS AND CONDITIONS OF PROBATION

The following introductory language and all standard probation conditions are to be included in probationary decisions/orders. For applicants, cost recovery conditions do not apply. For licensees, all standard probation conditions apply. Optional terms and conditions may be included in orders of probation based upon violations.

INTRODUCTORY LANGUAGE FOR ALL ORDERS

IT IS HEREBY ORDERED that License Number _____ issued to respondent is [revoked/suspended/fined] [for/in the amount of] [days/amount], [however, the revocation is stayed] and respondent is placed on probation for _____ years on the following conditions.

SEVERABILITY CLAUSE – Each condition of probation contained herein is a separate and distinct condition. If any condition of this Order, or any application thereof, is declared unenforceable in whole, in part, or to any extent, the remainder of this Order, and all other applications thereof, shall not be affected. Each condition of this Order shall separately be valid and enforceable to the fullest extent permitted by law.

New Requirements for Cannabis Tinctures and Beverages

The Department of Cannabis Control (DCC) adopted new regulations that clarify the differences between tinctures and beverages. These regulatory provisions became effective on November 7, 2022.

This guidance is a tool to assist licensees with understanding the new regulations, but it does not impose additional requirements or change the regulations. This guidance explains:

- Cannabis tinctures
 - What changed in regulation
 - Answers to common questions about tinctures
 - Expectations for compliance
- Cannabis beverages
 - What changed in regulation
 - Answers to common questions about beverages
 - Expectations for compliance

The complete text of DCC’s regulations can be found in California Code of Regulations, Title 4, Division 19, and on the [DCC Rulemaking Page](#).

Cannabis Tinctures

What Changed in Regulation

Definitions

“Tincture” is defined in section 15000(rrr) to mean a solution of cannabis extract, derived either directly from the cannabis plant or from a manufactured cannabis extract, dissolved in alcohol, glycerin, or vegetable oils. “Vegetable” here includes botanically classified fruits and vegetables, and their seeds.

Additional Requirements for Tinctures

New section 17302.1 imposes limitations on the size and ingredients that may be included in tinctures. A tincture shall be no more than 2 fluid ounces and shall include a calibrated dropper or similar device for measuring a single serving.

The regulation also provides that a tincture may include ingredients other than cannabis extract and alcohol, vegetable oil, or glycerin, as long as the primary ingredient by weight is alcohol, vegetable oil, or glycerin.

What is the purpose of the new tincture regulations?

The new regulations specify the size, packaging and ingredient limitations for tinctures. DCC has defined tincture narrowly to ensure that tinctures remain distinct from cannabis beverages, which are regulated as edible cannabis products. Tinctures, as cannabis concentrates, may have significantly more THC (up to 1,000 mg) than edible cannabis products (up to 100 mg) and are designed to generally be consumed sublingually in small amounts, whereas edible cannabis products are consumed like a food or beverage. To maintain the integrity of tinctures and ensure consumer safety, it is necessary to limit the ingredients permitted in tinctures to those that are consistent with sublingual or similar consumption, as distinct from the consumption of edible products.

For consistency, DCC has clarified that all tinctures are subject to the same volume limits and calibrated dropper or measuring device requirement in section 17303 applicable to orally consumed products containing alcohol, which may also be tinctures.

Answers to Common Questions About Tinctures

Are there limits on the ingredients that can be used in tinctures?

Yes. Section 15000(rrr) defines “tincture” as a solution of cannabis extract, derived either directly from the cannabis plant or from a manufactured cannabis extract, dissolved in alcohol, glycerin, or vegetable oils. “Vegetable here includes botanically classified fruits and vegetables, and their seeds. Further clarification is provided in section 17302.1(b) which allows a tincture to include ingredients other than cannabis extract and alcohol, vegetable oil, or glycerin provided that the primary ingredient by weight is alcohol, vegetable oil, or glycerin.

Tinctures are considered a cannabis concentrate and are subject to different regulatory requirements than beverages, which are considered edibles. Permitted ingredients in tinctures are limited to those that are consistent with sublingual or similarly fashioned consumption as opposed to edible products.

Are there limits on the size and packaging for tinctures?

Yes. The new regulation imposes a size limitation for tinctures of no more than 2 fluid ounces and requires a calibrated dropper or similar device for measuring a single serving. This is consistent with the volume limit and packaging requirement for orally consumed products containing alcohol in section 17303.

Expectations for Compliance

What must licensees do to comply with the new regulations regarding tinctures?

All licensees in possession of tinctures that do not meet the requirements of the new regulation should move the existing product through and out of the supply chain as quickly as possible. DCC recognizes that licensees may experience compliance issues as they transition their operations. DCC plans to initially prioritize education over discipline and assist licensees with coming into compliance.

Licensees that manufacture tinctures should immediately stop producing tinctures that are not compliant with the new regulations. All tinctures manufactured on and after November 7, 2022, are subject to the new regulatory requirements. Tinctures that do not meet the new requirements may be considered misbranded pursuant to Business and Professions Code section 26039.5(a)(4).

What is the timeframe for complying with the new regulations regarding the additional requirements for tinctures?

The new regulations became effective on November 7, 2022. This means that products manufactured on and after November 7, 2022 are subject to the new regulatory requirements. Licensees that manufacture tinctures should immediately stop producing tinctures that are not compliant with the new regulations. All licensees with existing cannabis tincture products that do not meet the requirements of the new regulation should move the existing product through and out of the supply chain as quickly as possible.

DCC recognizes that licensees may need to their business operations to come into compliance. DCC plans to initially prioritize education over discipline and assist licensees with coming into compliance.

Packaging and Marketing Regulations for Beverages

What Changed in Regulation

What are the new regulations for cannabis beverage packaging?

DCC changed section 17411 to allow cannabis beverages to be packaged in glass containers that are clear or any color.

What are the new regulations relating to marketing of cannabis beverages?

DCC amended the regulation prohibiting the marketing of cannabis goods as alcoholic products. The regulation was previously applicable to distributor and retailer licensees but has been expanded to apply to all licensees. Specifically, section 15040.1 prohibits the marketing, advertising, sale and transport cannabis goods that are labeled as beer, wine, liquor, spirits, or any other term used to describe a type of alcohol or alcoholic beverage that may create a misleading impression that the product is an alcoholic beverage.

Answers to Common Questions About Beverages

Are terms that described flavors that also may be associated with alcoholic beverages be used?

Licensees should exercise particular caution when labeling, advertising, or marketing cannabis products with flavor-related terms commonly used to describe alcoholic beverages (for example, “strawberry daquiri,” “piña colada,” or “margarita”). To ensure that such terms cannot create a misleading impression that the product is an alcoholic beverage, licensees may wish to consider clearly and prominently describing such flavors as “non-alcoholic.”

What if the company or brand name is also associated with alcoholic beverages?

A company or brand name associated with alcoholic beverages is not prohibited from appearing on cannabis goods or in marketing and advertisements for cannabis goods provided it does not create a misleading impression that the product is an alcoholic beverage.

Expectations for Compliance

What must licensees do to comply with the new regulations regarding cannabis beverages?

The new regulation regarding packaging of cannabis beverages does not require any change by licensees in their current operations. The amendment to section 17411 aligns with the change in Business and Professions Code section 26120, subsection (e) which permits licensees that manufacture cannabis beverages to package beverages in glass containers that are clear or any color.

To comply with the regulations regarding the sale, marketing and advertising of cannabis goods as alcoholic products, licensees that manufacture such products should immediately stop producing products that are not compliant with the new regulation. Because these products are already prohibited from the supply chain by Business and Professions Code section 26070.2 and section 15040.1, DCC anticipates that manufacturing licensees are not currently producing such products.

New Requirements for Inhaled Cannabis Products

The Department of Cannabis Control (DCC) has adopted new regulations that clarify what can be included in inhaled cannabis products. These regulatory provisions became effective on November 7, 2022.

This guidance is a tool to assist licensees with understanding the new regulations, but it does not impose additional requirements or change the regulations. This guidance explains:

- Inhaled Cannabis Products

Cannabis Products

What Changed in Regulation

Additional Requirements for Inhaled Cannabis Products

DCC has adopted section 17303.1, which limits the components that may be included in cannabis products intended for inhalation. Cannabis products intended for inhalation may contain only cannabis; cannabis concentrate; terpenes; rolling paper leaf; pre-roll filter tips; and ingredients permitted by the United States Food and Drug Administration as an “inactive ingredient” for inhalation, as specified in the United States Food and Drug Administration Inactive Ingredients Database.

Definitions

“Terpenes” is defined in section 15000(ppp), which defines “terpenes” as “terpenes, terpenoids, flavonoids, polyphenols, and other naturally occurring phytochemicals and secondary metabolites contributing to the aroma or flavor of cannabis.

What is the purpose of the new inhaled products regulations?

The new regulations limit the substances that can be used to add flavor to inhaled products, including flavors that are attractive to children, by masking the natural flavor and aroma of cannabis.

The regulation limits ingredients in inhalable cannabis products in accordance with the United States Food and Drug Administration (FDA) *Inactive Ingredients Database* for inhalation.

Answers to Common Questions About Cannabis Products Intended for Inhalation

Are there limits on flavors that can be included in cannabis products intended for inhalation?

Yes. Section 17303.1 imposes limitations on the components that may be included in cannabis products intended for inhalation. In particular, the regulation limits the terpenes that can be included in inhaled products by defining terpenes.

“Terpenes” is defined to mean “terpenes, terpenoids, flavonoids, polyphenols, and other naturally occurring phytochemicals and secondary metabolites contributing to the aroma or flavor of cannabis” in section 15000(ppp). Through this definition, DCC has specifically limited the terpenes that may be added to inhaled products to those that are naturally occurring and contribute to the flavor or aroma of cannabis. As such, artificial, synthetic, and natural flavorings or terpenes that do not contribute to the natural flavor or aroma of cannabis are not permitted. This means that added terpenes do not need to be cannabis derived but they must be consistent with the terpenes that naturally exist in cannabis. Flavors that would be prohibited under this definition include, but are not limited to, menthol, mint, mango, strawberry, grape, orange, clove, cinnamon, pineapple, vanilla, coconut, licorice, cocoa, chocolate, cherry, coffee, popcorn, and bubblegum.

Are artificial, synthetic or non-cannabis terpenes, permitted in cannabis products intended for inhalation?

Artificial or synthetic terpenes are not permitted. Through the definition of “terpenes” in section 15000(ppp), DCC has specifically limited the terpenes that may be added to inhaled products to those that are naturally occurring and contribute to the natural flavor and aroma of cannabis. Terpenes that are not derived from cannabis may be added if they are naturally occurring, consistent with the terpenes that naturally occur in the cannabis they are being added to, and contribute to the natural flavor and aroma of cannabis.

What other limitations are placed on cannabis products intended for inhalation?

Section 17303.1 limits the components that can be included in cannabis products intended for inhalation to the following: cannabis; cannabis concentrate; terpenes; rolling paper leaf; pre-roll filter tips; or ingredients permitted by the United States Food and Drug Administration as an “inactive ingredient” for inhalation, as specified in the United States Food and Drug Administration *Inactive Ingredients Database*. The DCC believes that prohibiting inactive ingredients that have not been approved for inhalation by the Food and Drug Administration is necessary to protect the consumer. The FDA database is available at [FDA Inactive Ingredients Database Download](#).

Are there labeling or marketing restrictions for cannabis products intended for inhalation?

Cannabis products intended for inhalation must comply with all labeling and advertising requirements in the Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA), which begins at Business and Professions Code (BPC) section 26000, and the DCC's regulations. This includes ensuring that all ingredients are listed on the label and that any labeling, advertising and marketing comply with restrictions on content that is attractive to minors under the age of 21. (BPC §§26120 and 26152; CCR §§15040, 17300, 17406, and 17408). Cannabis products that are labeled or designed in a manner that is attractive to minors under the age of 21 are prohibited. Licensees should exercise particular caution when labeling, advertising or marketing cannabis products with flavor-like names (for example, "bubblegum" or "cherry kola") to ensure that such products are not attractive to minors.

Expectations for Compliance

What must licensees do to comply with the new regulations?

All licensees in possession of cannabis products intended for inhalation that do not meet the requirements of the new regulation should move the existing product through and out of the supply chain as quickly as possible. DCC recognizes that licensees may need to transition their business operations to come into compliance. DCC plans to initially prioritize education over discipline and assist licensees with coming into compliance.

Licensees that manufacture cannabis products intended for inhalation should immediately stop producing products that are not compliant with the new regulations. All cannabis products intended for inhalation manufactured on and after November 7, 2022, are subject to the regulatory requirements. Cannabis products intended for inhalation that do not meet the new requirements may be considered adulterated pursuant to Business and Professions Code section 26039.6(a)(4).

What is the timeframe for complying with the new regulations regarding the additional requirements for inhaled cannabis products?

The new regulations became effective on November 7, 2022. This means that cannabis products intended for inhalation manufactured on and after November 7, 2022 are subject to the new regulatory requirements. Licensees that manufacture these products should immediately stop producing cannabis products intended for inhalation that are not compliant with the new regulations. All licensees with existing cannabis products intended for inhalation that do not meet the requirements of the new regulation should move the existing product through and out of the supply chain as quickly as possible.

DCC recognizes that licensees may experience compliance issues as they transition their operations. DCC plans to initially prioritize education over discipline and assist licensees with coming into compliance.
